A Brief History

Dean was founded as Dean Academy in 1865 with the financial assistance and enthusiastic support of Dr. Oliver Dean, a Franklin, MA, native and local physician who was devoted to the education of young people.

The Academy offered men and women a well-rounded program of academics, athletics and student activities. In addition, the Academy provided students a personal atmosphere that identified and cultivated the strengths of its students, preparing them for admission to college. An excellent reputation soon resulted, and the standards set during the early years have formed a strong tradition followed by Dean today.

Exceptional growth led to a new charter in 1941: Dean Junior College. Next came national accreditation in 1957 and then a slew of exciting additions. Over the course of 29 years, Dean introduced the Louis Pieri Gymnasium, Peirce Science Center, E. Ross Anderson Library, Grant F. Longley Athletic Field, the Children's Center, the WGAO radio station, the Academic Computer Center and a renovated Campus Center.

Dean proudly reached a new milestone in its history in 1994, when its name was officially changed from Dean Junior College to Dean College. A new era began at Dean in fall 2000 when Dean offered its first four-year degree, a B.A. in Dance. Soon, Dean was offering bachelor's as well as associate degrees, and an era of capital improvements was initiated. In 2010, Dean opened its new 28,000-square-foot performance venue and dining center. In 2013, Dean unveiled the Dorothy & Glendon Horne '31 Hall and dedicated the Morton Family Learning Center. Additionally, the College opened the Berenson Mathematics Center. In 2014, the Palladino School of Dance celebrated 50 years of dance education. In 2015, Dean College celebrated its sesquicentennial anniversary — 150 years of rich milestones. Dean collaborated with Kraft Sports + Entertainment to establish The Center for Business, Entertainment and Sport Management. The College also unveiled the newly renovated Grant Field as a venue for student recreation and athletic team practice. In 2016, Dean held a ribbon-cutting ceremony for the Rooney Shaw Center for Innovation in Teaching, a center that focuses on developing teaching strategies that encourage active learning, enhanced by technology and delivered through various techniques. Dean transitioned to provisional membership status in the NCAA Division III in September 2017. In the fall of 2018, the College introduced a Bachelor of Fine Arts degree in Dance. Dean experienced its largest full-time student enrollment in the past 30 years in the fall of 2019. The College also introduced Dean Career Advantage (DCA) and unveiled the newly remodeled Digital Studios and Radio Station. 2020 marks Dean's 155-year anniversary, the 25-year anniversary for Dean College President Dr. Paula M. Rooney, and the 20-year anniversary of the approval of our first bachelor's degree, Dance.

Today, Dean College is an accredited private coeducational college offering full-time and part-time, associate and bachelor's degrees. Dean provides a supportive academic environment that thrives on student engagement, exceptional teaching and **The Dean Difference**. Fittingly, our College motto, inspired by Dr. Oliver Dean's family saying, is *Forti et Fideli Nihil Difficile*: "To the strong and faithful, nothing is difficult."

Mission Statement

Dean College is a private, residential New England college grounded in a culture and tradition that all students deserve the opportunity to discover and exceed their greatest aspirations. A personal and transformative community since 1865, Dean tirelessly inspires our students to unimagined heights through personalized support and integrated delivery of academic, co-curricular and experiential learning. Our graduates are lifetime learners who thrive in their careers, embrace social responsibility and demonstrate leadership. This is **The Dean Difference**.

Accreditation

Dean College is accredited by the New England Commission of Higher Education (NECHE); is authorized to award the Associate in Arts, Associate in Science, Bachelor of Arts, Bachelor of Fine Arts and Bachelor of Science degrees by the Commonwealth of Massachusetts; and is a member of many professional education associations.

NECHE accredits colleges and universities in the six New England states. Membership in one of the regional accrediting associations in the United States indicates that the college or university has been carefully evaluated and found to meet standards agreed upon by qualified educators.

The Dean College Children's Center is accredited by the National Association for the Education of Young Children.

DEAN COLLEGE STUDENT LEARNING GOALS

A

Through academic, co-curricular and experiential learning, Dean College students will have the opportunity to engage in a transformative experience through which they can be inspired to exceed their highest expectations. Dean students can acquire knowledge, skills and experiences that will enable them to become lifelong learners able to respond adaptively to personal, civic and professional goals while exemplifying **The Dean Difference**. Specifically, Dean College students pursue the following learning goals:

Critical Thinking and Creative Problem Solving

Research and connect information from multiple, credible, valid sources and perspectives to critically evaluate and creatively solve problems or advance innovations.

Quantitative Reasoning

Conduct numerical and graphical operations and analyses to draw and defend conclusions.

Global and Intercultural Fluency

Demonstrate awareness and respect for commonalities across and differences between identities, cultures, experiences and/or global origins.

Effective Communication

Exchange thoughts and ideas clearly and effectively in written, oral and visual forms while demonstrating audience awareness.

Teamwork Competency

Build collaborative relationships to contribute effectively to team goals by organizing, prioritizing, completing and/or delegating work with integrity.

Career Mindset

Research, articulate and acquire essential skills and experiences associated with desired career path(s) and actively pursue chosen career(s) utilizing **Dean Career Advantage** preparation.

In addition to these core learning goals, students will also develop specific learning goals related to their major. These major-specific goals are detailed in the program description for each major, beginning on [page 32](#).

Achievement of these learning goals is assessed through the College's comprehensive student learning outcomes assessment plan.

Academics

PROGRAMS AND DEGREE OFFERINGS

BACHELOR'S DEGREE PROGRAMS

B

Dean College offers the Bachelor of Arts, the Bachelor of Fine Arts and the Bachelor of Science degrees in 20 majors, all of which embrace a liberal arts foundation.

Bachelor's Degree Majors:

- Arts and Entertainment Management
- Athletic Coaching and Recreation Management
 - Athletic Coaching
 - Recreation Management
- Biology
- Business Management
- Communications
- Criminal Justice and Homeland Security
 - Criminal Justice
 - Homeland Security
- Dance (B.A.)*
 - Dance Pedagogy
 - Dance Performance/Choreography
 - Dance Studies
 - Studio Management
- Dance (B.F.A.)*
 - Choreography
 - Performance
- Early Childhood Education
- English
- Entertainment Industry Management
- Exercise Science
- History
- Liberal Arts and Studies
 - Family and Childhood Studies
 - Global Studies
 - Health and Society
 - Human Services
 - Individually Designed
 - Pre-Law
- Marketing
- Psychology
- Sociology
- Sport Management
- Sports Broadcasting
- Theatre*
 - Acting
 - Musical Theatre
 - Technical Theatre
 - Theatre Studies

While some students know precisely what they want to major in, many others want to explore possibilities before officially declaring a specific major. These students will start as undeclared students and do not need to officially declare a major until completion of 30 credits, generally at the end of their first academic year at the College.

*Admission by audition only

Bachelor's Degree Requirements for students entering under the 2020–2021 catalog:

1. A 2.000 cumulative grade point average (GPA).
2. A minimum of 120 credits for the bachelor's degree (some majors require more).
3. The following core courses**:
 - ENG 111 – Composition I
 - ENG 112 – Composition II
 - SPC 101 – Communication Fundamentals
 - Core Mathematics Elective*
 - Core Lab Science Elective*
 - Core Distribution Arts Elective* or ART 101
 - Core Distribution Humanities Elective* or HIS 111, HIS 112, HIS 151 or HIS 152
 - Core Distribution Natural Sciences and Mathematics Elective*
 - Core Distribution Social Sciences Elective* or PSY 111 or SOC 113
 - COM 327 – Applied Professional Communication
 - 9 credits of Upper-Division Liberal Arts electives (from outside the major)
4. 33–63 credits of required courses specific to the major.**
5. 18–57 credits for tracks, minors and open electives.
6. A course may fulfill two requirements (core and major only) but is counted only once toward the total credit requirements for the degree.
7. Bachelor's degree full-time students must complete these requirements in a maximum of 12 semesters. For an extension, students must appeal directly to the Associate Vice President for Student Success and Career Planning.

*See [pages 198–202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

**Precise requirements vary for each major. See [pages 32–101](#) for the specific requirements.

ASSOCIATE DEGREE PROGRAMS

Dean College offers the Associate in Arts and Associate in Science degrees in 18 majors, all of which embrace a liberal arts foundation.

Associate Degree Majors:

Athletic Coaching and Recreation Management

Business

Communications

Criminal Justice

Dance*

Early Childhood Education

English

Exercise Science

General Studies

Health Sciences

History

Pre-Athletic Training

Pre-Nursing

Psychology

Science

Sociology

Sport Management

Theatre/Musical Theatre*

While some students know precisely what they want to major in, many others want to explore possibilities before officially declaring a specific major. These students will start as undeclared students, and do not need to officially declare a major until completion of 30 credits, generally at the end of their first academic year at the College.

*Admission by audition only

Associate Degree Requirements for students entering under the 2020-2021 catalog:

1. A 2.000 cumulative grade point average (GPA).
2. A minimum of 60 credits for the associate degree (some majors require more).
3. The following core courses**:
 ENG 111 – Composition I
 ENG 112 – Composition II
 SPC 101 – Communication Fundamentals
 Core Mathematics Elective*
 Core Lab Science Elective*
 Core Distribution Arts Elective* or ART 101

RESOURCES

Academic Schools

B Academic disciplines and programs at Dean are organized into the following five schools:

School of the Arts

- Arts and Entertainment Management
- Theatre

School of Business

- Athletic Coaching and Recreation Management
- Business
- Business Management
- Communications
- Criminal Justice
- Criminal Justice and Homeland Security
- Entertainment Industry Management
- Marketing
- Sport Management
- Sports Broadcasting

Joan Phelps Palladino School of Dance

- Dance

School of Liberal Arts

Humanities and Social Sciences Department

- Early Childhood Education
- English
- General Studies
- History
- Liberal Arts and Studies
- Psychology
- Sociology

Mathematics, Sciences and Sport/Fitness Studies Department

- Biology
- Exercise Science
- Health Sciences
- Pre-Athletic Training
- Pre-Nursing
- Science

School of Continuing Studies

- Accounting
- Business
- Criminal Justice
- Early Childhood Education
- General Studies
- Health Sciences
- Liberal Arts and Studies
- Pre-Nursing
- Psychology
- Sport Management

Academic Coaching

The Academic Coaching program is designed to provide specialized academic coaching to students at Dean College. This fee-based service is available to any Dean College student who believes they would benefit from individualized academic coaching and skill development in the areas of note taking, time management, organization, test preparation, test taking and writing. We believe that, with professional assistance from an academic coach, students will build upon strengths and address areas of challenge. The cost of academic coaching is \$850 per semester for one hour of academic coaching per week and \$850 for each additional hour per week, per semester. For more information, please contact the Director of the Morton Family Learning Center.

Accessibility Services

Dean is committed to providing access to its educational programs to all qualified students. The College does not discriminate against any qualified student and provides appropriate accommodations at no cost to students with documented disabilities. Such accommodations may include, but are not limited to, extended time for test taking, alternative locations for testing, and scribes and note-taking assistance. In addition, the College considers housing and meal-plan accommodations. The College requests appropriate advance notification of the accommodation requested. Accessibility Services offers assistive technology through which students with documented disabilities access equipment appropriate for their particular disability. Equipment available includes text-to-speech software, dictation software, software to enlarge text with speech output, smartpens and other educational software to assist students with disabilities. For more information, please contact the Coordinator of Accessibility Services.

The All-College Core

The Dean College All-College Core prepares students for what's next through an active learning approach whereby students integrate knowledge and skills and apply them to real-world problems and situations. Students will be given the opportunity to achieve the following specific learning goals through the All-College Core: critical thinking and creative problem solving, quantitative reasoning, global and intercultural fluency, effective communication, teamwork competency and career mindset.

The Arch Learning Community

The Arch Learning Community is a one- to four-year program designed for students with diagnosed learning disabilities and/or other learning challenges, such as attention, memory and executive function difficulties, who would benefit from additional academic support while taking part in a traditional college curriculum. Through individualized Success and Career Advising, students work within the program to acquire the necessary skills to be successful in their degree programs. The cost of the Arch Learning Community is \$3,600 per semester for Arch 1. This fee includes the services described above and three hours per week of academic coaching. The cost for Arch 2 is \$3,200; the cost for Arch 3 is \$2,300 and Arch 4 is \$1,500. For more information about this learning community, please contact the Director of the Arch Learning Community.

The Berenson Mathematics Center

Free mathematics tutoring is offered to all students in the Berenson Mathematics Center, located in the Peirce Technology and Science Center. Students can bring in their assignments and projects to the mathematics tutors in the Berenson Mathematics Center. Help is available for all levels of computational math, statistics, quantitative reasoning and financial literacy. Faculty, professional academic coaches and trained peer tutors who have been nominated by faculty as excellent mathematicians all work together to provide one-on-one support to students on a drop-in basis. Drop-in hours are available on the Morton Family Learning Center's [Today@Dean](#) page. Tutoring schedules are also available at the Mathematics Center.

The Berenson Writing Center

Free writing tutoring is offered to all students in the Berenson Writing Center, located in the Morton Family Learning Center. Students can bring in their writing in all stages of the process: understanding an assignment or reading; collecting research sources; brainstorming and outlining; revising to enrich content; polishing sentences for grammar and citation use; and using MLA, APA and Chicago citation styles. Students can choose face-to-face, written only or video-conference formats. Native and non-native English speakers are welcome. Faculty, professional academic coaches, professional writing tutors and trained peer tutors all work together to provide one-on-one support to students. A schedule of available hours can be found on the Morton Family Learning Center's [Today@Dean](#) page as well as on the Writing Across the Curriculum [Today@Dean](#) page. Appointments are made online at dean.mywconline.com.

Career Planning & Internships

In collaboration with Dean Career Advantage, the Office of Career Planning & Internships works with Success & Career Advisors, Faculty and Staff to embed career readiness into all aspects of a student's time at Dean. The office offers a variety of virtual and in-person services to support students at every step of the

career-building and advising process. From one-on-one career conversations and self-assessment tools to networking events, hiring events, career workshops and transfer workshops, the staff will help students clarify their interests and prepare them for a successful job, internship or transfer institution. Dean students also have access to hundreds of job and internship opportunities through DEAN CareerLink, an exclusive online career management database. For more information, please contact the Director of Career Planning & Internships.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment (KSE). It provides academic, athletic and internship opportunities for students studying Business, Communications, Arts and Entertainment Management, Athletic Coaching and Recreation Management, Criminal Justice and Homeland Security, Exercise Science and Sport Management.

The Center features a cutting-edge curriculum combined with the opportunity to interact with business executives spanning multiple areas of expertise, including representatives from the New England Patriots, New England Revolution and Patriot Place.

The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. Business is more than theory, and at the Center, students are sure to experience this firsthand. At the heart of our partnership is a commitment to provide our students real-world opportunities. For many Dean College students, this includes the chance to complete one of many internships available through Kraft Sports + Entertainment, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Dean Career Advantage

Dean Career Advantage is a holistic program jointly developed by Academic Affairs and Student Development to assist students in preparing for life after Dean. Students work with Success & Career Advisors, Faculty and Staff to make the most of their college experience so that when they graduate, they have a résumé of accomplishments and experiences that will make them as competitive as possible on the job and/or graduate school market. Through a series of career-preparation courses and career-intensive experiences required by every major, students will develop their career mindset — the ability to understand where they are now, see where they want to go next and design and implement a plan to get there.

E. Ross Anderson Library

Located in the Green Family Library Learning Commons, the library has a collection of more than 67,000 books and ebooks and hundreds of videos, DVDs and CDs. The library also provides access to more than 42 research databases with thousands of journals and scholarly articles, including resources from InfoTrac, Gale Group,

SIRS and EbscoHost. Computers are available for students to do research on the Internet. The library is staffed 80 hours per week, but students can access the library 24/7 with their college ID card.

B The library resources are part of the Minuteman Library Network, the premier eastern Massachusetts consortium consisting of 72 public libraries, their branches and academic libraries containing more than 6.5 million resources. The consortium maintains an online catalog of all items owned by the member libraries. Once students have registered at the Dean College library, they are able to borrow materials from any other Minuteman library, including the nearby Franklin Public Library. For hard-to-find items, the interlibrary loan department can request materials from libraries across the country.

The library staff maintains a website that provides campus-wide access to the Minuteman catalog and databases. Professional librarians are available during all operating hours to answer questions and assist students with their research needs.

Honors Program

Students enter the Honors Program at Dean via several pathways. Many Honors students are invited into the program during the admissions process and may start their Dean experience taking Honors courses. Once at Dean, students will continue to be invited based on scholastic achievement and faculty-staff recommendations. Students may also apply to join the program at any time during their Dean career.

Through the Honors courses, students will explore subject matter more deeply and will develop their critical-thinking and writing skills, thereby enhancing their intellectual capacity. Honors courses are also a well spring of camaraderie and networking opportunities. The program offers courses throughout the All-College Core, such as *Composition I*, *Composition II*, *Communication Fundamentals*, Core Distribution Electives and more. There are also Honors sections of major-specific courses as well as regular offerings of always-new special topics course (including courses featuring international travel).

The Honors Program also enriches the educational experience of students by exposing them to a wide variety of cultural and co-curricular offerings, contributing to their well-rounded liberal arts education.

Students will be recognized as Honors Scholars at the end of a given semester and/or upon graduation as follows:

To earn Honors Scholar status for a given semester,

ENROLL! Take Honors courses (two per semester for first-year and sophomore students; one per semester for junior and senior students).

PARTICIPATE! Be a member of a club, organization, cast or crew, be a peer tutor or volunteer, etc.

ATTEND! Go to at least three performances, museums, special lectures/presentations, etc.

EXCEL! Make Dean's List or President's List.

To graduate with Honors Scholar status:

For associate degree students: Earn Honors Scholar status in three out of four semesters.

For bachelor's degree students: Earn Honors Scholar status in six out of eight semesters.

Bachelor's degree students who are Honors Scholars in three out of their first four semesters earn Sophomore Honors Distinction. All Honors Scholar graduates must also earn the designated Grade Point Average to graduate with "Honors" (minimum 3.500 GPA).

Independent Study Program

Independent Study is a credit-bearing course available to Dean College matriculated, degree-seeking students after they have completed one full-time semester (or its equivalent in credits) at Dean. To qualify, students must be matriculated into a degree program at Dean College and be in good academic standing; students on academic probation are ineligible. To enroll, a student must submit a proposal to the faculty member who will sponsor them, the appropriate School Dean and the Assistant Vice President of Academic Affairs. The proposal must discuss in detail the topic to be investigated, outlining the specific learning objectives, grading procedures and intended methodology. Independent Study courses normally carry 3 units of credit and may be taken at the 100, 200, 300 or 400 level as deemed appropriate by the faculty sponsor, the appropriate School Dean and the Assistant Vice President of Academic Affairs. Students may not take a course that is currently offered at the College on an independent study basis. Independent studies are not available to nondegree-seeking students.

International Student FOCUS Program

The International Student FOCUS program is designed for international students entering college in the United States. The program combines cultural orientation, language instruction and individualized tutoring as well as academic classes to give the international student a holistic educational experience. Upon entering the FOCUS program, the student will meet with a Success & Career Advisor who will plan an individualized course of study that addresses the level of English language and cultural support necessary for success.

International Student Services

The Robbins Family Center for Advising & Career Planning is responsible for providing support services and programs for international students. Services include prearrival correspondence, orientation, immigration workshops, general advising, counseling, resource and referral and cultural and community outreach programs.

Internships

Internships offer students on- or off-campus opportunities and a weekly seminar to integrate in-class learning with the practical knowledge gained from firsthand experience onsite. This valuable experiential learning assists students

in formulating career objectives and better prepares students for future employment. All students complete DCA 200 — *Internship Connections: Creating Your Plan* and DCA 300 — *The Internship Experience*. All bachelor's degree students must complete at least one 3-credit internship (DCA 300) no later than the first semester of their junior year. Bachelor's degree students are encouraged to complete additional internships above and beyond the minimum, and these additional credits (up to a total of 15 credits) fulfill degree requirements. Bachelor's degree students may intern twice on campus in two different positions. Any additional internships beyond these two must be off-campus placements.

Map Program

The Map Program is a learning community designed to provide undeclared students an opportunity to learn about themselves and their personal and professional aspirations. Through the use of self-assessments, activities, workshops and faculty and staff mentoring, students acquire necessary tools to select a major and set lifelong learning goals. Students in the Map Program are required to declare a major by the completion of 30 credits, generally the end of the first full year of study.

The Morton Family Learning Center

Situated within the Green Family Library Learning Commons, the Morton Family Learning Center has a comprehensive range of academic support programs designed to address a variety of learning needs. Services and programs include Academic Coaching, Accessibility Services, the Arch Learning Community, the Berenson Mathematics Center, the Berenson Writing Center, Peer Tutoring, Professional Drop-in Tutoring and the Strive4Success Program.

Peer Tutoring Program

Coordinated by the Morton Family Learning Center, the Peer Tutoring Program is a free service offered to any student needing course-specific tutoring. Peer tutors complete a CRLA (College Reading & Learning Association) certified training program and are recommended by faculty; they may either receive academic credit or payment for providing their services. Students interested in meeting with a tutor should review the schedule of tutors and tutoring times in the Morton Family Learning Center and on [Today@Dean](#) or consult the Assistant Director of the Morton Family Learning Center.

Rooney Shaw Center for Innovation in Teaching

Dean College's Rooney Shaw Center for Innovation in Teaching focuses on developing teaching strategies utilizing active learning techniques enhanced by technology and delivered through multiple pedagogical approaches. Outfitted with multiuse furnishings and technology-enabled workstations, the Center supports and encourages faculty to create novel learning environments and push the boundaries of traditional

practice. Through workshops and programming, faculty explore different ways to deliver the curriculum, using technology and other methods to promote active student engagement.

SACHEM

Dean College is a member of the Southeastern Association for Cooperation in Higher Education (SACHEM). Other members of SACHEM include Bridgewater State University, Bristol Community College, Cape Cod Community College, Massachusetts Maritime Academy, Massasoit Community College, Stonehill College, University of Massachusetts Dartmouth and Wheaton College. Full-time Dean students in good academic standing may cross-register for up to two courses at any of the SACHEM institutions on a space-available basis as part of their normal full-time course load during either the fall or the spring semester. Dean students may not register for courses at a SACHEM institution if the equivalent course is offered at Dean College in the same semester. There is no additional tuition charge to take a course from a SACHEM institution, but students are responsible for applicable fees, such as lab fees. Students must also comply with all rules and regulations of the SACHEM institution when in these courses. Students arrange their own transportation to and from classes. For more information, please contact the Office of the Registrar or the Robbins Family Center for Advising & Career Planning.

Strive4Success Program

Strive4Success (S4S) is a one-year program that includes weekly academic coaching for the first semester. The program provides opportunities for students to build study skills and strategies through one-on-one interactive sessions. Students may also be provided a study skills lab to put the skills they have learned during academic coaching into practice. Students are selected for this program by Admissions. The fee for this program is \$850 for each semester the student receives academic coaching. For more information, please contact the Morton Family Learning Center.

Student Success Programs

Student Success Programs work closely with each student to promote a holistic educational experience by providing a spectrum of programs and services that meet the specific academic needs of the College's diverse student population. The goals are to encourage scholastic persistence, instill a heightened sense of responsibility and academic confidence, and develop lifelong learning skills. The spectrum of services includes Academic/Athletic Monitoring, Success & Career Advising, Academic Coaching, Accessibility Services, the Robbins Family Center for Advising & Career Planning, the Arch Learning Community, Career Planning & Internships, International Student Services, the Morton Family Learning Center, Peer Tutoring, Strive4Success and Transfer Services.

Study Away Program

The professional and personal opportunities that await college students who choose to study away are endless. Confident, ambitious students who seek to become true global citizens are encouraged to experience culture outside of their comfort zone by participating in Dean College's Study Away Program. The program includes three options to meet a variety of interests and needs: (1) Dean College courses that include a short, faculty-led 7- to 10-day trip abroad or in the United States; (2) study away in the United States for a semester or a year; and (3) study abroad for a semester or a year. To participate in the faculty-led course trips, students must meet the individual course prerequisites. To study away for a full semester or academic year, students must meet the following eligibility criteria: have completed at least 30 college credits, have a cumulative GPA of 3.000 or higher, be in good judicial and financial standing and receive internal approval. Students must obtain internal approval before applying to specific study away programs. The deadlines for internal approval are February 15 for the subsequent summer or fall semester and October 1 for the subsequent spring semester. Program opportunities around the world are available in many academic majors through several study-away programs, such as Academic Programs International (API), Arcadia University, American Institute for Foreign Study (AIFS), DanceAbroad Argentina, The Disney College Program, Regent's University London, Rome Campus/Assumption College, SIT Study Abroad, and The Washington Center.

Students are strongly advised to start planning early — as soon as the first year — if they are interested in studying away during their Dean College degree program. Students meet with the Study Away Program Director in the Office of Academic Affairs, together with their Success & Career Advisor, to plan an optimal study-away experience for their chosen major even if studying away for a semester or a year. Please contact the Study Away Program Director in the Office of Academic Affairs for more information about program opportunities, the application process and application materials.

Success & Career Advising

Success & Career Advising is an ongoing process at Dean, where students receive quality advisement and genuine concern for their education and well-being. From the first day on campus, students are assigned a Success & Career Advisor within the Robbins Family Center for Advising & Career Planning to guide them through their Dean experience. The advisor provides personalized advising related to course registration, transfer and career planning, internships, transition and co-curricular involvement as well as monitors the student's academic progress. Utilizing a developmental approach, advisors encourage self-reliance by helping students make informed and responsible decisions; set realistic goals; and develop thinking, learning and life management skills to meet present and future needs.

In addition, the advisors encourage students to be responsible for their own success and progress. For more information, please contact the Robbins Family Center for Advising & Career Planning.

Technology

The Student Government Association computer facility, located in the Campus Center, is available 24 hours a day, seven days a week. It offers students a computer lab with up-to-date hardware and software designed for academic use.

The Technology Service Center, located in the Green Family Library Learning Commons, has staff available to answer general questions about computing resources at the College.

Each student is provided with a Dean College network login ID. The network login is required when signing onto the College's network. Assistance with service issues is available for most major manufacturers; however, the College is not authorized to perform service. The Technology Service Center will provide diagnostic support that can expedite warranty support response times.

Equipment not covered under a manufacturer's warranty can be repaired by third-party providers at prevailing rates. The Technology Service Center maintains a list of repair facilities located in the greater Franklin area.

To enhance the student learning experience, it is required that students bring a laptop to campus. In addition, it is recommended that students also bring a printer.

Wireless Network

Dean College has a wireless network across the entire campus that supports the student's, faculty's and administration's mobile computing needs. Using the wireless network, students with their computer can access the College's network resources as well as the Internet from any building located on campus. The wireless network is secured, and a user code and password are required to gain access to College resources. The College's networked resources include the E. Ross Anderson Library research databases, the course websites for all academic courses, the college-provided student email account and Today@Dean. The wireless network provides access to all these resources from all campus buildings, including each residence hall room. Students are required to provide their own wireless-equipped laptop computer. Current, up-to-date antivirus software must be installed on all personal computers connected to the Dean College network. File- or music-sharing software (peer-to-peer) is not permitted over the Dean College network. Students with peer-to-peer software or without current antivirus software will be removed from the College's network. Additionally, the College provides each student Microsoft Office 365, which is valid while a student is enrolled at Dean College.

LIFE AFTER DEAN — BACHELOR'S DEGREES, GRADUATE PROGRAMS AND CAREERS

Dean College is committed to helping students prepare for and achieve their goals. Ninety-eight percent of our associate degree students are accepted to bachelor's degree programs, including those at Dean, and 85% of our bachelor's degree graduates are employed or attending graduate school within six months of commencement. The information provided in this section also outlines where Dean College graduates have gone next after completing their degree programs.

Articulation and Transfer Agreements

Outbound Agreements

Dean College has established transfer articulation agreements with select four-year institutions to enhance options for students. Agreements are subject to change and revision based on institutional curriculum changes. The list of colleges, universities and institutions with which Dean currently has such agreements includes

- Bridgewater State University
- Mount Aloysius College
- Regis College

Inbound Agreements

We also have transfer agreements that pave the way for easy transfer into Dean College. Associate degree graduates from the following institutions with a GPA of 2.000 or higher and in the programs designated in the agreements will be accepted to Dean College:

- Berkshire Community College
- Bristol Community College
- Cape Cod Community College
- Community College of Rhode Island (CCRI)
- Greenfield Community College
- Landmark College (requires a 2.500 GPA)
- Massasoit Community College
- MassBay Community College

Students from any other Massachusetts community college are especially welcome, and we accept the *MassTransfer General Education Foundation*, which makes transferring even easier regardless of your major.

Graduate School Agreements

Dean College has also entered into agreements with select graduate programs for our Dean College bachelor's degree graduates.

- Boston College
- Bryant University
- Endicott College
- Western New England University School of Law
- William James College

Dean College regularly reviews and adds agreements. Please contact the Office of Academic Affairs for updates.

Life After Dean: Transfer upon Graduation from Dean

The following is a representative sample of the colleges and universities that have accepted Dean College students in the last five years. A full list can be obtained from the Robbins Family Center for Advising & Career Planning.

ACADEMIC POLICIES

B

Academic Requirements

Grades are monitored by the College at midsemester and at semester end. Students must meet the following criteria to be in good academic standing:

Number of Attempted Credits*	Good Academic Standing	Academic Probation	Academic Suspension
0-19 Attempted credits	1.800 Cumulative GPA	0.001-1.799 Cumulative GPA	0.000 Cumulative GPA
20-39 Attempted credits	1.900 Cumulative GPA	0.001-1.899 Cumulative GPA	0.000 Cumulative GPA
40+ Attempted credits	2.000 Cumulative GPA	0.001-1.999 Cumulative GPA	0.000 Cumulative GPA

**Attempted credits include credits attempted at Dean College plus the total number of credits accepted in transfer.*

- Students earning a 0.000 cumulative GPA at the end of an academic semester will be academically suspended.
- Students who fall below good academic standing but above a 0.000 cumulative GPA will be placed on academic probation for one semester. Each student on probation is expected to adhere to specific terms and conditions as described in the Dean College Catalog.
- At the end of this probationary semester, the following will happen:
 - Students whose cumulative GPA places them in good academic standing will be removed from academic probation.
 - Student whose term GPA is above good academic standing but whose cumulative GPA remains below academic good standing, will be continued on academic probation.
 - Students with both term and cumulative GPAs below good academic standing will be academically suspended with a right to appeal that suspension.
 - Students who are academically suspended three times, regardless of subsequent appeal resolution, and whose cumulative GPA is still below a 2.000 will be placed on academic dismissal.
- First-semester students who earn
 - A 0.000 cumulative GPA at midsemester of their first semester and have met or exceeded the maximum allowed absences in all courses may be suspended by the College at midsemester.
 - A 0.000 cumulative GPA at the end of their first semester will be automatically suspended.
 - A cumulative GPA above a 0.000 but less than a 1.800 at the end of their first semester will be placed on academic probation for the subsequent semester. Each student on probation is expected to adhere to specific terms and conditions as described in the Dean College Catalog. Students receive a transcript notation for each semester they are placed on academic probation.

Any student suspended by the College will have the right to appeal that suspension to the Academic Appeals Board. Academic Appeals Board decisions supersede a voluntary withdrawal.

Student academic standings (Good Academic Standing, Academic Probation, Academic Suspension and Academic Dismissal) are noted on all academic transcripts at the conclusion of each semester.

Academic Probation

Students not meeting GPA or credit completion requirements (see “Academic Requirements” on [page 17](#)) may be placed on academic probation for one semester. Each student on probation is expected to adhere to specific terms and conditions: (1) as outlined in the letter from either the Registrar or Academic Appeals Board placing the student on academic probation and (2) as specified in the individualized Probation Agreement with the Robbins Family Center for Advising & Career Planning. Terms may include, but are not limited to, attendance in all classes, handing in all assignments, making satisfactory academic progress throughout the semester, enrolling in academic coaching, weekly/biweekly monitoring meetings, weekly academic support group meetings, and/or attendance at mandatory study groups. **A student on academic probation may be suspended at any time during the semester should the student not meet the terms of either the initial letter placing the student on probation or the individualized Probation Agreement.** Students on academic probation may not enroll in more than 16 credits each semester. Students receive a transcript notation for each semester they are placed on academic probation. Grades and overall performance of students on academic probation are carefully reviewed by the Registrar at the end of the fall and spring semesters as well as at the end of winter and summer sessions. If, by the end of the probationary semester, students on academic probation do not raise their cumulative GPA to the minimum level required for good academic standing and do not earn at least a 2.000 term GPA, they will be automatically placed on academic suspension or dismissal. Please see the sections on “Academic Suspension” and “Academic Dismissal” for more information.

Students placed on probation at the end of a fall or spring semester who subsequently raise their cumulative GPA to the minimum required for good academic standing through either winter session or summer session courses will be removed from academic probation. Students meeting the minimum required for good academic standing at the end of the fall or spring semester who subsequently lower their cumulative GPA to below the minimum required for good academic standing through either winter or summer session courses will be placed on academic probation for the following fall or spring semester.

In addition, students who fail to meet the published GPA standards after spring grades are recorded in May will not be eligible for aid in subsequent academic periods. Students who do not meet the College’s standards and are allowed to return to the College on probation by the Registrar or the Academic Appeals Board may appeal to regain eligibility for aid through the Center for Student Financial Planning and Services (see the “Financial Assistance” section on [page 216](#)).

Academic Suspension

A student not meeting GPA requirements for good academic standing (see “Academic Requirements” on [page 17](#)) may be placed on academic suspension for one semester. A student is always permitted to appeal this academic suspension to the Academic Appeals Board. In the letter informing students of their suspension, students are also informed about their right to an appeal and the established appeal date. The decision of the Academic Appeals Board is final, and students may not take courses at Dean College during the period of their academic suspension. If students want to return to Dean after being suspended, they must apply for readmission through the Office of the Registrar. They must also show evidence of success at a regionally accredited college or university other than Dean College. This requires enrolling in no less than 6 credits at another accredited college or university and achieving grades of “C” or better in each course taken. Students receive a transcript notation when they are academically suspended.

Academic Dismissal

A student who has been academically suspended at the end of a semester three times, regardless of subsequent appeal resolution, and still maintains a cumulative GPA that is below a 2.000 will be automatically dismissed by the College. The student will have the right to appeal this dismissal to the Academic Appeals Board. After three years from the date of dismissal, a student may appeal to the Academic Appeals Board for reinstatement to the College. The decision of the Academic Appeals Board is final. Students receive a transcript notation when they are academically dismissed.

Academic Fresh Start

A student who has not been enrolled at the College for a period of one year can petition the Academic Appeals Board to be reinstated under the Academic Fresh Start policy. Under this policy, the student would need to complete all new degree requirements specified by the academic catalog under which the student would re-enter college. Only courses for which the student had previously earned a “C” or better could be applied to the degree. Courses with grades below a “C” would not apply to the degree and would not factor into the new cumulative GPA although they remain on the transcript. After the Fresh Start, any previous academic suspensions from the College will not be counted in the student’s total number of suspensions for academic dismissal purposes although they remain on the transcript. This Fresh Start policy can be used only one time in the student’s academic career at the College.

Academic Honesty

Honesty in all academic work is expected of every student. At Dean College, students may be sanctioned for acts of intentional academic dishonesty. Specific acts of intentional academic dishonesty include, but are not limited to, cheating, handing in writing by another person, copying and pasting text without citation and/or knowingly providing work for another student to turn in. Unintentional acts include, but are not limited to, including a reference list but no in-text citation, including in-text citations but no reference list and/or incorrect or incomplete citations. If a faculty member finds that a student has been intentionally academically dishonest, the faculty member does the following within five business days of discovery of the incident: (1) determines and administers the appropriate course sanction, including, but not limited to, an official reprimand, a grade sanction on the assignment, and/or an opportunity to revise and resubmit the assignment; (2) issues a letter to the student documenting the incident, the finding, and the sanction with a copy sent to the Robbins Family Center for Advising & Career Planning and the Office of Academic Affairs. Students may appeal the faculty member's finding and/or sanction to the Assistant Vice President of Academic Affairs; this request for an appeal must be submitted in writing within five business days of the receipt of the letter from the faculty member and must meet the conditions for an appeal outlined in the Student Code of Conduct. The Assistant Vice President's decision is final. If a student has been found responsible for academic dishonesty previously, the case will also be referred to the Academic Standards Committee for adjudication and additional sanctions, which may include, but are not limited to, failing the course in question, attending a hearing and/or being suspended from Dean College. Additional campus-wide consequences for academic dishonesty may include, but are not limited to, loss of eligibility for academic honor societies, loss of eligibility for campus honors and awards and loss of eligibility for student leadership opportunities.

Adding/Dropping or Withdrawing from a Course

Add/Drop Period

Students may add and drop courses during the Add/Drop Period with the approval of their advisor. Dropped courses are not reflected on students' permanent academic records.

- **Semester-Long Courses:** The Add Period begins on the first day of that term and concludes at the end of the fifth day of that term. The Drop Period begins on the first day of that term and concludes on the 10th day of that term.
- **Quarter Courses:** The Add Period begins on the first day of that term and concludes at the end of the fourth day of that term. The Drop Period begins on the first day of that term and concludes at the end of the eighth day of that term.

- **Summer and Winter Term Courses:** Please refer to the precise dates set by the Office of the Registrar.

Withdrawal Period

Students may withdraw from courses during the Withdrawal Period with the approval of their advisor and the faculty member(s) teaching the course(s) from which they wish to withdraw. Withdrawal requests may also be approved by the Dean of the School that houses the course or the Office of Academic Affairs. Students are assigned a "W" grade for the courses from which they withdraw during the Withdrawal Period. "W" grades have no impact on students' GPAs but may impact students' academic standing and financial aid eligibility as well as athletic eligibility.

- **Semester-Long Courses:** The Withdrawal Period begins the day after the Add/Drop Period ends and concludes 10 days after the midpoint of the semester.
- **Quarter, Summer and Winter Term Courses:** The Withdrawal Period begins the day after the Add/Drop Period ends and concludes five days after the midpoint of that term.

Late-Withdrawal Period

Students may late-withdraw from courses during the Late-Withdrawal Period with the approval of their advisor and the faculty member(s) teaching the course(s) from which they want to withdraw. Students are assigned a "WP" grade if they are passing the course at the time of the late withdrawal or a "WF" grade if they are failing the course at the time of the late withdrawal. "WP" grades have no impact on students' GPAs but may impact students' academic standing and financial aid eligibility as well as athletic eligibility. "WF" grades are weighted the same as "F" (failing) grades and are calculated into students' GPAs the same as "F" (failing) grades are.

- **Semester-Long Courses:** The Late-Withdrawal Period begins the day after the Withdrawal Period ends and concludes on the last day of classes for the semester.
- **Quarter, Summer and Winter Term Courses:** The Late-Withdrawal Period begins the day after the Withdrawal Period ends and concludes on the last day for that term.

Students must complete the Course Add, Drop and Withdrawal Form; obtain all the necessary signatures and submit the form to the Office of the Registrar prior to the end of the respective period before their schedules will be adjusted. Failure to attend a course does not constitute dropping or withdrawing from that course.

B

Advanced Placement (AP)

Dean College participates in the Advanced Placement program of the College Board. If students have taken college-level courses in secondary school and would like to apply for advanced placement credit at Dean College, students should plan to take the Advanced Placement exam at their high school and have the results forwarded to the Office of Admissions. The Office of the Registrar will review the test results, and if the student scores a 3 or higher, college credit will be awarded if applicable. Dean College also participates in the College-Level Examination Program (CLEP) and the International Baccalaureate Diploma (IB) program; please see these entries on [pages 20 and 26](#), respectively, for additional information.

Attendance and Participation Policy

Class attendance and participation are essential for student success, and are a key component of Dean College's educational philosophy. Each faculty member outlines their specific course attendance and participation policy on the individual course syllabi, including consequences for lack of attendance or participation. At a minimum, these policies require that students are present and participating in class, either virtually or in-person, on a consistent basis throughout the duration of the course. Students are responsible for making up any absence-related missed work within the term.

Should absences and/or lack of participation become concerning in an individual course, the faculty member will discuss the situation with the student. If the absences continue, the faculty member issues a Retention Alert which notifies the Success & Career Advisor to conduct an additional intervention. If the absences become excessive, generally the equivalent of two weeks of classes without a valid reason, the faculty member provides a written warning to the student, with a copy to the Success & Career Advisor, that a required withdrawal may be imminent. If a withdrawal is required, students will receive either an "RW", "RP" or "RF" grade for the course depending on the date of withdrawal. Please see [page 19](#) for more information about these periods, and [page 24](#) about these grades and their impact on term and cumulative Grade Point Averages. Students who stop attending all classes for two consecutive weeks without a valid reason may be administratively withdrawn from the College.

Students who are unable to attend all classes due to serious illness, a major accident or a personal or family emergency must contact their Success & Career Advisor and all their faculty to discuss the situation. As appropriate, the student, faculty and advisor work collaboratively to design a plan for the student to continue in each course. This may include revised timelines for submission of assignments due during this period, no attendance-related or participation-related penalties for absences due to these reasons, and so on. If the situation is such that continuing any attendance and participation in courses for four or more weeks is not possible, other plans may be explored, including a voluntary withdrawal or a medical withdrawal for the term.

Dean College adheres to the following Massachusetts state law as it relates to absence due to a religious holiday: "Any student in an educational or vocational training institution, other than a religious or denominational educational or vocational training institution, who is unable, because of his religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination or study or work requirement, and shall be provided with an opportunity to make up such examination, study, or work requirement which he may have missed because of such absence on any particular day; provided, however, that such make-up examination or work shall not create an unreasonable burden upon such school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. No adverse or prejudicial effects shall result to any student because of his availing himself of the provisions of this section."

Auditing Courses

Students may audit courses for no credit. Audited courses bear the same tuition and fees as courses taken for credit. Students will not receive grades on assignments, tests, quizzes or papers. Students will also not receive midsemester or final grades in audited courses and will not be subject to academic monitoring for audited coursework. Students wanting to change their course status from credit to audit or audit to credit must complete the appropriate paperwork available in the Robbins Family Center for Advising & Career Planning and the Office of the Registrar. This paperwork must be completed before the end of the first week of classes.

Catalog Year Changes

Students must fulfill all general education and major requirements as determined by the academic catalog that was in place at the time of their matriculation. Catalog years remain fixed during the period a student is continuously enrolled. Students have the option of changing catalog years but will be held to all the general education and major requirements prescribed in the new catalog year they choose. Students do not have the option of choosing catalog years prior to the catalog year under which they matriculated. Students electing to change their catalog year may do so by completing a Change of Major/Catalog Year form with their Success & Career Advisor.

Readmitted students who have been separated from the college for a year or longer or whose original program as listed in the catalog under which the student was initially admitted has been eliminated will be placed into the catalog year that is in place at the time they are readmitted.

College-Level Examination Program (CLEP)

Dean College participates in the College-Level Examination Program (CLEP) of the College Entrance Examination Board. CLEP enables students to receive

college-level credit for nontraditional learning. Dean College grants credit using the guidelines published by the American Council of Education (ACE) for General and Subject Examinations. Dean College will accept a maximum of 30 transfer credits, including those earned through CLEP, for associate degree programs. For bachelor's degree programs, Dean College will accept a maximum of 90 transfer credits, including those earned through CLEP. Students must earn a minimum score of 50 on a CLEP test in order for the credit to be transferred to Dean College. For more information, please contact the Office of the Registrar. Dean College also participates in the Advanced Placement (AP) program and the International Baccalaureate Diploma Program (IB); please see these entries on [pages 20 and 26](#), respectively, for additional information.

Communicating with Students

The College's official channels of communication with students include Dean's email, Today@Dean and campus mail systems including mailroom postal boxes. Students are expected to check these channels daily.

Copyright Infringement Policy

Copyright Infringement

In compliance with the amendments to the Higher Education Act (HEA) under the Higher Education Opportunity Act of 2008 (HEOA), Dean College is required to disseminate information on the College's policies and sanctions related to copyright infringement, including a summary of the penalties for violation of Federal copyright laws.

Unauthorized copying and distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject students to civil and criminal liabilities. Students should be aware, however, that not all uses of copyrighted materials are illegal. The U.S. Copyright Act allows for the copying and distribution of certain copyrighted materials when such use is a "fair use." If you have questions regarding what may constitute fair use, please contact our librarian at 508-541-1771.

As required under HEOA, the penalties for violation of Federal copyright laws are summarized as follows.

If there is infringement, Section 504 of the U.S. Copyright Act gives the copyright holder the choice of recovering the following:

- The copyright owner's actual damages and any attributable profits of the infringer; or statutory damages, ranging from \$750 to \$30,000 for each copyrighted work that is infringed.
- If the copyright holder can prove that the infringement was committed "willfully," a court has the discretion to increase statutory damages to \$150,000 per copyrighted work.
- As a general rule, to qualify for statutory damages, the copyright holder must have registered the infringed work with the U.S. Copyright Office prior to the date of the infringement. If the work was

not previously registered before the infringement, then the copyright holder can only recover actual damages and the infringer's profits.

If the work was registered with the U.S. Copyright Office prior to the infringement, Section 505 of the Copyright Act also gives a court the discretion to award reasonable attorney's fees and court costs to the copyright holder.

Sections 502 and 503 of the Copyright Act detail other civil remedies, including a court order barring the infringer from making further copies and an order to seize and destroy unauthorized copies.

Section 506 of the Copyright Act and Section 2319 of Title 18 of the United States Code authorize criminal liability for willfully infringing copyright under the following circumstances:

- If the willful infringement was for purposes of commercial advantage or private financial gain;
- If the willful infringement involved the reproduction or distribution during any 180-day period of one or more copies of one or more copyrighted works that have a total retail value that exceeds \$1,000; or
- If the willful infringement involved the distribution of a work being prepared for commercial distribution, by making it available on a computer network accessible to members of the public, if the infringer knew or should have known that the work was intended for commercial distribution.
- Criminal penalties can include fines as well as imprisonment for up to five years. Imprisonment can be for up to 10 years for a second or subsequent offense.

Downloading & P2P File Sharing

Dean College strictly prohibits the unauthorized uploading, downloading or sharing of copyrighted material. Peer-to-peer (P2P) file sharing occurs when digital files are transferred between "peer" computers over the Internet using services such as BitTorrent or Gnutella.

In compliance with the Higher Education Opportunity Act of 2008 (HEOA), unauthorized peer-to-peer file sharing may subject students to civil and criminal liabilities (see Copyright Infringement section). Furthermore, unlawful distribution of copyrighted material may result in sanctions imposed by the College. College sanctions may include, but are not limited to, expulsion from the College and/or payment of any legal fees that the College may incur in its defense. The entity whose copyright was infringed may also bring legal action.

Legal Downloading

The HEOA requires all colleges and universities to offer legal alternatives to unauthorized downloading. Educause provides a list of these legal alternatives at <http://www.educause.edu/legalcontent>. The products or services listed are in no way endorsed or evaluated by Dean College.

Credit Hour

Dean College complies fully with the New England Commission of Higher Education's (NECHE) definition of a credit hour: a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutional established equivalence that reasonably approximates not less than:

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or trimester hour of credit or 10 to 12 weeks for one quarter hour of credit or the equivalent amount of work over a different amount of time or

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours.

Dean's List

After each fall and spring semester (a semester includes both full semester courses and quarter courses), students are included on the Dean's List if they earn a semester Grade Point Average (GPA) of 3.500 or higher with no grade below a "C" and no "RW," "RP," "RF" or "WF" grades for that semester. In addition, full-time students must complete at least 75% of attempted credits to be eligible for Dean's List consideration. Because students in the School of Continuing Studies (SCS) enroll in fewer credit hours during a semester, they are subject to different Dean's List eligibility guidelines that are published by SCS. Students placed on the Dean's List receive a transcript notation for that semester.

Declaring a Major

Dean College students may declare a major at any time between their initial application and acceptance to the College until they have earned 30 credits, generally at the end of their first academic year. While some students know what they want to major in before they even begin their college career, other students want to explore possibilities and take some courses before they formally declare a major. Students also have the option of changing their major at any time in consultation with their advisor in the Robbins Family Center for Advising & Career Planning. For more information, please contact the Robbins Family Center for Advising & Career Planning.

Double Degrees

To earn a double associate degree, students must complete a minimum of 90 credits and must fulfill the requirements for both degree programs. To earn a double bachelor's degree, students must complete a minimum of 150 credits and must fulfill the requirements for both degree programs. To earn an associate degree

and a bachelor's degree, students need to complete the requirements of both degree programs. For more information on specific requirements for both double majors and double degrees, please contact the Robbins Family Center for Advising & Career Planning or the Office of the Registrar.

Double Majors

Baccalaureate degree-seeking students who want to earn a double major may do so by declaring a double major with their advisor in the Robbins Family Center for Advising & Career Planning. Students must complete their general education requirements and all the requirements for each major. Students may only double major at the baccalaureate degree level; double majors are not available to students at the associate degree level.

English as a Second Language

International students for whom English is a second language are either fully matriculated into the College or are placed into one of three levels of the FOCUS program using the TOEFL, IELTS or equivalent ESL assessment scores submitted with their application for admission. Students who do not submit these scores must take an English language assessment during International Student Orientation. Students placing into the FOCUS Program can progress as their English proficiency improves. Students placing into level 1 of the FOCUS program are required to enroll in at least one hour of academic coaching for additional support of their English language development. Students placing at level 2 or 3 of the program are strongly encouraged to enroll in one-on-one tutoring for additional academic support through the Academic Coaching program.

Students with a TOEFL iBT of 32–44, an IELTS of 4.5–5, or an equivalent score will be enrolled in level 1 of the FOCUS Program, completing an intensive section of *Composition I* (ENG 111), an intensive section of *Communication Fundamentals* (SPC 101), an Introductory course in their major and a math elective; these students also are required to enroll in at least one hour of academic coaching. Students entering with a TOEFL iBT of 45–60, an IELTS of 5.5 or an equivalent score will be enrolled in level 2 of the FOCUS Program and will take the following courses during their first semester at Dean College: an intensive section of *Composition I* (ENG 111), an intensive section of *Communication Fundamentals* (SPC 101), an Introductory course in their major and a math elective. Students entering with a TOEFL iBT of 61–78, an IELTS of 6 or an equivalent score will be enrolled in level 3 of the FOCUS program and will take the following courses during their first semester at Dean College: an intensive section of *Composition I* (ENG 111), an intensive section of *Communication Fundamentals* (SPC 101), an Introductory course in their major, a core course and an open elective or additional course in their

major. All courses apply directly to degree requirements. Students with a TOEFL iBT score of 79 or higher, an IELTS score of 6.5 or higher or an equivalent score are fully matriculated into the College; these students will take the first semester courses required for their specific major. All courses apply directly to degree requirements.

Full-Time Student Status

A full-time student is required to be registered in and attending a minimum of 12 credits of academic work per semester unless a specific accommodation for a reduced course load has been approved by the Office of Accessibility Services. Failure to maintain the minimum requirement may impact the following:

- Eligibility to remain in residential housing.
- Financial Aid eligibility: If a student is on Financial Aid, the student is encouraged to inquire into how this change in status will affect specific eligibility.
- Athletic eligibility: Students who drop below 12 credit hours are no longer eligible to participate in athletic competition.
- Certification of Attendance: Failure to maintain full-time status may affect eligibility for health insurance certification as well as past loan deferments.

To enroll in more than 18 credits in any semester, a student must have completed at least one full-time semester at Dean College. There must also be space available in the courses in which the student wants to enroll as priority will go to students who are not taking the course as an overload. In addition, to enroll in 18.5–20.5 credits, the student must have completed a minimum of 15 credits with a cumulative GPA of at least 2.500; to enroll in 21 credits, the student must have completed a minimum of 15 credits (not including developmental courses) with a cumulative GPA of at least 3.000. A student on academic probation may not enroll in more than 16 credits per semester.

A student enrolling in more than 18 credit hours in the Fall and/or Spring terms, including any combination of full-term and quarter-term credits, will be levied a tuition surcharge of \$775 per additional credit hour. A student is levied surcharges based on credit hours attempted for the term. If a student exceeds 18 credit hours in each term and then withdraws from a course, the student is still responsible for the surcharge. Students exceeding 18 credit hours in a term who are enrolled in Peer Tutoring courses (PTU) will not be assessed the surcharge for the PTU credit hours that put them over 18 credits. All other credit hours exceeding 18 credits are subject to the surcharge.

No student will be permitted to enroll in more than 21 credits in any given semester. A student who would like to enroll in more than 18 credits but does not meet the criteria listed above must get approval in writing from

the Associate Vice President for Student Success and Career Planning.

Any student registered in and attending less than 12 credit hours may not reside in a residence hall unless advanced written permission is obtained from the Office of Student Development. Should students need to reduce their course load to fewer than 12 credits during a semester, they must have written approval from the Associate Vice President for Student Success and Career Planning and the Office of Student Development. Failure to obtain that approval will result in the immediate administrative withdrawal of the student from the College. In the subsequent semester, students may enroll in no more than 16 credits and must meet with their advisor regularly. Students not permitted to reside on campus must depart within 24 hours of the decision rendered.

Any student who wants to change from full-time to part-time status should obtain a Change of Status Form from the Office of the Registrar in the Center for Student Financial Planning and Services or the School of Continuing Studies (SCS). Part-time students may enroll in a maximum of 10 credits per semester through SCS. To obtain full-time status, part-time students must apply for admission through the Office of Admissions or readmission through the Office of the Registrar if the student has previously been admitted as a full-time student.

Full-time students may enroll in up to two School of Continuing Studies courses per semester (includes full semester and quarter courses) during the fall and spring semesters as part of their regular academic course load. Full-time student enrollment in courses offered through the School of Continuing Studies may not equal more than a third of total course enrollments. (A surcharge for credits exceeding 18 credits may apply.)

Full-time students may enroll in a total of two School of Continuing Studies courses during the accelerated winter intersession at the current School of Continuing Studies rate of tuition. Full-time students pursuing an internship during the accelerated, winter intersession are permitted to enroll in three credits with approval. Internship credits are assessed at the School of Continuing Studies part-time day rate of tuition. (See page 1 of the School of Continuing Studies catalog.)

Full-time students may enroll in a total of three School of Continuing Studies courses, or a maximum of 10 credits, during the summer semester (includes summer one and summer two) at the current School of Continuing Studies rate of tuition. Full-time students pursuing an internship during the summer are permitted to enroll in 3–12 credits with approval. Internship credits are assessed at the School of Continuing Studies part-time day rate of tuition. (See page 1 of the School of Continuing Studies catalog.)

Grades

Grades are reported at midsemester and shortly after the close of each semester. Midsemester grades are indicated as letter grades but they are not part of a student's permanent record or official transcript and are not calculated in the term or cumulative Grade Point Averages. Students may view their midsemester and final grades online on DeanAdvisor or Self-Service. Students also have the option of granting parents/guardians access to view their grades via the Parent Portal.

To arrive at a single scale value to determine the quality of a student's academic performance, Dean employs the grade point system. Through this method, letter grades represent the following numerical values:

A	=	4.000	(93+)
A-	=	3.700	(90-92)
B+	=	3.300	(87-89)
B	=	3.000	(83-86)
B-	=	2.700	(80-82)
C+	=	2.300	(77-79)
C	=	2.000	(73-76)
C-	=	1.700	(70-72)
D+	=	1.300	(67-69)
D	=	1.000	(63-66)
D-	=	0.700	(60-62)
S	=	0.000	
U	=	0.000	
F	=	0.000	(failure, below 60)
RF	=	0.000	(equivalent to F grade)
RP	=	0.000	(no impact on GPA)
RW	=	0.000	(no impact on GPA)
W	=	0.000	(no impact on GPA)
WC	=	0.000	(no impact on GPA)
WF	=	0.000	(equivalent to an F grade)
WP	=	0.000	(no impact on GPA)

The Grade Point Average (GPA) is determined by multiplying the grade point value by the total number of credits for a particular course, adding the products (to arrive at the total number of "Quality Points"), and dividing by the total number of credits attempted. Here is a sample calculation for a student's semester grades of an "A," two "Bs," and a "C" in 3-credit courses with a "C" in a 4-credit course:

Grade	Grade point value (x) = Credits earned	Quality Points
A	4.000 x 3	12
B	3.000 x 3	9
B	3.000 x 3	9
C	2.000 x 3	6
C	2.000 x 4	8
	16	44
	44/16 = 2.750	Grade Point Average

Grade Appeals

Students have the right to challenge a grade if they believe it to be inaccurate and have substantiating evidence to support this assertion. The grade challenge process is NOT available to students if students are

unhappy with their grade. The student must first discuss the matter with the instructor. If there is no resolution, the student may meet with the appropriate School Dean. If there is still no resolution, the student may meet with the Assistant Vice President of Academic Affairs. The decision of the Assistant Vice President of Academic Affairs is final.

In no case will a grade be changed after six weeks into the following semester. Please note that any appeals regarding course withdrawals and the resulting "W" grades must be sent directly to the Assistant Vice President of Academic Affairs.

Grade Changes

Grades submitted to the Office of the Registrar by a faculty member remain final unless the faculty member provides written notification stating that there was an error in recording or computing the grade. Grade changes must be submitted in writing to the Office of the Registrar by the instructor of the course using the Change of Grade form available through the Office of the Registrar. The School Dean or the Assistant Vice President of Academic Affairs must sign the Change of Grade form prior to its submission to the Office of the Registrar. Grades may be changed up through six weeks into the following semester.

Graduation and Commencement

Dean College confers degrees four times in each year: May, August, December and January. No degree will be granted until all requirements of the degree program have been fulfilled. It is ultimately the student's responsibility to ensure all degree requirements are met. To be considered an official candidate for graduation, students must file an Application for Graduation with the Office of the Registrar in the Center for Student Financial Planning and Services no later than four weeks prior to the end of their last term of attendance.

Dean College holds one Commencement ceremony each May. Students can participate in Commencement provided they are within one course of completing their Associate degree or within two courses of completing their Bachelor's degree by the May ceremony provided they receive approval to do so. Students must remain enrolled in all courses. Students must petition the Registrar and Vice President of Academic Affairs for approval and must provide evidence of registration for all courses required to meet graduation requirements. Please note that all degree candidates must satisfy in full all financial obligations to the College and must pay their graduation fee to receive their final transcript and diploma and to be eligible to participate in Commencement activities.

Graduation Honors

At Commencement, those students with a cumulative GPA of 3.500 to 3.699 will graduate *cum laude*, those with a cumulative GPA of 3.700 to 3.899 will *magna cum laude* and students with a cumulative GPA of 3.900 or higher will graduate *summa cum laude*.

Honor Societies

Dean College has local chapters of six honor societies: Phi Theta Kappa (Upsilon Zeta chapter), which is the International Honor Society of Two-Year Colleges, available to our associate degree students; Phi Eta Sigma, which is the oldest honor society to acknowledge academic achievements of first-year students, available to our bachelor's degree students; Alpha Sigma Lambda (Delta Beta chapter), the National Honor Society for nontraditional students; Golden Key, the world's largest collegiate honor society, available to our bachelor's degree students; the National Honor Society for Dance Arts (NHSDA) Collegiate Program, designed to honor the accomplishments of outstanding students studying dance; and Chi Alpha Sigma (Omega Chapter), which is the National College Athlete Honor Society established to recognize college student-athletes who excel both on and off the field of competition.

To be eligible for membership in Phi Theta Kappa (PTK), a student must

- Be a full-time student at Dean College.
- Be registered in only an associate degree program at the time of selection.
- Have at least a 3.500 cumulative GPA.
- Have completed at least 12 credits toward the associate degree.
- Earn no grades of "RW," "RP," "RF," "WF" or "I" in the semester immediately prior to selection.
- Be of first-year or sophomore standing at the time of selection.
- Complete at least 75% of attempted credits in the semester immediately prior to the semester in which the student is being considered for nomination to PTK.
- Have a college judicial record free of suspension or probation or other judicial or academic disciplinary action.

To maintain PTK membership, students must maintain a 3.500 cumulative GPA and full-time status for the duration of the associate degree program as well as continue to demonstrate good moral character. Students falling below these criteria are placed on PTK probation for one semester. If the GPA is still below the 3.500 cumulative minimum after the probationary semester, the student may be removed from PTK.

To be eligible for membership in Phi Eta Sigma (PES), a student must

- Be a full-time student at Dean College.
- Be registered in only a bachelor's degree program at time of selection.
- Have at least a 3.500 cumulative GPA.
- Have completed at least 12 credits toward the bachelor's degree.
- Earn no grades of "RW," "RP," "RF," "WF" or "I" in the semester immediately prior to selection.
- Be of first-year standing at the time of selection.
- Complete at least 75% of attempted credits in the semester immediately prior to the semester

in which the student is being considered for nomination to PES.

- Have a college judicial record free of suspension or probation or other judicial or academic disciplinary action.

To maintain PES membership, students must maintain a 3.500 cumulative GPA and full-time status for the duration of the bachelor's degree program as well as continue to demonstrate good moral character. Students falling below these criteria are placed on PES probation for one semester. If the GPA is still below the 3.500 cumulative minimum after the probationary semester, the student may be removed from PES.

To be eligible for membership in Golden Key, a student must

- Be a full-time student at Dean College.
- Be registered in a bachelor's degree program at the time of selection.
- Be of junior or senior standing at the time of selection.
- Be in the top 15% of the bachelor's degree students in each of the junior and senior classes.
- Have at least a 3.500 cumulative GPA.
- Earn no grades of "RW," "RP," "RF," "WF" or "I" in the semester immediately prior to selection.
- Complete at least 75% of attempted credits in the semester immediately prior to the semester in which the student is being considered for nomination to Golden Key.
- Have a college judicial record free of suspension or probation or other judicial or academic disciplinary action.

To maintain Golden Key membership, students must maintain the following: their position in the top 15% of their class, full-time student status, and continued demonstration of good moral character. Students falling below these criteria are placed on Golden Key probation for one semester. If the requirements are not met after the probationary semester, the student may be removed from Golden Key.

Eligibility criteria for membership in Alpha Sigma Lambda are available from the School of Continuing Studies (see the SCS Catalog for requirements).

Eligibility criteria for membership in Chi Alpha Sigma are available from the Athletics Department.

The National Honor Society for Dance Arts (NHSDA) Collegiate Program is designed to honor the accomplishments of outstanding students studying dance. NHSDA exists to encourage exploration of dance education pedagogy, choreography, performance, research, community outreach and advocacy in the context of a broad dance program.

To be eligible for membership in the National Honor Society for Dance Arts (NHSDA), a student must

- Be a student member of NDEO (National Dance Education Organization).
- Achieve at least a 3.500 GPA at time of induction.

- Accrue 45 points in each of three major strands of the NHSDA National Collegiate Point System (in a minimum of six out of 10 total categories pertaining to Artistic Merit, Leadership, and Academic Achievement).

B To receive Honors Distinction at the time of graduation, a student must

- Have previously been inducted into NHSDA.
- Have a 3.500 GPA.
- Accrue an additional 15 points beyond the 45 required points for induction.
- Write an essay for consideration, complete a researched senior project within the School of Dance, or complete a major research project related to the field during the student's senior year.

Honors and Awards

Each year, Dean formally recognizes and honors those graduating students who have demonstrated excellence in specific academic programs or in specific academic disciplines as well as students who have made outstanding contributions to the Dean College community.

Incomplete Coursework

A grade of "Incomplete" is only available if a student is unable to complete coursework as a result of serious illness, a major accident or a personal or family emergency. Except in extraordinary cases, a grade of "Incomplete" can only be issued during the last two weeks of classes, **provided the student has been attending classes up until the last two weeks of the semester.** A student must be mathematically able to pass the course(s) in order to receive an "Incomplete." All incomplete requests should be accompanied by appropriate documentation and must be approved by the School Dean or Assistant Vice President of Academic Affairs.

The instructor must provide the student with a detailed list of coursework to be completed based on the course policies and calendar on the course syllabus and must attach coursework completion instructions to the Request for Incomplete Grade form. An "Incomplete" allows students an extension only on coursework with due dates after the date of the incomplete request; it does not allow a student to hand in work not submitted previously unless the faculty allows all students to submit prior assignments after the date the incomplete was requested.

For full semester courses, **all work must be completed no later than four weeks after the end of the term in which the "Incomplete" was issued.** Once the work is completed and graded, the "Incomplete" grade will be replaced by the final grade earned in the course. If the work is not submitted by the appropriate deadline, the student may receive a grade of zero for all remaining coursework, and the "Incomplete" grade will be replaced by the earned final grade, including zeroes for any remaining work not completed. In individual cases, when

there are legitimate reasons, a request for an extension must be submitted in writing to the instructor by the student and approved by the School Dean. A copy of this approved, revised timeline must be submitted to the Office of the Registrar. Any student who is disciplinarily suspended from the College during the last two weeks of classes may receive a grade of zero for all remaining coursework and final grades calculated and issued at the time the student is separated from the College.

Determination of a student's end-of-semester academic status will not be made until final grades are issued for all courses in which a student earned an "Incomplete." This includes the following categories: President's List, Dean's List, Good Academic Standing, Academic Probation, Academic Suspension, or Academic Dismissal. Please see the appropriate sections of this catalog for the precise criteria for each of these academic standing categories.

International Baccalaureate Diploma Program (IB)

If a student has taken a higher-level International Baccalaureate (IB) examination and would like to apply for college credit at Dean College, the student should have the results forwarded to the Office of Admissions. The Office of the Registrar will review the test results, and if the student scored a 4 or higher in a subject area offered by Dean College, college credit will be awarded if applicable. No credit will be granted for the standard-level (SL) examinations regardless of the scores achieved. Students do not have to have completed the full IB diploma to receive credit for individual courses. Dean College also participates in the Advanced Placement (AP) and the College-Level Examination Program (CLEP); please see these entries on [pages 20 and 20](#), respectively, for additional information.

Medical Withdrawal Policy

If a student is experiencing a medical or mental health condition that substantially impedes the student's ability to attend class or otherwise successfully participate as a member of the College community, they may be permitted or required to take a medical withdrawal. In most circumstances, the student should initiate this process by contacting their advisor and completing the Medical/Mental Health Withdrawal Form. Some withdrawals may require specific documentation from the treating clinician regarding the student's condition. Once all required documentation is received, it will be reviewed, and a decision will be made by designated personnel. Incomplete documentation will not be processed.

Medical withdrawal may be approved or required for significant illnesses, injuries or other conditions that incapacitate the student for longer than the permitted absence period described in the Attendance and Participation Policy on [page 20](#).

Medical withdrawal also will be considered for a traumatic event (e.g., death or serious injury to a family

member) that clearly impedes the student's ability to maintain their studies or otherwise successfully participate as a member of the college community. The student seeking a medical withdrawal in such circumstances should initiate this process by contacting their advisor and completing the Medical/Mental Health Withdrawal Form and other supporting documentation deemed necessary to verify the extenuating life circumstances. Students should meet with the Center for Student Financial Planning and Services prior to withdrawal to discuss how it may impact their specific financial situation at the College. The complete Medical Withdrawal Policy is located on the Dean College website at dean.edu under Health & Counseling Services.

Minors

Students enrolled in a bachelor's degree program may opt to complete a minor. A minor consists of a total of 18 credits in one area, at least 6 credits of which must be at the 300 or 400 level. Minors are not available to students in the associate degree programs. Students may not earn a minor in the same discipline as their major. For precise requirements, please see the detailed section on Minors on [pages 142–145](#).

Placement into English and Math Courses

All incoming students are placed into Dean College English and Mathematics classes and sections appropriate to their declared major as well as their skill level based on information submitted to the College during the admission process, including high school transcript, transfer credit, and/or any submitted standardized test scores (SAT, ACT, AP, IB or CLEP). Students will then review these class placements at New Student Orientation when they receive their course schedule for the upcoming semester, and can request adjustments to these placements at that time.

President's List

After each fall and spring semester (a semester includes both full semester courses and quarter courses), full-time students are included on the President's List if they earn a semester Grade Point Average (GPA) of 4.000 and no "Incomplete," "RW," "RP," "RF" or "WF" grades for that semester. In addition, full-time students must complete at least 75% of attempted credits to be eligible for President's List consideration. Students placed on the President's List receive a transcript notation for that semester.

Readmission to the College

A student who has withdrawn voluntarily from the College and wants to apply for readmission may do so by submitting the appropriate Application for Readmission Form to the Office of the Registrar in the Center for Student Financial Planning and Services. This form may be obtained on the Dean College website or from the Center. This readmission is subject to the approval of the Office of Student Financial Services, the Office of

Enrollment and Retention and the Office of Academic Affairs. Students who had been academically or disciplinarily suspended must also meet any specified conditions of readmission as indicated in their original suspension letters.

Students who are readmitted to Dean College must complete degree requirements specified in the catalog under which they are readmitted if they have not been a student at Dean College for more than one calendar year or their original program has been eliminated. If a readmitted student was a full-time matriculated student within the past calendar year and their original program has not been eliminated, they must complete the requirements specified within the catalog in effect at that time unless they opt to change into the catalog in effect at the time of readmission.

Recording Policy

All members of the Dean College community as well as guests and visitors should be aware that the College strictly prohibits any photographing, videotaping or other recording of all or any portion of any class, rehearsal, performance, assembly or other College event without the express permission, in advance, from the presiding faculty member or other College official. This means, for example, that

- No one may take pictures, record video images or make any audio recording of any portion of a class, lecture, lab, seminar or other academic exercise without the express permission, in advance, of the faculty member in charge.
- No one may take pictures, record video images or make any audio recording of any portion of a dance or theatrical performance or rehearsal without the express, advance permission of the faculty member or other College official in charge of the event.
- No one may take pictures, record video images or make any audio recording of any portion of an assembly, guest lecture or other College-sponsored event without the express, advance permission of the College official in charge of the event.
- No one may upload or distribute any such picture, video image or audio recording without the express permission, in advance, of the College.

In addition, any permission to make or use any such recording shall be strictly limited to the specific purpose for which that permission is granted.

Any request for permission to make recordings as a disability accommodation must be presented, in advance, to the Accessibility Services Office.

Any student or employee who violates this policy or who aids or encourages another person in violating this policy will be subject to discipline up to and including dismissal or termination.

Repeating a Course

Students are permitted to repeat courses previously taken or attempted unless otherwise noted in the course description and may not repeat an individual course more than three times. A course for which a student received a “W,” “RW,” “WP,” “RP,” “WF,” “RF” or “F” is considered an attempt at a course. The highest grade earned will count toward the overall Grade Point Average, and credit will be granted only one time for the course unless otherwise noted in the course description.

School of Continuing Studies: Part-Time Studies

The School of Continuing Studies (SCS) is designed to serve students who want to pursue their education on a part-time basis. SCS students may enroll in a maximum of 10 credits per semester. Part-time students should refer to the School of Continuing Studies Academic Catalog for specific information related to degree requirements, programs and course offerings, course descriptions, academic advising, admission, academic policy, student policies and student financial services. Go to the Dean College website, dean.edu, or call SCS at 508-541-1624 for additional information.

Student Records: Access, Amendment and Confidentiality

Dean College FERPA (Family Education Rights and Privacy Act)

Dean College complies with the Family Education Rights and Privacy Act, 20 U.S.C. §1232g (FERPA), which affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) Dean College students are in attendance once they have registered for courses for their initial term of enrollment.

These rights include

1. The right to inspect and review the student’s education records within 45 days after the day Dean College receives a request for access. A student should submit to the Registrar a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request an amendment of the student’s education record/s that the student believes are inaccurate or misleading or otherwise in violation of the student’s privacy rights under FERPA. A student who wishes to ask the College to amend a record that they believe is inaccurate or misleading should write the school official responsible for the record, clearly identify the part of the record the student wants changed and

specify why it should be changed. If the school decides not to amend the record as requested, the school will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the College discloses personally identifiable information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure without consent. Dean College discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interest. School officials are those persons employed by Dean College in administrative, supervisory, academic, research, instructional, advisory, governance, and support staff functions of the College (including law enforcement unit personnel and health staff). They do not necessarily need to be paid employees of the College; school officials may include students serving on official committees or assisting a school official in performing official tasks; contractors, consultants, volunteers or other parties outside of Dean College to whom Dean College has outsourced institutional services or functions (such as an attorney, auditor or collection agent). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for Dean College. Education records can be released without written consent to Local, State, and Federal agencies as well as contracted agencies that qualify as Dean College school officials.
4. The right to file with the U.S. Department of Education a complaint concerning alleged failures by Dean College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202

Directory Information

Dean College may disclose without a student’s consent, certain information including what the College has designated as Directory Information. Dean College has designated the following as Directory Information: the student’s name, local and home addresses, date and place of birth, major fields of study, participation in officially recognized activities and sports, height and weight of athletic team members, dates of attendance, enrollment status, degrees and awards received, photographs taken and maintained by the College, most recent previous educational agency or institution attended and class roster. A class roster may be released only to students enrolled in that class while it is in session. Students not wanting their directory information disclosed without their consent must contact the Office of the Registrar.

B

Transcripts

All financial obligations to the College must be met prior to the issuing of an official transcript.

Transfer Credit

Once matriculated at Dean College, students must obtain written authorization from the Office of the Registrar prior to enrolling in a course for transfer credit from another institution. Such authorization guarantees that the course

Transfer students who have earned a bachelor's degree from a regionally accredited college or university within the last 10 years and are attending Dean College to complete a second bachelor's degree must complete 30 additional credits beyond their already completed bachelor's degree, may have all general education requirements waived and must meet all the major requirements of the Dean College degree.

Dean College may also award transfer credit for certain documented knowledge gained outside of the college classroom. Dean College will use the American Council on Education's (ACE) guide to award this type of credit. When applicable, students should have their ACE transcript sent to the Office of the Registrar for evaluation. ACE recommendations will not automatically be applied; the final decision on how the credit is applied to a student's record will be determined by the Office of the Registrar.

Voluntary Withdrawal from the College

Students who want to withdraw voluntarily from the College must obtain and complete a withdrawal form from the Robbins Family Center for Advising & Career Planning to remain in good standing with the College and receive any appropriate refunds. Federal regulations require that students who withdraw from all classes prior to completing more than 60% of an enrollment term will have their eligibility for federal aid recalculated based on the percentage of the term completed; see the section on “Refund Policies” on [pages 215–216](#). Be sure to consult the Financial Aid Office BEFORE you decide to withdraw from the College, so you can fully understand the impact your withdrawal will have on the financial aid already awarded to you. **Extended absence from classes does not constitute withdrawal from the College.** Please see the Attendance and Participation Policy on [page 20](#) and the grading policies regarding withdrawals on [page 24](#).

Voter Registration

As a part of the Higher Education Amendment, Dean College must provide students with the opportunity to register to vote. Accordingly, to request a mail-in voter registration form, visit www.sec.state.ma.us/e/e/e/eivf/howreg.htm or www.eac.gov/voters/register-and-vote-in-your-state.

Please note that students may choose between a Massachusetts form and a federal form. The Massachusetts form can only be used to register to vote in Massachusetts. The federal form may be used to register in most other states.

Please note that students cannot register to vote via the Internet, but they can request a voter registration form. Students must fill out the form completely and return it to their local election office. **Remember that students will not be registered to vote until they return the completed voter registration form to their local election office.**

The local clerk will thereafter provide students with acknowledgment of their voter registration. If students do not receive an acknowledgment of their voter registration within a reasonable time, they should check with their local clerk for more information.

Withdrawing a Student from a Course by the Instructor

Any instructor may, with the written approval of the School Dean or designee, withdraw a student from a course if the student is disruptive or interferes with the orderly conduct of the class. The student will receive an "RW," "RP" or "RF" (Required to Withdraw) grade on their transcript. "RW" and "RP" grades do not affect the Grade Point Average; "RF" grades do affect the Grade Point Average.

During the last two weeks of a semester or the last week of a quarter, instructors may only initiate a required withdrawal ("RP" or "RF") with the approval of the appropriate School Dean and the Assistant Vice President of Academic Affairs.

If a student is required to withdraw from a class by the instructor for disruptive behavior, the student has a right to appeal that withdrawal. The student must first discuss the situation with the course instructor. If there is no resolution, the student may meet with the School Dean who oversees the course in question. If there is still no resolution, the student may next meet with the Assistant Vice President of Academic Affairs. The decision of the Assistant Vice President of Academic Affairs is final. Given the importance of continued participation in class, these appeal meetings must happen within five business days of the initial notification that the student is required to withdraw from the course. Students may be permitted to attend the course during the appeal process.

Bachelor's Degree Programs

BACHELOR'S DEGREE IN ARTS AND ENTERTAINMENT MANAGEMENT

Program Description

Arts and Entertainment Management puts you on the cutting edge of the world of cultural, entertainment and business industries. Talented arts and entertainment professionals are an integral part of the synergy that creates and presents new works in diverse settings; enhances communities through classic and contemporary performances; impacts economic, educational and social growth; and provides a solid base for arts and entertainment organizations to be sustainable and succeed. Students who major in Arts and Entertainment Management have a passion for the arts and focus on the crucial relationships between the creative aspects, the business side, their communities and their audiences. Arts and Entertainment Management students understand and appreciate the strong commitment that is vital to helping arts and entertainment organizations fulfill their mission and vision as a solid creative and business model. Students majoring in Arts and Entertainment Management at Dean College will take courses in three key areas:

Arts and Entertainment Management and Business: Through an emphasis on vision, best business practices, creativity, problem solving, planning, globalization and technology, students will understand the modern challenges behind the scenes at contemporary arts and entertainment operations. Through classes, interactive activities, guest speakers, practical-based assignments and much more, students will learn to manage and lead an organization to a more secure future from the facility to finances, event management to marketing and human resources to legal issues.

Focused Electives: Students will have the opportunity to select focused electives that will broaden their learning process including enhanced experiential opportunities both on and off campus. Electives will include *Theme Park Management*, *Live Event Planning*, *Safety and Security for Live Events*, *Association of Performing Arts Professional Conference* volunteer experience and more.

Liberal Arts: The humanities, social sciences, natural sciences and mathematics courses are designed to prepare arts and entertainment managers not only for their careers, but also to be full participants in today's complex global society.

Arts and Entertainment Management majors at Dean will also complete a minimum of one semester-long internship for a hands-on learning experience. Potential internship sites include the following:

- The Providence Performing Arts Center
- Trinity Repertory Company
- Boston Ballet
- WGBH-TV in Boston
- WBZ-TV in Boston
- FOX 25 News
- Massachusetts Film Office / Cultural Conference
- The Hanover Theatre
- Massachusetts Cultural Council
- The Washington Center
- Franklin Performing Arts
- Mansfield Music and Arts Society
- ABC-TV in New York
- The Disney College Program
- Gillette Stadium / Patriot Place
- Dean College
- Many others across the region and country

Professional arts and entertainment managers directly contribute to the continued vitality of modern culture and business. People with degrees in Arts and Entertainment Management work as executive directors, venue managers, event producers, fundraisers, presenters and promoters, marketing/sales and advocates. They provide arts and entertainment outreach to schools and throughout diverse communities. They make the arts happen...every day and in every community around the world.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Arts and Entertainment Management, students will be provided an opportunity to learn how to

C

- Understand the occupations, roles, responsibilities, business ethics and legal issues within the arts and entertainment industry.
- Develop a personal philosophy about the role of arts and entertainment across a global society, live event environments and the digital world.
- Understand and implement the management functions of planning, organizing, controlling, and leading within an arts and entertainment organization.
- Demonstrate the knowledge and skills needed to develop and implement marketing and fundraising plans for an arts and entertainment organization.
- Develop and demonstrate the creation and ongoing growth and utilization of a personal professional brand used throughout all methods of communication and presentations.
- Experience hands-on training in the real-world tasks, projects and activities crucial to the arts and entertainment industry.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

Degree Requirements

CORE (40 credits)

ENG 111 – Composition I (3 cr)
ENG 112 – Composition II (3 cr)
SPC 101 – Communication Fundamentals (3 cr)
Core Mathematics Elective* (3 cr)
Core Lab Science Elective* (4 cr)
Core Distribution Arts Elective* (3 cr)
Core Distribution Humanities Elective* (3 cr)

BACHELOR'S DEGREE IN ATHLETIC COACHING AND RECREATION MANAGEMENT

Program Description

The Bachelor of Science in Athletic Coaching and Recreation Management offers students the opportunity to explore the world of sport and fitness. Athletic Coaching and Recreation Management is for students interested in coaching youth, recreational teams, club sports or other higher-level sports teams. Through coursework and internships with athletic coaches, students develop competency in effective game preparation, conducting efficient practice sessions, using game management strategies, and analyzing players' skills.

Leadership, management, and programming skills are a focus within the curriculum as are internship experiences, so you'll graduate prepared to make a difference in your field.

Graduates of the Athletic Coaching and Recreation Management major will seek employment throughout the United States and abroad in municipalities, YMCAs, Boy's and Girl's Clubs, hospitality, tourism, National Park Service, resorts, the adventure trip industry, armed forces, college and university recreation programs and corporate recreation services.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Athletic Coaching and Recreation Management, students will be provided an opportunity to learn how to

- Identify significant events that have shaped the history and development of physical education and sport while identifying critical issues facing these areas.
- Identify and understand critical issues confronting physical, mental and nutritional health.
- Apply business-related skills to aid in the management and oversight of organizations as related to fiscal responsibilities assigned to managers.
- Articulate and apply coaching techniques, competitive tactics and strategies appropriate to the sport environment.
- Acquire additional competencies depending on the track:

Athletic Coaching Track Learning Goals

- Use current management applications, such as total quality management, team and project approaches, strategic planning, entrepreneurial strategies, the development of learning organizations and active listening.
- Identify career opportunities in Athletic Coaching within both the private and public sectors.

Recreation Management Track Learning Goals

- Identify Recreation Management and leadership practices in the context of human-helping professions.
- Use experiential learning concepts that enhance skills in management, programming and group dynamics.
- Identify career opportunities in Recreation Management within both the private and public sectors.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

C

BACHELOR'S DEGREE IN BIOLOGY

Program Description

Science is an ever-changing and evolving field. Rapid technological advancements present new and unprecedented opportunities for research and discoveries in the biological sciences. Students in the Biology major must complete a series of foundational lab science courses while establishing their academic career competencies through the core requirements and electives. Biology majors can choose from a range of courses suited to their interests and career objectives. Students in the Biology major will be able to take advantage of state-of-the-art technology, knowledgeable faculty and small classes, learning and growing with a cohort of peers.

Students with a working knowledge of biological systems, current topics in the life sciences and an ability to use scientific literacy in combination with quantitative reasoning and critical thinking are positioned to apply these skills in areas outside of the lab such as sales and marketing.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Biology, students will be provided an opportunity to learn how to

- Recognize the basic principles of biology (molecular, cellular, organismal and at the population level) and chemistry.
- Identify major historical contributions to science, understand how the process of science occurs in a humanist context and discuss the knowledge behind and implications of current research.
- Demonstrate the essential knowledge and skill required to perform experiments in a lab setting working with cells, tissues and both macroscopic and microscopic organisms.
- Be familiar with the process of research in a range of biological settings.
- Demonstrate scientific literacy including the ability to read and critically evaluate scientific studies and how to present scientific information.
- Identify career opportunities in biology and related disciplines.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN BUSINESS MANAGEMENT

Program Description

The Bachelor of Science in Business Management provides students with a broad knowledge of business that enables them to lead and succeed in many positions in both for-profit and not-for-profit organizations whether as an employee or as the founder. Students develop a foundation of core skills that are designed to mirror the exact skills that will get them hired and promoted — skills such as communication, critical thinking, decision making, problem solving and teamwork. This program prepares students to work as professionals, lead organizations into the future, make data-driven decisions and work in all types of teams. Students also learn to use various tools, including S&P Global IQ, to help them succeed. Work experience is embedded throughout the program, requiring students to immediately use and apply what they are learning. Beginning with campus-based consulting projects in the first year to off-campus group consulting projects in the second and third years, this real-world work experience culminates in a comprehensive, independent internship placement in the junior year. The program also includes numerous opportunities to interact with national and international leaders in business and industry through the Dean Leadership Institute. When students leave Dean with these solid fundamentals and experiences plus on-the-job experience and a command of technology, well, they're in business.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Business Management, students will be provided an opportunity to learn how to

- Distinguish business and financial concepts and theories.
- Formulate quantitative methods and practices for decision-making purposes.
- Categorize the principles related to individual and group dynamics in managing organizations.
- Analyze ethical issues in a global business environment.
- Research to solve a business problem and demonstrate written and oral communication skills of a business professional.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Internships

All students are required to complete an internship. These experiences can be part-time or full-time. Students have successfully interned with the following companies:

- | | | |
|--------------------------------|----------------------------------|------------------------------------|
| • Patriot Place, Foxboro, MA | • Disneyland, Anaheim, CA and | • Harpers Payroll Service, |
| • Interactions, Franklin, MA | Disney World, Orlando, FL | Worcester, MA |
| • Byrne Financial Freedom LLC, | • Renaissance Hotel, Foxboro, MA | • Pawtucket Red Sox, Pawtucket, RI |
| Franklin, MA | • Hockomock Area YMCA, | • TJMAXX, Framingham, MA |
| | Franklin, MA | |

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142–145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. BACHELOR'S DEGREE IN COMMUNICATIONS

Program Description

C The Communications program at Dean College offers hands-on work in the areas of digital audio, HD video, social media and sports broadcasting. The Bachelor's Degree in Communications is designed to introduce students to the ever-changing media and communications fields. Students study the history, evolution and changing state of mass communications as well as the communication technologies and techniques used in mass media production. Students develop their skills at writing and producing content to be delivered through various media, including the Internet, social media, emerging media, and digital audio and video. Students get hands-on experience in digital media production starting on day one, working in professional studios and labs with a faculty with a wealth of professional experience. Students also develop an understanding of the economic and social effects of media, including legal and ethical issues. Courses offered combine theoretical and experiential learning.

Through the course of study in the Bachelor's Degree in Communications, students will be provided an opportunity to become immersed in a production-based program that stresses practical hands-on experience in the competitive field of communications. Students will learn theoretical and production concepts while honing their skills by producing video, audio, Website and social media projects using HD and 4K production equipment in state-of-the-art production facilities. Students will be provided with opportunities to apply their knowledge and production skills in professional industry-based environments and to produce a portfolio throughout their educational process that will help them gain entrance into the exciting field of visual, audio or social media professions. Students will have the opportunity to be on-air DJs and newscasters at the Dean College radio station WGAO as well as participating in Dean TV, the Communications program streaming service that covers sporting and college events throughout the academic year. Additionally, students have the ability to become directors at WGAO and Dean TV, taking on roles of responsibility that enhance their educational experience and provide additional professional credentials that will speak to potential employers.

Communications students can practice what they've learned through fieldwork at local television and radio stations located in one of the top 10 media markets in the nation. Students also gain unprecedented hands-on experience working with our major sports franchise partners. Through the Dean College Center for Business, Entertainment and Sport Management, students have access to exciting learning opportunities with the New England Patriots, New England Revolution, Pawtucket Red Sox, Providence Bruins and Boston Cannons.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Communications, students will be provided an opportunity to learn how to

- Write functionally, simply, clearly, concisely and effectively to be heard and understood.
- Understand and apply principles of concept creation in the media profession.
- Learn specific tools of the industry and have the skills to be able to learn new tools as they are introduced.
- Learn and apply design principles.
- Understand the terminology of the industry.
- Understand ethical and legal standards of the profession and act in accordance with those standards.
- Understand the historical and theoretical context of current communications practices.

The Digital Studios

Dean's Digital Studios house a video facility, a three-camera television studio and digital audio and video postproduction suites. In the digital media labs, students can sharpen their editing skills using industry-standard software, such as Final Cut Pro for video editing and Pro Tools for audio mixing. The center is also home to an integrated classroom where students and professors utilize technology in a highly effective learning environment.

WGAO-FM Radio Station and Dean TV

WGAO 88.3 FM, Dean's Nielsen-rated, 175-watt stereo radio station, provides opportunities for developing talent as on-air personalities and news, weather and/or sports reporters and commentators. The station operates 24 hours per day with a state-of-the-art broadcast system and can be heard around the world at power883.org. WGAO is a broadcasting laboratory modeled as a professional station without the commercials.

Dean TV allows students the unique opportunity to work as creators, segment producers, talent and crew to produce news, entertainment and sports programming for the Dean community and the surrounding geographic area.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

C

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN CRIMINAL JUSTICE AND HOMELAND SECURITY

Program Description

C The Bachelor of Science in Criminal Justice and Homeland Security is designed to prepare students to work in today's dynamic national and international security and business world. Students enrolled in the Criminal Justice and Homeland Security program will develop an understanding of the principles and issues in criminal justice and homeland security as well as obtain a strong foundation in cybersecurity technology and its evolving challenges. These challenges are rapidly evolving cyber-related national security threats, both domestic and international cybercriminals and cyberterrorists. Students will learn concepts, strategies and skills needed to manage security-related operations and activities.

This program offers the opportunity to study various aspects of the national and international security industry in addition to obtaining strong leadership skills. Students will learn principles of security systems, equipment, technologies and cybersecurity as well as emergency response and security plans for major events. Students also learn crowd management, perimeter and access control, vendor and contractor management and consequence and crisis management.

For graduates of Dean's bachelor's degree program in Criminal Justice and Homeland Security, numerous opportunities await. The adaptable, multifaceted program helps students prepare to serve their community in organizations such as the Department of Homeland Security (DHS); the FBI; the U.S. intelligence community; first responders; federal, state, or local agencies and private and nonprofit groups. The Criminal Justice and Homeland Security program develops the complex skill sets needed to prevent and respond to natural or human-made crises in the United States or around the globe. Dean College's internship experience helps students prepare to contribute to organizational security needs in a variety of institutional settings.

Program Learning Goals

Criminal Justice Track Learning Goals

Through the course of study in the Bachelor's Degree in Criminal Justice and Homeland Security with a track in Criminal Justice, students will be provided an opportunity to learn how to

- Understand the principles and issues in criminal justice and criminological concepts, processes and issues, and communicate effectively about crime and the criminal justice system, including written and oral communication and technology proficiency.
- Address cybercrime issues and describe major criminological theories in terms of the causes and controls of crime, considering the community.
- Be able to apply critical thinking skills about crime, criminal justice and cybersecurity policy claims and issues with an emphasis on questioning the credibility of claims and statistics.
- Understand how research is used to test hypotheses and inform policy decisions, including the design of evaluation studies. Be able to apply how ethics influence the exercise of discretion in the field of criminal justice and cybercrime as well as in the conduct of criminological research.
- Demonstrate an understanding of what effective employment in a criminal justice setting involves. Articulate how economics and cybercrime influence traditional forms of crime and the criminal justice system's response to them.

Homeland Security Track Learning Goals

Through the course of study in the Bachelor's Degree in Criminal Justice and Homeland Security with a track in Homeland Security, students will be provided an opportunity to learn how to

- Understand how to access and analyze the skills and competencies needed to deal with the potential and real threats facing the United States and our global community today.
- Understand, critique, respond to and resolve security problems/situations, with appropriate questions to improve clarity, develop greater depth and insight and promote problem identification and resolution.
- Understand and be able to address homeland security and emergency management planning techniques necessary to help communities preserve and reestablish the infrastructure necessary to prevent or recover from crises.
- Be able to apply the transnational perspectives associated with crisis challenges in an increasingly global environment.

-
- Identify the challenges, concepts, strategies and skills needed to manage security-related operations and activities.
 - Learn the key homeland security field principles and best practices for leadership management, the business world, communications, security planning, security assessment, mishap response and recovery. Be able to apply fundamental aspects necessary for safety, security and risk-mitigation opportunities in the public and private sectors.

C

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. BACHELOR OF ARTS IN DANCE

Program Description

The Dance majors are housed within the Dean College Joan Phelps Palladino School of Dance. The mission of the Bachelor of Arts in Dance is to provide rigorous training in the disciplines of ballet, modern, jazz and tap within a liberal arts context and to connect these aesthetic and cultural forms of dance to the overall interdisciplinary study of humanities, social sciences, business, natural sciences and dance studies as well as to the world of work. Admission to the Bachelor of Arts in Dance is by audition and approval from the School Dean.

Program Learning Goals

Through the course of study in the Bachelor of Arts in Dance, students will be provided an opportunity to learn how to

- Improve in ability and demonstrate knowledge of the content and terminology of ballet, modern, jazz and tap dance techniques.
- Understand career options in the field of dance.
- Recognize and articulate the value and power of both historic and contemporary dance.
- Understand basic anatomy as it pertains to dance.
- Understand pedagogical and didactical principles as they relate to dance and applicable fields.
- Understand spatial design, music/rhythm and thematic structure as they apply to dance composition.
- Articulate and take a leadership role in the acquisition of additional competencies related to the major course of study.
- Acquire additional competencies if students choose to complete a track in dance:

Dance Pedagogy Track Learning Goals

- Verbalize and demonstrate knowledge of teaching dance with a historical perspective, clear language and anatomically correct use of the body.
- Understand age-appropriate teaching methodologies.
- Understand the current state of dance in education.

Dance Performance/Choreography Track Learning Goals

- Demonstrate overall technical proficiency.
- Learn and engage in practices and perspectives of professional-level dance.
- Demonstrate increasingly sophisticated understanding of choreography.

Dance Studies Track Learning Goals

- Demonstrate knowledge of the breadth of the dance field.
- Take a leadership role in identifying and pursuing interdisciplinary dance studies.
- Articulate how their course of study contributes to the field of dance as well as to their future.

Studio Management Track Learning Goals

- Verbalize and demonstrate knowledge of teaching dance.
- Present a clear understanding of business practices.
- Articulate a strong business plan in relation to the dance studio market.

Dance majors have the opportunity to perform in many exciting on-campus productions, tour to festivals and conferences, participate in internships with world-class organizations and study with a variety of celebrated guest artists. A cumulative GPA of 2.500 must be maintained in order to perform in a school-sponsored concert on campus. A cumulative GPA of 2.750 must be maintained in order to perform in an off-campus school-sponsored concert or event. Only the School Dean can make exceptions to these requirements.

The Bachelor's Degree in Dance leads to preparation for careers in performing, teaching, studio management, choreography, dance therapy, directing, dance medicine, dance journalism, arts and entertainment management and many more related fields.

In addition to choosing a track in Dance Pedagogy, Dance Performance/Choreography, Dance Studies or Studio Management, Dance majors in the bachelor's degree program may also choose to earn an associate degree in Communications, Exercise Science, Business, Early Childhood Education, English, Pre-Athletic Training or any of Dean's associate degree programs. Note: To earn an associate degree and a bachelor's degree, students need to complete the requirements of both degree programs.

NOTE: All 300 and 400 level academic dance courses must be preceded by a minimum of four 100 and 200 level academic dance courses.

NOTE: All students applying to the Dance program, at either the associate or bachelor's level, must audition for the School. Please see [page 211](#) for more information.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, auditioning, website and choreography reel development, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR OF FINE ARTS IN DANCE

Program Description

The Dance majors are housed within the Dean College Joan Phelps Palladino School of Dance. The mission of the Bachelor of Fine Arts in Dance is to provide rigorous applied arts training in the disciplines of ballet, modern, jazz, tap, and choreography within a liberal arts context while connecting these aesthetic and cultural forms of dance to the overall interdisciplinary study of humanities, social sciences, business, natural sciences and dance studies to prepare students for careers in dance performance and dance making. Admission to the Bachelor of Fine Arts in Dance is by audition and approval from the School Dean. Regular progress evaluations by the Dance faculty and School Dean will determine whether a student may continue to participate in the Bachelor of Fine Arts in Dance program.

Program Learning Goals

Through the course of study in the Bachelor of Fine Arts in Dance, students will be provided an opportunity to learn how to

- Improve in ability and demonstrate knowledge of the content and terminology of ballet, modern, jazz, tap and other dance techniques.
- Understand career options in the field of dance.
- Understand spatial design, music/rhythm and thematic structure as they apply to dance composition.
- Recognize and articulate the value and power of both historic and contemporary dance.
- Understand basic anatomy as it pertains to dance.
- Acquire additional competencies depending on the track:

Choreography Track Learning Goals

- Learn and engage in skill sets, practices and perspectives of today's professional-level dance.
- Demonstrate increasingly sophisticated understanding of the choreographic process, dance making, dance concert production, problem solving and the ability to communicate an artistic vision and to create opportunities for career advancement.

Performance Track Learning Goals

- Learn and engage in skill sets, practices and perspectives of today's professional-level dance.
- Demonstrate an increasingly strong, dexterous, versatile facility, proficiency and artistry in dance techniques and in dance performance.

Dance majors have the opportunity to perform in many exciting on-campus productions, tour to festivals and conferences, participate in internships with world-class organizations and study with a variety of celebrated guest artists. A cumulative GPA of 2.500 must be maintained in order to perform in a school-sponsored concert on campus. A cumulative GPA of 2.750 must be maintained in order to perform in an off-campus school-sponsored concert or event. Only the School Dean can make exceptions to these requirements.

The Bachelor of Fine Arts in Dance leads to preparation for careers in performing, directing, choreography and dance making and allied fields.

In addition to choosing a track in Performance or Choreography, majors in this bachelor's degree program may also choose to earn an associate degree in Communications, Exercise Science, Business, Early Childhood Education, English, Pre-Athletic Training or any of Dean's associate degree programs. Note: To earn an associate degree and a bachelor's degree, students need to complete the requirements of both degree programs.

NOTE: All students applying to the Dance program, at either the associate or bachelor's level, must audition for the School. Please see [page 211](#) for more information. Dance majors may petition the Dance faculty during semesters 1, 2, or 3 to be admitted to the Bachelor of Fine Arts in Dance, after having first conferred with their Success & Career Advisor.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, auditioning, website and choreography reel development, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

NOTES

*See [pages 198–202](#) for the list of Core Mathematics Elective Courses and Core Distribution Elective Courses.

**Of the 8 required credits, a minimum of 4 credits must be taken in contemporary modern technique and/or traditional modern technique.

- Students in the Performance track must achieve and maintain Ballet VI, Modern VI, Jazz VI, or Tap VI or better as a subspecialty and must also achieve and maintain Level IV in at least one other dance technique one semester prior to graduation.
- Students in the Performance track must complete three semesters of either DAN 205 – Partnering Techniques and/or DAN X37 – Pas de Deux in at least the first three years (six semesters) of study.
- All women in the Performance track with a discipline subspecialty in ballet must take DAN X34 – Pointe and/or DAN X35 – Pointe Variations every semester.
- All men must take DAN X36 – Men's Ballet Technique in at least the first two years (four semesters) of study.

TOTAL CREDITS: 128

BACHELOR'S DEGREE IN EARLY CHILDHOOD EDUCATION

Program Description

The Early Childhood Education Program offers a major in early childhood education to prepare students for certification through the State Department of Early Education and Care (DEEC) as a Preschool Teacher, Lead Teacher or Infant-Toddler Teacher.

Students are provided with professional preparation in understanding the developmental stages of young children, developmentally appropriate teaching methodologies, adaptive curriculum planning, partnering with families and evaluation of children and programs. This program equips students to work with young children from infancy through age six in the mixed delivery system outside the public schools.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Early Childhood Education, students will be provided an opportunity to learn how to

- Utilize relevant tools and strategies to observe, record and assess children's development.
- Clearly articulate connections between theory and observed behavior.
- Demonstrate a solid understanding of child development and professionalism by applying appropriate standards for interacting with children, families and colleagues.
- Set up and adapt appropriate educational environments by factoring in the needs of children from diverse racial, ethnic, religious and socioeconomic backgrounds.
- Plan, implement and adapt developmental and active learning experiences, addressing the needs of children from diverse backgrounds.
- Understand the importance of developing family/community partnerships and promoting family engagement.

Students who pursue a bachelor's degree are well prepared for further studies in early childhood education, child development, educational administration, or human services. Study in these areas can lead to such positions as teacher or director in preschools or day care programs, early childhood curriculum coordinator, pediatric nurse, recreation leader, social worker, family therapist, health care specialist, or childcare licensing specialist. Other positions include working in the child-related community, state or federal agencies or organizations. Those who pursue advanced studies after graduation from Dean will find diverse professional opportunities available.

Dean College Children's Center

An important, exciting opportunity for students in the Early Childhood Education program is working at the Dean College Children's Center, an on-campus preschool for area youngsters, ages 2.9–6 years. The equipment and curriculum materials in the Center have been designed to encourage maximum development of a child's social, emotional, physical and cognitive growth. Students work with College faculty and the Children's Center staff to plan lessons and teach, in addition to meeting with parents about their children's educational development.

The aim of the Children's Center is threefold: to provide a rich preschool experience for young children, reflecting open educational concepts; to provide a learning laboratory experience for student teachers, increasing their working skills with young children; and to provide a demonstration and resource center for families, assisting them in the joyful and complex task of parenting.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142–145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

ELECTIVES (18 credits)

18 credits Open Electives

NOTES

*See [pages 198-202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

**Students seeking Massachusetts Department of Early Education and Care (DEEC) qualification take EDU 111 in the first semester and EDU 282 and EDU 283 in the sixth semester to gain educational and experiential requirements for DEEC Teacher of Preschool qualification. EDU 283, which is for 14 hours per week, must be taken concurrently with EDU 282. To enroll in EDU 282/283, students must obtain a “C” or better in EDU 280/281 and a “C” or better on the Final Student Observation Record.

***Students must achieve a “C-” or better in EDU 103/111 and PSY 211/EDU 251 to enroll in EDU 231.

****Students must achieve a “C-” or better in EDU 103/111 and PSY 211/EDU 251 and approval of Education faculty and staff. EDU 281 may only be taken after or concurrently with EDU 231. If taken after EDU 231, students must achieve a “C-” or better in EDU 231. EDU 281 is for 3.5 hours per week and must be taken concurrently with EDU 280.

+Students must have a cumulative 2.000 GPA with no “incomplete” grades, have a 2.300 GPA in all required EDU courses for the major; and have demonstrated professional behavior in person and in written communication when interacting with all students to enroll in EDU 475 – Student Teaching.

All practicum experiences (EDU 280/281, EDU 282/283, and EDU 475) require students to complete a CORI/SORI and fingerprinting and receive approval from the Program Coordinator.

TOTAL CREDITS: 120

BACHELOR'S DEGREE IN ENGLISH

Program Description

C English faculty at Dean represent diverse backgrounds in literature and writing, and as a result, English majors have a variety of options in their studies. Through introductory and traditional survey courses, special topics courses, genre and social issues courses, and literary period courses, students will study a range of American and British literature. Creative writing classes encourage students to pursue their own creative endeavors in a workshop-based class environment. Through innovative literature and writing classes, students will examine the relationship among text, author and reader. The program prepares students to read, write and think critically about literature, history and culture while preparing for further graduate study or employment after Dean. To prepare our English majors for the future, all students participate in a required internship and a capstone research project. With a rich awareness of their literary heritage and exposure to the written word, English majors pursue careers in writing, research, editing, publishing, teaching and library work. The English major offers an excellent preparation for many fields of graduate study as well as an excellent foundation for professional fields in law, government, media, advertising, business, culture and the arts.

Program Learning Goals

Through the course of study in the Bachelor's Degree in English, students will be provided an opportunity to learn how to

- Offer a nuanced interpretation of literature that shows sensitivity to the diverse historical, cultural and social conditions from which the work emerges.
- Create original stories, poems, plays and/or essays.
- Produce polished writing for the workplace and employ digital publishing skills.
- Use the writing conventions of English studies, including correct grammar, mechanics and MLA citations; an engaging and distinctive style; and clear organization and structure appropriate for the genre.
- Ethically use research to create reliable, authoritative and/or scholarly texts.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

BACHELOR'S DEGREE IN ENTERTAINMENT INDUSTRY MANAGEMENT

Program Description

The Bachelor of Science in Entertainment Industry Management prepares students to enter an industry valued at over \$2 trillion globally, according to *Billboard Magazine*. The United States is expected to account for over a quarter of that or over \$500 billion. This diverse industry needs professionals who can identify trends, handle crowds and make decisions. This program prepares professionals to meet these needs, and more as students learn about the business and the entertainment industry.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Entertainment Industry Management, students will be provided an opportunity to learn how to

- Distinguish business and financial concepts and theories.
- Formulate quantitative methods and practices for decision-making purposes.
- Categorize the principles related to individual and group dynamics in managing organizations.
- Analyze ethical issues in a global business environment.
- Research to solve a business problem and demonstrate the written and oral communication skills of a business professional.
- Define management terminology and career opportunities in domestic and international environments, principles, issues and key trends.
- Combine management theory and skills in the entertainment area, enabling them to become successful and ethical managers.
- Identify and demonstrate the theory and growing practices involved in mass market entertainment.
- Understand and implement the theory and tools involved in integrated marketing communications, digital marketing and social media.
- Incorporate sales and branding theory and practices into social media, marketing and management practices.
- Combine technological, writing, and oral communication skills in answering the personal and professional needs of entertainment industry professionals.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Internships

All students are required to complete an internship. These experiences can be part-time or full-time. Students have successfully interned with the following companies:

- | | | |
|------------------------------------------------|------------------------------------------------------------|---------------------------------------------|
| • Patriot Place, Foxboro, MA | • Disneyland, Anaheim, CA and
Disney World, Orlando, FL | • Harpers Payroll Service,

C

BACHELOR'S DEGREE IN EXERCISE SCIENCE

Program Description

The Bachelor of Science in Exercise Science offers students the opportunity to explore the world of sport and fitness. Exercise Science is for students interested in careers in assessing and developing fitness and human performance. The diverse learning environment covers topics including psychology and barriers to exercise, higher-level fitness tests, how to prescribe exercise to a variety of populations and physiological responses to exercise. Internships encourage further learning in athletic/exercise-related environments.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Exercise Science, students will be provided an opportunity to learn how to

- Explain anatomical structure and physiological functions of human body systems, homeostasis and/or disorders resulting from homeostatic imbalances and injuries.
- Identify significant events that have shaped the history and development of physical education and sport while identifying critical issues facing these areas.
- Use various methods of appraising and evaluating each of the health- and skill-related components of physical fitness and develop an individualized fitness plan based on the findings of the fitness assessment.
- Identify and understand critical issues confronting physical, mental and nutritional health.
- Apply quantitative methods in the analysis of sport-related topics, including measures of health, fitness and psychosocial behavior.
- Identify the psychological and health benefits of exercise.
- Identify career opportunities in Exercise Science.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. **Students are strongly advised to take SFL 480 – Programming and Presenting in the Exercise Science Profession (1-3 cr) to fulfill an open elective requirement.

TOTAL CREDITS: 121

C

BACHELOR'S DEGREE IN HISTORY

Program Description

C Students who major in History gain a broad understanding of historical perspectives, historical thinking and methods and ethical issues linked to history. At Dean, students will learn how historians make history and the narrative of human civilizations, ancient to modern. Interpretative analysis is emphasized over memorization of dates and facts. History faculty use a wide array of primary and secondary sources (including documents, film, music and visual images) to understand events, uncover the causes and effects of political and social change and analyze contemporary issues and problems. Upper-division coursework covers both European and American history and global exposure. To prepare our History majors for the future, all students participate in a required internship and a capstone research project. While History majors often pursue graduate studies, employment opportunities for History graduates can be found in public history, museum work, historical societies, archival work, education and interpretative fields. Research and writing skills developed in this major can readily transfer into other fields of employment, including the business world, journalism, media and law.

Program Learning Goals

Through the course of study in the Bachelor's Degree in History, students will be provided an opportunity to learn how to

- Understand the difference between historians' definitions of primary and secondary sources and be able to use primary and secondary sources to analyze past events and construct historical arguments.
- Be fluent in techniques of historical writing, including the use of the *Chicago Manual of Style* citation method.
- Be able to think chronologically and demonstrate knowledge of historical narratives.
- Be able to identify and address debates in the subfields of History.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN LIBERAL ARTS AND STUDIES

Program Description

Knowledge is power, but the ability to integrate multiple sources of knowledge to make complex decisions in an ever-changing world — that's a super power. And employers know it. Dean's Bachelor of Arts in Liberal Arts and Studies builds on the strengths of our associate degree and bachelor's degree programs to create a curriculum that emphasizes a dynamic, flexible mindset that is essential in today's world — a mindset that includes the power to think critically, solve problems, synthesize information, and make decisions. We believe this exceptional foundation and training of an informed, ever-adaptable mind is a resource that will serve students throughout their careers.

In this degree program, students will work with a faculty mentor and their advisor to select or design their own area or track, focusing on a multidisciplinary and/or theme-based perspective and incorporating courses in the Dean College curriculum. Tracks include

- Family and Childhood Studies
- Global Studies
- Health and Society
- Human Services
- Individually Designed
- Pre-Law

Students have the option of double majoring or completing a minor in another field of study as well. Plus, students receive practical training through a required internship. On every level, even within individual courses, the curriculum is interdisciplinary — drawing on multiple sources of information and perspectives for a nuanced understanding of the complexities of the world. Higher education is about building the mind. A job interview is about finding the sharpest, most adaptable mind. Dean's Bachelor of Arts in Liberal Arts and Studies is about preparing you for success on both counts. So what can you do with a Liberal Arts and Studies degree from Dean? Just about anything, because you are prepared for a world that is constantly changing.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Liberal Arts and Studies, students will be provided an opportunity to learn how to

- Understand the key findings, ideas, theories and analytical research in their track area.
- Demonstrate understanding of methods, skills, tools and systems used in their track area.
- Understand and apply critical theory to textual analysis and their capstone research.
- Integrate disciplinary perspective(s) from their track with other fields of liberal arts.
- Blend theory and practice in a meaningful and related internship experience.
- Acquire additional competencies depending on the track:

Family and Childhood Studies Track Learning Goals

- Examine the many cultural, community and socioeconomic contexts in which families operate and study interventions used to support families.
- Learn about family development, relationships, dynamics, functioning and health from multiple perspectives.
- Understand the major theories in child development and accurately apply them to practice.

Global Studies Track Learning Goals

- Identify unique and universal aspects of world societies through historical, cross-cultural and social scientific study.
- Understand the origins, development and current impact of globalization.
- Experience at least one non-U.S. culture through a semester abroad, travel study courses or language study.

Health and Society Track Learning Goals

- Explore multiple perspectives from both the natural and social sciences on health, health care and related systems and policies.
- Understand cellular biology and anatomy and physiology that are essential for human health.
- Engage in a critical analysis of the social determinants of health and health behaviors of diverse populations, the distribution of health care and the formulation of health-related policy.

C

Human Services Track Learning Goals

- Explore the profession of human services practice from multiple perspectives across diverse sites with various service populations.
- Explore the lived experiences of social problems and the history and development of human services fields.
- Understand the ethical and evidence-based delivery of services to clients and consumers in a range of professional settings.

Pre-Law Track Learning Goals

- Demonstrate ability to read critically, write clearly and concisely and speak persuasively.
- Develop and apply logical reasoning, problem solving and research skills.
- Gain background knowledge of the historical, social and political context of the U.S. legal system.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN MARKETING

Program Description

The Bachelor of Science in Marketing degree prepares students to enter the professional field of marketing management by providing exposure to the theory and practice of marketing in the for-profit and not-for-profit arenas. Students are provided with the opportunity to learn the various areas of business involved in marketing as well as how other sciences impact the development of strategies and implementation that integrate together in developing successful marketing managers. In addition, all students are required to work in an internship helping to prepare them for their career. All of this combines to prepare the student to create and instigate action in many different professional settings.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Marketing, students will be provided an opportunity to learn how to

- Identify, analyze, and implement marketing concepts involving pricing, promotion, placement and production.
- Combine management theory and skills in the marketing area, enabling them to become successful and ethical marketing managers.
- Identify and demonstrate the theory and growing practices involved in marketing research and analysis.
- Understand and implement the theory and tools involved in integrated marketing communications, digital marketing and social media.
- Incorporate sales and branding theory and practices with relationship-building sales management.
- Combine technological, writing, and oral communication skills in answering the personal and professional needs of marketing professionals.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN PSYCHOLOGY

Program Description

Psychology majors at Dean study the various influences that shape human behavior, thinking and emotions. In the first two years, students explore how biological, psychological and social factors influence human behavior. They learn about human development, psychological disorders and cognitive and social psychology. Building on the strong foundation in the first two years, Psychology majors in the bachelor's degree program study counseling methods, brain and behavior and theories of personality. In addition, students may elect to explore sport psychology and the psychology of religion and culture. An emphasis on applied psychology and case studies is immersed in every course to understand what influences behavior. To prepare our psychology majors for the future, all students participate in a required internship and a capstone research project. Psychology majors pursue careers in social service organizations, counseling centers, schools, hospitals and the corporate world. The curriculum also prepares students to continue their studies in graduate school.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Psychology, students will be provided an opportunity to learn how to

- Demonstrate knowledge of key concepts and overarching themes in psychology.
- Demonstrate knowledge of various perspectives in psychology: biological, behavioral, cognitive and others.
- Demonstrate knowledge of various fields of psychology.
- Demonstrate knowledge of basic research methods necessary to understand and use research in the field of psychology.
- Demonstrate scientific and critical thinking skills.
- Apply ethical standards to evaluate psychological science and practice.

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

Careers and Graduate School

After completing their bachelor's degree, Dean graduates have a variety of exciting possibilities. Having had multiple hands-on, real-world work experiences throughout all four years, Dean graduates enter the workplace with the skills to begin their career. Others choose to attend graduate school after completing their Dean degree. Dean faculty and staff offer mentoring and programs on a range of career preparation topics, such as resume writing, interviewing skills, career and job search techniques, researching potential employers and networking and researching and applying to graduate programs.

BACHELOR'S DEGREE IN SOCIOLOGY

Program Description

Sociology majors at Dean achieve a fundamental understanding of the social world and the complexities of human interaction primarily by studying how people live together in groups. Sociology is essential for understanding why people think and act as they do, how societies hold together or experience conflict, and how cultures differ. Using sociological theory and specific sociological research methods, students learn to see how the social world is organized as well as how relationships form, why they persist, what effects they have and how they maintain social order and bring about social change. Building on the strong foundation of the first two years, students experience a broad view of the world in addition to the focused sociology curriculum in substantive areas of sociology, including stratification, family, technology, health and illness, media and collective behavior in upper-division courses. To prepare our sociology majors for the future, all students participate in a required internship and a capstone research project. Sociology majors pursue careers in social advocacy, social work, education, health care, government, research, business and law enforcement.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Sociology, students will be provided an opportunity to learn how to

- Apply critical thinking skills about social issues.
- Explore the role of theory in sociology, demonstrating an ability to (a) define theory and describe its role in building sociological knowledge, (b) compare and contrast basic theoretical orientations, (c) show how theories reflect the historical context of the times and cultures in which they were developed and (d) apply these theories to social reality.
- Understand the role of evidence and qualitative and quantitative methods in sociology, be able to identify the steps of the sociological research process, distinguish between various research methods and recognize the ethical concerns involved in conducting sociological research.
- Understand the basic concepts in sociology and how they are interrelated.
- Discuss the "sociological imagination," explaining the connection between our individual experiences and the larger society.

TOTAL CREDITS: 121

BACHELOR'S DEGREE IN SPORT MANAGEMENT

Program Description

The Bachelor of Science in Sport Management is designed for students who want to combine their interests in both business management and one of the many physical activity options. It prepares students for a variety of career opportunities, including those in professional sports, club or camp management, educational athletics (high school and collegiate), sports and leisure retailing and entrepreneurial enterprises. Students will learn the fundamental business concepts that are essential for the needs of the modern-day sport enterprise. Practical skill acquisition will be obtained through required internships in the field and experiential opportunities in the classroom in the form of on- and off-campus consulting projects. The program also includes the opportunity for students to learn from and network with leaders in the field through the Dean Leadership Institute and the Center for Business, Entertainment and Sport Management. Students will emerge from the program with the opportunity to obtain entry-level positions in the field as well as pursue graduate studies.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Sport Management, students will be provided an opportunity to learn how to

- Distinguish business and financial concepts and theories.
- Formulate quantitative methods and practices for decision-making purposes.
- Categorize the principles related to individual and group dynamics in managing sports facilities and organizations.
- Analyze sport management-related ethical issues in a global business environment.
- Research to solve a business problem and demonstrate written and oral communication skills of a sport management business professional.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships and earn part-time jobs available through KSE, including with the Patriots, Revolution, Patriot Place businesses and Gillette Stadium.

Internships

All students are required to complete an internship. These experiences can be part-time or full-time. Students have successfully interned with a variety of organizations, including the following:

- New England Revolution
- Brockton Rox
- Hockomock Area YMCA
- Boston Cannons
- Academy of Sports and Fitness Training
- Massachusetts Pirates
- Pawtucket Red Sox
- Learfield Communications, LLC

Minors

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor, which consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. A list of available minors with their specific requirements can be found on [pages 142-145](#). Students may not earn a minor in the same discipline as their major.

BACHELOR'S DEGREE IN SPORTS BROADCASTING

Program Description

The Bachelor of Science in Sports Broadcasting will focus on the techniques and talents necessary to enter the highly competitive field of sports broadcasting. Instruction on play-by-play, color commentary and analysis, interviewing, talk shows and additional reportorial skills for television, radio and the web (podcasts) will be included. Students will have the opportunity to produce their work and improve skills in Dean College's WGAO radio station on campus and the Digital Studios for TV/digital projects, as well as through opportunities and facilities in conjunction with Dean's academic partnerships with Kraft Sports + Entertainment (KSE) (New England Patriots and Revolution), the Pawtucket Red Sox and sports Radio WEEI. The program combines coursework, projects, internships and plenty of hands-on experience in helping students attain the knowledge and skills needed to be successful in the sports broadcasting industry. All students are required to work in an internship helping to prepare them for their career.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Sports Broadcasting, students will be provided an opportunity to learn how to

- Write functionally, simply, clearly, concisely and effectively to be heard and understood.
- Understand and apply principles of concept creation in the media profession.
- Learn specific tools of the industry and have the skills to be able to learn new tools as they are introduced.
- Learn and apply design principles.
- Understand the terminology of the industry.
- Understand ethical and legal standards of the profession and act in accordance with those standards.
- Understand the historical and theoretical context of current communications practices.
- Identify topics and trends important to sports reporting.
- Develop their skills in on-air announcing and talk show hosting.

The Digital Studios

Dean's Digital Studios house a video facility, a three-camera television studio and digital audio and video postproduction suites. In the digital media labs, students can sharpen their editing skills using industry-standard software, such as Final Cut Pro for video editing and Pro Tools for audio mixing. The center is also home to an integrated classroom where students and professors utilize technology in a highly effective learning environment.

WGAO-FM Radio Station and Dean TV

WGAO 88.3 FM, Dean's Nielsen-rated, 175-watt stereo radio station, provides opportunities for developing talent as on-air personalities and news, weather and/or sports reporters and commentators. The station operates 24 hours per day with a state-of-the-art broadcast system and can be heard around the world at power883.org. WGAO is a broadcasting laboratory modeled as a professional station without the commercials.

Dean TV allows students the unique opportunity to work as creators, segment producers, talent and crew to produce news, entertainment and sports programming for the Dean community and the surrounding geographic area.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with Kraft Sports + Entertainment, the ownership group behind the New England Patriots, New England Revolution and Patriot Place. It provides academic, athletic, entertainment and venue guidance and internship opportunities for students to gain insight from KSE officials and executives. The Center offers the opportunity for hands-on learning in the classroom and also on location at One Patriot Place. BACHELOR'S DEGREE IN THEATRE

Program Description

The Theatre Program represents Dean College's strong commitment to the arts. Our bachelor's program emphasizes acting, musical theatre, technical theatre and theatre studies. The balance of practice and theory provides a well-rounded education in the art and study of theatre. Main Stage productions (minimally two musicals and two plays), several black box student productions and an annual Senior Showcase for industry professionals provide students with conservatory experience in a liberal arts setting. Our award-winning faculty consists of professionals and scholars with decades of professional theatre experience and scholarly research and who are dedicated to teaching the next generation of theatre professionals.

The Dean Difference in the Theatre Program is demonstrated by the individualized attention, the careful balance of practical application and research and the commitment by our faculty to provide students an enriching educational and creative experience. Acting students study the fundamentals of Stanislavsky, Meisner, Hagen, Strasberg, Adler and Michael Chekhov, combining basic and advanced training with an additional emphasis on voice production and dynamic movement. Musical Theatre students experience detailed training in the "triple threat" areas of acting, singing and dancing, with a strong focus on acting technique, vocal production and repertoire in addition to dance training through coursework facilitated by faculty of the Joan Phelps Palladino School of Dance. Technical Theatre students focus on stage management, lighting and production design/construction with constant opportunities for practical application in realized productions. Theatre Studies students experience enriching work in the areas of dramaturgy, dramatic literature and theatre history. The result is an education that promotes the synergy between craft, art and knowledge of the theatre designed to build a vibrant and long-lasting career.

A cumulative GPA of 2.500 must be maintained in order to perform in a school-sponsored production on campus. A cumulative GPA of 2.750 must be maintained in order to perform in an off-campus school-sponsored production or event. Only the School Dean can make exceptions to these requirements.

Program Learning Goals

Through the course of study in the Bachelor's Degree in Theatre, students will be provided an opportunity to learn how to

- Think conceptually and critically about text, performance and production while developing informed artistic choices and incorporating proven techniques for theatre and musical theatre.
- Study and discuss the works of playwrights, ranging from classical to contemporary, emphasizing a working knowledge and appreciation of genres, styles and historical periods of theatre.
- Develop competency in researching and writing about theatre.
- Build competencies in multiple areas of stagecraft and theatrical design.
- Identify and explore career options in the field of theatre
- Acquire additional competencies depending on the track:

Acting Track Learning Goals

- Explore and apply voice and movement techniques to achieve full expression of character.
- Develop the actor's craft in order to demonstrate truthful behavior in imaginary circumstances.
- Demonstrate a sophisticated understanding of text analysis and its application to the art of acting.

Musical Theatre Track Learning Goals

- Explore and apply vocal, dance and movement techniques for musical theatre.
- Develop and apply a sophisticated understanding of character in voice and movement.
- Demonstrate a comprehensive understanding of the musical theatre repertoire.

Technical Theatre Track Learning Goals

- Increase experience in the diverse disciplines in theatrical production management.
- Understand the creative and practical applications of set, lighting and costume design.
- Demonstrate a practical proficiency in theatre technology.

Theatre Studies Track Learning Goals

- Develop and demonstrate an understanding of dramaturgy and theatre history.
- Acquire advanced skills in researching and writing about theatre.
- Develop an understanding and appreciation of the wider role of theatre in the global community.

Associate Degree Programs

ASSOCIATE DEGREE IN ATHLETIC COACHING AND RECREATION MANAGEMENT

Program Description

The Athletic Coaching and Recreation Management major offers students the opportunity to explore the world of sport, recreation and fitness. Athletic Coaching and Recreation Management is for students interested in coaching youth, recreational teams, club sports or other higher-level sports teams. Through coursework and internships with athletic coaches, students will be developing competency in effective game preparation, conducting efficient practice sessions, using game management strategies and analyzing players' skills. This program also prepares students to pursue the Bachelor's Degree in Athletic Coaching and Recreation Management.

D

Leadership, management and programming skills are focused on within the curriculum and internship experiences, so you'll graduate prepared to make a difference in your field.

Graduates of the Athletic Coaching and Recreation Management major will seek employment throughout the United States and abroad in municipalities, YMCAs, Boy's and Girl's Clubs, hospitality, tourism, National Park Service, resorts, the adventure trip industry, armed forces, college and university recreation programs and corporate recreation services.

Program Learning Goals

Through the course of study in the Associate Degree in Athletic Coaching and Recreation Management, students will be provided an opportunity to learn how to

- Explain the anatomical structure and physiological functions of human body systems, homeostasis and/or disorders resulting from homeostatic imbalances and injuries.
- Identify significant events that have shaped the history and development of physical education and sport while identifying critical issues facing these areas.
- Use various methods of appraising and evaluating each of the health- and skill-related components of physical fitness and develop an individualized fitness plan based on the findings of the fitness assessment.
- Identify and understand critical issues confronting physical, mental and nutritional health.
- Apply quantitative methods in the analysis of sport-related topics, including measures of health, fitness and psychosocial behavior.
- Apply business-related skills to aid in the management and oversight of organizations as related to fiscal responsibilities assigned to managers.
- Articulate and apply coaching techniques, competitive tactics and strategies appropriate to the sport environment.
- Identify career opportunities in Athletic Coaching and/or Recreation Management within both the private and public sectors.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with the Kraft Sports Group (KSG). It provides academic, athletic and internship opportunities for students to gain insight from KSG officials. The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships available through the Kraft Sports Group, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Athletic Coaching and Recreation Management (see [pages 36-39](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

ASSOCIATE DEGREE IN BUSINESS

Program Description

The Business major has been designed to provide students with a strong academic foundation in business theories and practices, accounting, finance, economics, marketing, communication and technology. Students gain an understanding of the field of business from the theoretical and practical areas while learning the value of leadership and teamwork. The Business major also provides a comprehensive foundation in decision making, problem solving and quantitative reasoning. Our goal is to offer an educational experience that will enable students to pursue a career in business as well as successfully continue their education. Work experience is embedded throughout the program, requiring students to immediately use and apply what they are learning.

D Program Learning Goals

Through the course of study in the Associate Degree in Business, students will be provided an opportunity to learn how to

- Apply basic business and financial concepts and theories.
- Demonstrate an understanding of the principles related to managing organizations.
- Demonstrate an understanding of the business functions of an organization.
- Present effective oral and written forms of communications, including the use of reference tools.

After completing the associate degree, students are well prepared for further studies in accounting, finance, marketing, economics, general management, entrepreneurial studies, health care management, security management, international business, human resource management and sales.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Business Management, Criminal Justice and Homeland Security, Marketing or Sport Management (see [pages 42-43, 48-51, 84-85](#) and [90-91](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN COMMUNICATIONS

Program Description

The Communications major is designed to introduce students to the ever-changing media and communications fields. Students study the history, evolution and changing state of mass communications as well as the communication technologies and techniques used in mass media production. Students develop their skills at writing and producing content to be delivered through various media, including the Internet, social media, emerging media and digital audio and video. Students get hands-on experience in digital media production starting on day one, working in professional studios and labs with a faculty with a wealth of professional experience. Students also develop an understanding of the economic and social effects of media, including legal and ethical issues. Courses offered combine theoretical and experiential learning.

D

Communications students can practice what they've learned through fieldwork at local television and radio stations located in one of the top 10 media markets in the nation. Students also gain unprecedented hands-on experience working with our major sports franchise partners. Through the Dean College Center for Business, Entertainment and Sport Management, students have access to exciting learning opportunities with the New England Patriots, New England Revolution, Pawtucket Red Sox, Providence Bruins and Boston Cannons.

Program Learning Goals

Through the course of study in the Associate Degree in Communications, students will be provided an opportunity to learn how to

- Write functionally, simply, clearly, concisely and effectively to be heard and understood.
- Understand and apply principles of concept creation in the media profession.
- Learn specific tools of the industry and have the skills to be able to learn new tools as they are introduced.
- Learn and apply design principles.
- Understand the terminology of the industry.
- Understand ethical and legal standards of the profession and act in accordance with those standards.
- Understand the historical and theoretical context of current communications practices.

The Digital Studios

Dean's Digital Studios houses a video facility, three-camera television studio and digital audio and video postproduction suites. In digital media labs, students can sharpen their editing skills using industry-standard software, such as Final Cut Pro for video editing and Pro Tools for audio mixing. The center is also home to an integrated classroom where students and professors utilize technology in a highly effective learning environment.

WGAO-FM Radio Station and Dean TV

WGAO 88.3 FM, Dean's Nielsen-rated, 175-watt stereo radio station, provides opportunities for developing talent as on-air personalities and news, weather and/or sports reporters and commentators. The station operates 24 hours per day with a state-of-the-art broadcast system and can be heard around the world at power883.org. WGAO is a broadcasting laboratory modeled as a professional station without the commercials.

Dean TV allows students the unique opportunity to work as creators, segment producers, talent and crew to produce news, entertainment and sports programming for the Dean community and the surrounding geographic area.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with the Kraft Sports Group (KSG). It provides academic, athletic and internship opportunities for students to gain insight from KSG officials. The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships available through the Kraft Sports Group, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Communications (see [pages 44-47](#)) or the Bachelor of Science in Sports Broadcasting ([pages 92-95](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN CRIMINAL JUSTICE

Program Description

The mission and purpose of the Dean College Criminal Justice major are to provide students with a foundation in the causes, consequences and responses to crime. It is designed to prepare students for varied career opportunities in the criminal justice field. The courses focus on the roles and responsibilities of the agencies at the heart of the criminal justice system and process: law enforcement, courts and corrections, including probation, parole and community-based services. Students develop an understanding of the social and historical contexts as well as legal, political and economic factors that influence the criminal justice system and the people who are impacted by it as victims, offenders, professionals, public policy-makers and citizens.

D

If you have always dreamed of working in law enforcement, the major prepares you for careers at the local, state or national level, including agencies such as the Federal Bureau of Investigation (FBI), the Drug Enforcement Agency (DEA) or a Department of Homeland Security (DHS) agency, which includes the U.S. Customs and Border Protection (CPB), U.S. Immigration and Customs Enforcement (ICE) and Transportation Safety Administration (TSA).

If you have a passion for making a difference in your community by working with at-risk or court-involved children, teens or adults, this major lays the foundation for careers in child protection; youth development; community justice; victim assistance; and substance abuse prevention, treatment and rehabilitation. From this major, you may also branch off into counseling and case management, working in probation, parole and other corrections agencies as well as in courts, schools and community organizations.

If you have been hooked by crime scene investigation shows, you can complete additional biology and chemistry courses as electives to prepare for a career in forensics, a science-based field. You may also major in Science and take criminal justice courses as electives if this is your career interest and goal.

Program Learning Goals

Through the course of study in the Associate Degree in Criminal Justice, students will be provided an opportunity to learn how to

- Describe, discuss and explain the fundamental causes, consequences and responses to crime, together with the social and historical contexts and legal, political and economic factors that influence the criminal justice system and those who are impacted by it as victims, offenders, professionals, public policy makers and citizens.
- Identify, describe and explain the functions of, roles and responsibilities of, significant challenges to, and current trends in the three component parts of the criminal justice system — law enforcement, courts and corrections — and their relationships to each other and to institutions of social control.
- Distinguish between the due process and crime control models of criminal justice and identify, describe and apply the constitutional principles of due process and equal protection governing the process by which crimes are investigated, prosecuted, adjudicated and punished.
- Identify, describe and analyze the nature, extent and causes of delinquency and crime, including the major criminological theories and the crime control policy implications of each.

Emphasis is placed on applied learning and skill development: oral and written communication, critical thinking and effective and ethical problem solving as well as the willingness and aptitude to work with people from all walks of life — of all ages and cultural, ethnic and socioeconomic backgrounds — involved in the criminal justice system.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Criminal Justice and Homeland Security, the Bachelor of Arts in Psychology, or the Bachelor of Arts in Sociology (see [pages 48-51, 86-87, and 88-89](#)) with a minor in Justice Studies. Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

ASSOCIATE DEGREE IN DANCE

Program Description

The Dance majors are housed within the Dean College Joan Phelps Palladino School of Dance. The mission of the Associate Degree in Dance is to provide rigorous training in the disciplines of ballet, modern, jazz and tap within a liberal arts context. This degree entails intense preparation for continuing in one of the Bachelor's Degrees in Dance (see [pages 52–63](#) for more information).

Program Learning Goals

Through the course of study in the Associate Degree in Dance, students will be provided an opportunity to learn how to

D

- Improve in ability and demonstrate knowledge of the content and terminology of ballet, modern, jazz and tap dance techniques.
- Understand career options in the field of dance.
- Choreograph dance forms with an understanding of spatial design, music/rhythm and thematic structure as they apply to solo, duet and group formations.
- Recognize the value and power of both historic and contemporary dance as a means of communication.
- Understand basic anatomy as it pertains to dance.

Dance majors have the opportunity to audition for and be a part of many exciting on-campus productions, tour festivals and conferences, and they have the opportunity to study with a variety of celebrated guest artists.

A cumulative GPA of 2.500 must be maintained in order to perform in an on-campus school-sponsored concert. A cumulative GPA of 2.750 must be maintained in order to perform in an off-campus school-sponsored concert or event. Only the School Dean can make exceptions to these requirements.

Upon completion of the program, students may take advanced studies in dance, dance education or musical theatre or pursue professional opportunities as performers or choreographers.

NOTE: A dance performance and choreography jury is required at the end of the second year of study to assess progress and chart future plans of study should a student continue into one of the Bachelor's Degrees in Dance.

NOTE: All students applying for the Dance program at either the associate or bachelor's level, must audition for the School. Please see [page 211](#) for more information.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Dance and the Bachelor of Fine Arts in Dance (see [pages 52–63](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15–16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN EARLY CHILDHOOD EDUCATION

Program Description

The mission of the Early Childhood Education major is to provide a theoretical and practical foundation for observing, understanding and meeting the diverse psychosocial developmental needs of the young child in the classroom.

Program Learning Goals

Through the course of study in the Associate Degree in Early Childhood Education, students will be provided an opportunity to learn how to

D

- Objectively observe children's behavior and accurately record the observations.
- Clearly articulate the connections between child development theory and observed behavior.
- Demonstrate a solid understanding of child development and be able to consistently apply this to their interactions with children.
- Set up and adapt educational environments, addressing the diversity of children to meet their social, emotional, cognitive and physical needs.
- Plan, implement and then adapt developmental and active learning experiences, addressing the diversity of children.
- Develop collaborative relationships with families of children, essentially linking home and school.

After completing the associate degree, students will have the option of continuing in Dean's bachelor's degree program or beginning a career in early childhood education. Students who pursue a bachelor's degree are well prepared for further studies in early childhood education, child development, educational administration, or human services. Study in these areas can lead to such positions as teacher or director in preschools or day care programs, early childhood curriculum coordinator, pediatric nurse, recreation leader, social worker, family therapist, health care specialist, or child care licensing specialist. Other positions include working in the child-related community, state or federal agencies or organizations. Those who pursue advanced studies after graduation from Dean will find diverse professional opportunities available.

Dean College Children's Center

An important, exciting opportunity for students in the Early Childhood Education program is working at the Dean College Children's Center, an on-campus preschool for area youngsters, ages 2.9–6 years. The equipment and curriculum materials in the Center have been designed to encourage maximum development of a child's social, emotional, physical and cognitive growth. Students work with College faculty and the Children's Center staff to plan lessons and teach in addition to meeting with parents about their children's educational development.

The aim of the Children's Center is threefold: to provide a rich preschool experience for young children, reflecting open educational concepts; to provide a learning laboratory experience for student teachers, increasing their working skills with young children; and to provide a demonstration and resource center for families, assisting them in the joyful and complex task of parenting.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Early Childhood Education (see [pages 64–65](#)), Bachelor of Arts in Psychology ([pages 86–87](#)) or in Liberal Arts and Studies ([pages 76–83](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15–16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

 EDU 285 – Observation and Assessment (3 cr)
 PSY 211 – Child Development (3 cr)
 DCA 100 – Campus Connections: Making the Transition (1 cr)
 DCA 110 – Career Connections: Developing Your Brand (1 cr)
 DCA 200 – Internship Connections: Creating Your Plan (1 cr)

ELECTIVES (9 credits)*

9 credits Open Elective

*Students are strongly advised to take EDU 282/283 – Seminar in ECE and Lab for Practicum in Early Childhood Education (6 cr), which will fulfill open elective requirements.

NOTES

+See [pages 198-202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

*Students seeking Massachusetts Department of Early Education and Care (DEEC) qualification take EDU 111 in the first semester and EDU 282 and EDU 283 in the fourth semester to gain educational and experiential requirements for DEEC Teacher of Preschool qualification. EDU 283, which is for 14 hours per week, must be taken concurrently with EDU 282. To enroll in EDU 282/283, students must obtain a “C” or better in EDU 280/281 and a “C” or better on the Final Student Observation Record.

**Students must achieve a “C-” or better in EDU 103/111 and PSY 211/EDU 251 to enroll in EDU 231.

***Students must achieve a “C-” or better in EDU 103/111 and PSY 211/EDU 251 and approval of Education faculty and staff. EDU 281 may only be taken after or concurrently with EDU 231. If taken after EDU 231, students must achieve a “C-” or better in EDU 231. EDU 281 is for 3.5 hours per week and must be taken concurrently with EDU 280.

All practicum experiences (EDU 280/281 and EDU 282/283) require students to complete a CORI/SORI and fingerprinting and receive approval from the Program Coordinator.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN ENGLISH

Program Description

Students who major in English take five classes beyond the first-year writing core to broaden their background and understanding of literature in different time periods and genres and to continue developing critical reading, thinking and writing skills. The College offers a variety of literature, creative writing and special topics classes to prepare students to continue in a bachelor's degree program as English majors or pursue another major that requires similar skills. The English faculty strives to expose students to a broad spectrum of the human condition and apply literary criticism and psychoanalytical theory to a study of literary characters.

D

English faculty at Dean represent diverse backgrounds in literature and writing, and as a result, English majors have a variety of options in their studies. Through introductory and traditional survey courses, special topics courses, genre and social issues courses and literary period courses, students will study a range of American and British literature. Creative writing classes encourage students to pursue their own creative endeavors in a workshop-based class environment. Through innovative literature and writing classes, students will examine the relationship among text, author and reader. The program prepares students to read, write and think critically about literature, history and culture while preparing for further studies in a bachelor's degree program. With a rich awareness of their literary heritage and exposure to the written word, English majors pursue careers in writing, research, editing, publishing, teaching and library work. The English major offers an excellent preparation for many fields of graduate study as well as an excellent foundation for professional fields in law, government, media, advertising, business, culture and the arts.

Program Learning Goals

Through the course of study in the Associate Degree in English, students will be provided an opportunity to learn how to

- Offer a nuanced interpretation of literature that shows sensitivity to the diverse historical, cultural and social conditions from which the work emerges.
- Create original stories, poems, plays and/or essays.
- Produce polished writing for the workplace and employ digital publishing skills.
- Use the writing conventions of English studies, including correct grammar, mechanics and MLA citations; an engaging and distinctive style; and clear organization and structure appropriate for the genre.
- Ethically use research to create reliable, authoritative and/or scholarly texts.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in English (see [pages 66-67](#)) or the Bachelor of Arts in Communications ([pages 44-47](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

ASSOCIATE DEGREE IN EXERCISE SCIENCE

Program Description

The Exercise Science major is designed for those students with a strong interest in careers associated with fitness and human performance, including cardiac rehabilitation, exercise science, health, health fitness and physical education. Upon graduation, students are able to pursue career opportunities in health clubs, cardiac rehabilitation facilities, corporate fitness centers and private entrepreneurial enterprises.

The majors in Athletic Coaching and Recreation Management, Exercise Science and Pre-Athletic Training are designed for those students with a love of physical activity and an active lifestyle who want to pursue a career in one of the many exciting fields associated with the sport/fitness studies area. From the traditional field of study in athletic coaching to the scientific areas of exercise science and pre-athletic training, students have an opportunity to explore and develop their interests and skills in a broad variety of both academic- and activity-based courses. Most of the careers associated with these majors require a bachelor's degree, and each major is designed to facilitate transfer to a four-year college or university.

Program Learning Goals

Through the course of study in the Associate Degree in Exercise Science, students will be provided an opportunity to learn how to

- Explain anatomical structure and physiological functions of human body systems, homeostasis and/or disorders resulting from homeostatic imbalances and injuries.
- Identify significant events that have shaped the history and development of physical education and sport while identifying critical issues facing these areas.
- Use various methods of appraising and evaluating each of the health- and skill-related components of physical fitness and develop an individualized fitness plan based on the findings of the fitness assessment.
- Identify and understand critical issues confronting physical, mental and nutritional health.
- Apply quantitative methods in the analysis of sport-related topics, including measures of health, fitness and psychosocial behavior.
- Demonstrate proficiency in fitness instruction.
- Identify career opportunities in exercise science.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with the Kraft Sports Group (KSG). It provides academic, athletic and internship opportunities for students to gain insight from KSG officials. The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships available through the Kraft Sports Group, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Exercise Science (see [pages 72-73](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

NOTES

*See [pages 198–202](#) for the list of Core Mathematics Elective Courses and Core Distribution Elective Courses.

**A grade of “C–” or better in BIO 171 and SFL 170, or approval of the Dean of the School of Liberal Arts, is required to remain in this major.

TOTAL CREDITS: 62

ASSOCIATE DEGREE IN GENERAL STUDIES

Program Description

The General Studies major is designed for students who want to develop an individual program of study based on Dean College's curriculum with the flexibility of enrolling in courses across academic disciplines. It is an appropriate major for those who are interested in exploring a variety of academic disciplines and/or would like to take courses from a specific major without having to commit to completing all courses for that major.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Liberal Arts and Studies (see [pages 76-83](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

ENG 111 – Composition I (3 cr)
 ENG 112 – Composition II (3 cr)
 SPC 101 – Communication Fundamentals (3 cr)
 Core Mathematics Elective* (3 cr)
 Core Lab Science Elective* (4 cr)
 Core Distribution Arts Elective* (3 cr)
 Core Distribution Humanities Elective* (3 cr)
 Core Distribution Natural Sciences and Mathematics Elective* (3 cr)
 Core Distribution Social Sciences Elective* (3 cr)

MAJOR (18 credits)**

Introductory Course (3 cr), selected from: AMGT 111, BIO 151, BUS 123, COM 121, CRM 110, EDU 111, ENG 101, HIS 101, HSCI 111, PSY 111, SFL 111, SMGT 172, *or* SOC 113
 12 credits from one discipline area or from the liberal arts elective list.
 DCA 100 – Campus Connections: Making the Transition (1 cr)
 DCA 110 – Career Connections: Developing Your Brand (1 cr)
 DCA 200 – Internship Connections: Creating Your Plan (1 cr)

ELECTIVES (15 credits)**

15 credits Open Electives

NOTES

*See [pages 198-202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

**At least 12 of these 33 credits (major plus open electives) must be at the 200 level *or* higher.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN HEALTH SCIENCES

Program Description

The Health Sciences major is designed to provide those students interested in entering one of the many health sciences-related professions the foundational coursework in the sciences and the liberal arts. Students choosing this major will have opportunities to transfer into numerous programs associated with the allied health field, including exercise physiology, health sciences, health education, medical laboratory science, respiratory therapy, nutrition, rehabilitation and disability studies.

Students intending to major in Health Sciences must have a strong science background and a recommended high school cumulative 3.000 Grade Point Average (GPA) based on core academic courses.

D

Program Learning Goals

Through the course of study in the Associate Degree in Health Sciences, students will be provided an opportunity to learn how to

- Explain physiological functions of human body organ systems, homeostasis and disorders resulting from homeostatic imbalances, infection and environmental influences.
- Recognize principles of general chemistry, including chemical bonding and structure, atomic theory, equilibrium, acids and bases, radioactivity, organic functional groups and the role of biological molecules in the human body.
- Through the use of quantitative and qualitative methods of analysis, recognize social, cognitive and biological influences on human development.
- Identify systems of moral decision making in solving moral dilemmas and controversial choices in medical ethics.
- Identify career opportunities in allied health and nursing disciplines.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs (see [pages 32–101](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15–16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

ENG 111 – Composition I (3 cr)

ENG 112 – Composition II (3 cr)

SPC 101 – Communication Fundamentals (3 cr)

Core Mathematics Elective* (3 cr)

**Students need to be aware of the math prerequisite requirements to take CHM 151.

TOTAL CREDITS: 62

ASSOCIATE DEGREE IN HISTORY

Program Description

Students who major in History take five history classes to broaden their background and understanding of U.S. history and world civilizations, studying time periods and the cultural, political, economic and religious influences on humankind. Through research and analytical writing, students develop the skills required to continue in a bachelor's program in History at Dean College or another college or university, or into a related course of study that requires this background. The College offers two-course survey sequences in U.S. history and in world civilizations as well as special topics courses that showcase faculty research and interests and expose students to a specific topic within the field of study.

Students who major in History gain a broad understanding of historical perspectives, historical thinking and methods, and ethical issues linked to history. Students will learn how historians make history and the narrative of human civilizations, ancient to modern. Interpretative analysis is emphasized over memorization of dates and facts. History faculty use a wide array of primary and secondary sources (including documents, film, music and visual images) to understand events, uncover the causes and effects of political and social change and analyze contemporary issues and problems. While History majors often pursue graduate studies, employment opportunities for History graduates can be found in public history, museum work, historical societies, archival work, education and interpretative fields. Research and writing skills developed in this major can readily transfer into other fields of employment, including the business world, journalism, media and law.

Program Learning Goals

Through the course of study in the Associate Degree in History, students will be provided an opportunity to learn how to

- Understand the difference between historians' definitions of primary and secondary sources and be able to use primary and secondary sources to analyze past events and construct historical arguments.
- Be fluent in techniques of historical writing, including the use of the *Chicago Manual of Style* citation method.
- Be able to think chronologically and demonstrate knowledge of historical narratives.
- Be able to identify and address debates in the subfields of History.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in History (see [pages 74–75](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15–16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN PRE-ATHLETIC TRAINING

Program Description

The Pre-Athletic Training major is designed for those students who want to combine strong interests in science, athletics and medicine. A certified athletic trainer is an allied health care professional who works with athletes to prevent, treat and rehabilitate sport injuries under the direct supervision of a physician. Certified athletic trainers work in a variety of settings including high school, college and professional sport organizations, as well as private clinics. Dean's Pre-Athletic Training curriculum offers students basic theory courses linked to a practicum supervised by a licensed athletic trainer certified by the Board of Certification, Inc. (<http://www.bocatac.org/candidates/exam-eligibility>).

The majors in Athletic Coaching and Recreation Management, Exercise Science and Pre-Athletic Training are designed for those students with a love of physical activity *and* an active lifestyle who want to pursue a career in one of the many exciting fields associated with the sport/fitness studies area. From the traditional field of study in athletic coaching to the scientific areas of exercise science and pre-athletic training, students have an opportunity to explore and develop their interests and skills in a broad variety of both academic- and activity-based courses. Most of the careers associated with these majors require a bachelor's degree, and each major is designed to facilitate transfer to a four-year college or university. Students who want to become certified athletic trainers must obtain a master's degree from an accredited athletic training program.

Program Learning Goals

Through the course of study in the Associate Degree in Pre-Athletic Training, students will be provided an opportunity to learn how to

- Explain anatomical structure and physiological functions of human body systems, homeostasis and/or disorders resulting from homeostatic imbalances and injuries.
- Identify significant events that have shaped the history and development of physical education and sport while identifying critical issues facing these areas.
- Use various methods of appraising and evaluating each of the health- and skill-related components of physical fitness and develop an individualized fitness plan based on the findings of the fitness assessment.
- Demonstrate competency in the recognition, evaluation, treatment and prevention of athletic injuries.
- Apply quantitative methods in the analysis of sport-related topics, including measures of health and fitness, psychosocial behavior, factors influencing athletic injuries and injury prevention methods.
- Through the use of quantitative and qualitative methods of analysis, recognize cognitive and biological influences on human psychological development over the lifespan.
- Identify career opportunities in athletic training.

To become a certified athletic trainer, students must eventually earn a Master's degree in Athletic Training from a Commission on Accreditation of Athletic Training Education (CAATE) accredited program. Therefore, upon completion of Dean's Pre-Athletic Training associate degree program, students will be well prepared to complete one of the following three options: (1) earn Dean's Bachelor of Science in Exercise Science and then apply to and complete a CAATE-accredited masters' degree program in athletic training; (2) transfer to a bachelor's degree program with a direct pathway to a CAATE-accredited Master's degree (3+2 program); (3) transfer to complete a bachelor's degree in a closely related field (exercise science, health science, etc.) and then apply to a CAATE-accredited masters' degree program in athletic training. Students should discuss these options with their Success & Career Advisor and the Exercise Science Program Coordinator. Please note that a very strong science background is necessary for any student who is considering this major.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with the Kraft Sports Group (KSG). It provides academic, athletic and internship opportunities for students to gain insight from KSG officials. The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships available through the Kraft Sports Group, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Athletic Coaching and Recreation Management (see [pages 36-39](#)) or the Bachelor of Science in Exercise Science ([pages 72-73](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 60

ASSOCIATE DEGREE IN PRE-NURSING

Program Description

The Pre-Nursing major is designed to provide those students interested in entering a four-year program in nursing the foundational coursework in the sciences and the liberal arts. Students choosing this major will have opportunities to transfer into numerous nursing programs.

Students intending to major in Pre-Nursing must have a strong science background and a recommended high school cumulative 3.000 Grade Point Average (GPA) based on core academic courses. Transfer into four-year nursing programs is highly competitive. Students interested in pursuing a bachelor's degree are advised to maintain at least a 3.000 overall GPA with no grade lower than a "B-."

D

Program Learning Goals

Through the course of study in the Associate Degree in Pre-Nursing, students will be provided an opportunity to learn how to

- Explain physiological functions of human body organ systems, homeostasis and disorders resulting from homeostatic imbalances, infection and environmental influences.
- Recognize principles of general chemistry, including chemical bonding and structure, atomic theory, equilibrium, acids and bases, radioactivity, organic nomenclature, properties and reactions of functional groups and the role of biological molecules in the human body.
- Through the use of quantitative and qualitative methods of analysis, recognize social, cognitive and biological influences on human development.
- Demonstrate an understanding of the nutritional needs of healthy adults and children, the functions of nutrients in the human body and the effects of nutrient inadequacies and excesses.
- Articulate key concepts and issues related to nursing practice.
- Identify ethical issues regarding privacy and confidentiality.
- Identify career opportunities in the allied health and nursing disciplines.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs (see [pages 32-101](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

TOTAL CREDITS: 61–65

ASSOCIATE DEGREE IN PSYCHOLOGY

Program Description

Psychology majors at Dean study the various influences that shape human behavior, thinking and emotions. In these two years, students explore how biological, psychological and social factors influence human behavior. In addition, they learn about human development, psychological disorders and cognitive and social psychology. In the bachelor's degree program, the program study expands to counseling methods, brain and behavior and theories of personality. In addition, students may elect to explore sport psychology and psychology of religion and culture. An emphasis on applied psychology and case studies is immersed in every course to understand what influences human behavior. Psychology majors pursue careers in social service organizations, counseling centers, schools, hospitals and the corporate world.

D

Program Learning Goals

Through the course of study in the Associate Degree in Psychology, students will be provided an opportunity to learn how to

- Demonstrate knowledge of key concepts and overarching themes in psychology.
- Demonstrate knowledge of various perspectives in psychology: biological, behavioral, cognitive and others.
- Demonstrate knowledge of various fields of psychology.
- Demonstrate knowledge of basic research methods necessary to understand and use research in the field of psychology.
- Demonstrate scientific and critical thinking skills.
- Apply ethical standards to evaluate psychological science and practice.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Psychology (see [pages 86-87](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

*See [pages 198-202](#) for the list of Core Lab Science Elective Courses and Core Distribution Elective Courses.

**Students are strongly recommended to take PHL 115 – Ethics to fulfill an open elective.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN SCIENCE

Program Description

Science is an ever-changing and evolving field. Rapid technological advancements present new and unprecedented opportunities for research and discoveries in the life sciences, chemistry and medicine. Students who select Science as their major are well poised to pursue study in multiple areas of scientific inquiry.

The mission of this major is to provide students with the introductory science and mathematics courses needed to fulfill the general prerequisites in a natural science major at a four-year college or university. This is an ideal major for those who love science or who plan to pursue a bachelor's degree in the natural sciences, engineering or laboratory research. Students in the Science major must complete four lab science courses in addition to all the core requirements.

D

Program Learning Goals

Through the course of study in the Associate Degree in Science, students will be provided an opportunity to learn how to

- Recognize basic principles of biology and chemistry.
- Demonstrate the knowledge and skill required to use a microscope while observing cells, tissue and both macroscopic and microscopic organisms.
- Conduct chemical analyses to identify and quantify unknown samples.
- Identify major historical contributions to science.
- Demonstrate the ability to read and critically evaluate scientific studies.
- Identify career opportunities in science and mathematics disciplines.

After completing the associate degree, students who transfer are well prepared for further studies in engineering, computer science, biology, chemistry, physics or environmental science. Students may also pursue premedicine or preveterinarian programs from this major.

A variety of careers are open to students who complete the Science major, including research, teaching, engineering, environmental studies, environmental policy analysis, computer science, business, medicine and veterinary medicine. Most of the careers associated with this major require a bachelor's degree, and this major is designed to facilitate transfer to a four-year college or university. The rigor of the academic training provided by this major allows successful graduates to pursue any number of careers in the natural sciences field, including agriculture and green technologies.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Biology (see [pages 40-41](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

ENG 111 – Composition I (3 cr)

ENG 112 – Composition II (3 cr)

SPC 101 – Communication Fundamentals (3 cr)

MTH 150, MTH 151, MTH 152, MTH 241 *or* MTH 242 (3–4 cr) to fulfill the Core Mathematics Elective

BIO 151 – General Biology – The Cell (4 cr) to fulfill the Core Lab Science Elective

Core Distribution Arts Elective* (3 cr)

Core Distribution Humanities Elective* (3 cr)

Core Distribution Natural Sciences and Mathematics Elective* (3 cr)

Core Distribution Social Sciences Elective* (3 cr)

MAJOR (23 credits)

BIO 152 – General Biology – Organisms (4 cr)

CHM 151 – Chemistry I** (4 cr)

CHM 152 – Chemistry II (4 cr)

HIS/SCI 265 – History of Science (4 cr)

Science Elective (4 cr)***

DCA 100 – Campus Connections: Making the Transition (1 cr)

DCA 110 – Career Connections: Developing Your Brand (1 cr)

DCA 200 – Internship Connections: Creating Your Plan (1 cr)

ELECTIVES (9 credits)****

9 credits Open Electives

NOTES

*See [pages 198–202](#) for the list of Core Distribution Elective Courses.

**Students need to be aware of the math prerequisite requirements to take CHM 151.

***Science electives include: BIO 211 – Microbiology; BIO 224 – Pathophysiology; BIO 171 – Anatomy and Physiology I; BIO 172 – Anatomy and Physiology II; BIO 175 – Anatomy Essentials; BIO 240 – Cellular and Molecular Biology; BIO 250 – Beyond Henrietta Lacks: Race and Medicine in 20th Century Medicine; PHY 151 – General Physics I

****MTH 130 – Introductory Statistics or another Science elective are strongly recommended.

TOTAL CREDITS: 60

ASSOCIATE DEGREE IN SOCIOLOGY

Program Description

Sociology majors at Dean achieve a fundamental understanding of the social world and the complexities of human interaction, primarily by studying how people live together in groups. Sociology is essential for understanding why people think and act as they do, how societies hold together or experience conflict and how cultures differ. Using sociological theory and specific sociological research methods, students learn to see how the social world is organized as well as how relationships form, why they persist, what effects they have and how they maintain social order and bring about social change.

Building on the strong foundation of the first two years, those continuing into a bachelor's degree program in sociology experience a broad view of the world in addition to the focused sociology curriculum in substantive areas of sociology, including stratification, family, technology, health and illness, media and collective behavior in upper-division courses. Sociology majors pursue careers in social advocacy, social work, education, health care, government, research, law enforcement, international organizations and sales and marketing.

Program Learning Goals

Through the course of study in the Associate Degree in Sociology, students will be provided an opportunity to learn how to

- Apply critical thinking skills about social issues.
- Explore the role of theory in sociology, demonstrating an ability to (a) define theory and describe its role in building sociological knowledge, (b) compare and contrast basic theoretical orientations, (c) show how theories reflect the historical context of the times and cultures in which they were developed and (d) apply these theories to social reality.
- Understand the role of evidence and qualitative and quantitative methods in sociology and be able to identify the steps of the sociological research process, distinguish between various research methods and recognize the ethical concerns involved in conducting sociological research.
- Understand the basic concepts in sociology and how they are interrelated.
- Discuss the “sociological imagination,” explaining the connection between our individual experiences and the larger society.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Sociology (see [pages 88-89](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

CORE (28 credits)

ENG 111 – Composition I (3 cr)

ENG 112 – Composition II (3 cr)

ELECTIVES (9 credits)

9 credits Open Electives

NOTES

*See [pages 198–202](#) for the list of Core Lab Science Elective Courses and Core Distribution Elective Courses.

**Students changing to a Sociology major once matriculated at Dean College must take SOC 113 – Introduction to Sociology as soon as possible after they declare their Sociology major.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN SPORT MANAGEMENT

Program Description

The Sport Management major is housed in the School of Business and is designed for students who want to combine their interests in both business management and one of the many physical activity options. It prepares students for a variety of career opportunities, including those in professional sports, club or camp management, educational athletics, sports and leisure retailing and entrepreneurial enterprises. Both entry-level career positions and bachelor's degree opportunities are available to students completing this major.

Program Learning Goals

Through the course of study in the Associate Degree in Sport Management, students will be provided an opportunity to learn how to

- Apply basic business and financial concepts and theories.
- Demonstrate an understanding of the principles related to managing sports facilities and organizations.
- Demonstrate an understanding of the business functions of a sport management organization.
- Present effective oral and written forms of communications, including the use of reference tools.

The Center for Business, Entertainment and Sport Management

The Center was created by Dean College as an academic partnership with the Kraft Sports Group (KSG). It provides academic, athletic and internship opportunities for students to gain insight from KSG officials. The Center offers the opportunity for hands-on learning in the classroom and on location at One Patriot Place. At the heart of the partnership is a commitment to provide our students real-world opportunities, including the chance to complete one of many internships available through the Kraft Sports Group, including with the New England Patriots, New England Revolution, Patriot Place and Gillette Stadium.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Science in Sport Management (see [pages 90-91](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

NOTES

*See [pages 198-202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

TOTAL CREDITS: 61

ASSOCIATE DEGREE IN THEATRE/MUSICAL THEATRE

Program Description

The Theatre/Musical Theatre major is designed to prepare students with the theatrical knowledge, skills and experiences necessary to continue their studies in Theatre by attaining a bachelor's degree in Theatre and/or pursuing opportunities in a professional theatre career. Considerable opportunities are provided for students to audition for and participate in a variety of performing arts productions either in performance or technical areas of theatre.

A cumulative GPA of 2.500 must be maintained in order to perform in an on-campus school-sponsored production.

A cumulative GPA of 2.750 must be maintained in order to perform in an off-campus school-sponsored production or event. Only the School Dean can make exceptions to these requirements.

D

Program Learning Goals

Through the course of study in the Associate Degree in Theatre/Musical Theatre, students will be provided an opportunity to learn how to

- Identify the various aspects of theatre including its origin, the roles of the individuals who are involved in theatrical production and the various types of drama, dramatic structure, dramatic characters, theatrical environments and visual elements of theatrical design.
- Identify and explain the basic elements of stagecraft in scenic design, rigging, construction and stage lighting.
- Exhibit competency in the fundamental methods of theatrical performance, including the primary disciplines of voice, articulation and improvisation.
- Analyze the basic concepts of a character's goals, obstacles, tactics and expectations.

Bachelor's Degrees and Careers

Graduates of Dean's associate programs have many options from which to choose. Some Dean graduates will transition into one of Dean's bachelor's degree programs, including the Bachelor of Arts in Theatre (see [pages 96-101](#)). Others will transfer to one of many colleges or universities around the country to complete their four-year degree. See Section B ([pages 15-16](#)) for a list of the institutions with which Dean has transfer agreements. Some associate degree graduates choose to directly enter the workplace.

Degree Requirements

 DCA 100 – Campus Connections: Making the Transition (1 cr)
 DCA 110 – Career Connections: Developing Your Brand (1 cr)
 DCA 200 – Internship Connections: Creating Your Plan (1 cr)

ELECTIVES (12–13 credits)***

12–13 credits Open Electives

NOTES

*See [pages 198–202](#) for the list of Core Mathematics Elective Courses, Core Lab Science Elective Courses and Core Distribution Elective Courses.

**Students should select the course required for their intended track in the Bachelor's degree in Theatre if they are planning to continue on for that degree.

***Students interested in specializing in Musical Theatre at the bachelor's level should plan to take MUS 181 – Fundamentals of Music and MUS 124 – Applied Voice to fulfill open electives.

TOTAL CREDITS: 61

Minors

MINORS

Students enrolled in any Dean College bachelor's degree program may opt to complete a minor. A minor consists of a total of 18 credits, at least 6 credits of which must be at the 300 or 400 level. Minors are not available to students in the associate degree programs. Students may not earn a minor in the same discipline as their major. Specific requirements for each available minor are listed below.

Dean College regularly reviews its curriculum. Additional minors may be added during the academic year. Please contact the Office of Academic Affairs for updates.

ARTS AND ENTERTAINMENT MANAGEMENT

- AMGT 111 – Introduction to Arts and Entertainment Management (3 cr)
- AMGT 112 – Theatre, Dance and Performing Arts Management (3 cr)
- AMGT 317 – Arts and Entertainment Law (3 cr)
- Three additional courses (9 cr) from the following list, at least one of which (3 cr) must be at the 300 or 400 level:
 - ACCT 103 – Financial Accounting (3 cr)
 - AMGT 203 – Venue and Facility Management (3 cr)
 - AMGT 305 – Principles and Foundations of Not-for-Profit Fundraising (3 cr)
 - AMGT 405 – Leading the Organization (3 cr)
 - BUS 235 – Principles of Marketing (3 cr)
 - BUS 325 – Principles of Finance and Budgeting (3 cr)
 - ENG 331 – Writing for the Arts and Entertainment World (3 cr)
 - THA 231 – Basic Stage Management (3 cr)

BUSINESS

- BUS 123 – Foundations of Business (3 cr)
- BUS 230 – Principles of Management (3 cr)
- BUS 235 – Principles of Marketing (3 cr)
- Three additional courses in Business (9 cr), at least two of which (6 cr) must be at the 300 or 400 level

COMMUNICATIONS

- COM 121 – Introduction to Communications (3 cr)
- COM 122 – Digital Audio Production I (3 cr)
- COM 123 – Digital Video Production I (3 cr)
- Three additional courses in Communications (9 cr), at least two of which (6 cr) must be at the 300 or 400 level

Students may apply no more than 3 credits of COM 112, COM 115 or COM 116 – Dean Radio or Dean TV to their minor.

CREATIVE WRITING

- ENG 101 – As Good As Your Word (3 cr)
- Five additional courses in Creative Writing (15 cr) from the following list, at least two (6 cr) must be at the 300 or 400 level:
 - ENG 220 – Creative Writing: Non-Fiction (3 cr)
 - ENG 222 – Creative Writing: Fiction (3 cr)
 - ENG 223 – Creative Writing: Poetry (3 cr)
 - ENG 342 – Advanced Writers Workshop (3 cr) *May be repeated for credit.*
 - COM 332 – Advanced Media Writing (3 cr)
 - THA 411 – Playwriting (3 cr)

DANCE

- A minimum of three technique courses in Dance (3 cr)
- Five additional courses in Dance (15 cr), two of which (6 cr) must be at the 300 or 400 level

Note: A student cannot take more than six technique classes within the 18 allotted credits and must complete a placement audition prior to enrollment in technique classes. Space must also be available in these classes as Dance majors have priority registration.

ENGLISH

- ENG 101 – As Good As Your Word (3 cr)
- Three 200 level ENG courses (9 cr)
- Two 300 level ENG courses (6 cr)

HISTORY

- Six courses in History (18 cr), at least two of which (6 cr) must be at the 300 or 400 level

HUMAN SERVICES

- SOC 113 – Introduction to Sociology (3 cr)
- PSY 111 – General Psychology (3 cr)
- PSY 325 – Professional Orientation to the Human Services (3 cr)
- Three additional courses (9 cr) from the following list, at least one (3 cr) must be at the 300 or 400 level:
 - BUS 245 – The Diverse Workforce (3 cr)
 - BUS 346 – Negotiations (3 cr)
 - CRM 110 – Introduction to Criminal Justice (3 cr)
 - CRM/SOC 324 – Juvenile Justice (3 cr)
 - PSY 202 – Human Development: A Lifespan Perspective (3 cr)
 - PSY 211 – Child Development (3 cr)
 - PSY 241 – Adolescent Development (3 cr)
 - PSY 250 – Social Psychology (3 cr)
 - PSY 310 – Family Psychology (3 cr)
 - PSY 320 – Counseling Psychology (3 cr)
 - PSY 332 – Personality (3 cr)
 - PSY 333 – Abnormal Psychology (3 cr)
 - PSY 345 – Psychology of Extremism (3 cr)
 - SOC 203 – Sociology of the Family (3 cr)
 - SOC 225 – Health and Illness: A Sociological Perspective (3 cr)
 - SOC 255 – Social Inequality and Stratification (3 cr)
 - SOC 320 – Public and Applied Sociology (3 cr)
 - SOC 345 – Drugs and Society (3 cr)
 - SOC 350 – Social Movements and Collective Behaviors (3 cr)

MINORS (Continued)

INTEGRATED MARKETING COMMUNICATIONS

- BUS 218 – Principles of Advertising (3 cr)
- BUS 235 – Principles of Marketing (3 cr)
- BUS 314 – Marketing Analytics (3 cr)
- BUS 350 – Sales and Relationship Management (3 cr)
- COM 202 – Integrated Marketing Communications (3 cr)
- SOC 355 – Consumer Culture (3 cr)

JUSTICE STUDIES

- CRM 110 – Introduction to Criminal Justice (3 cr)
- Three additional courses in Criminal Justice (9 cr)
- Two additional courses in Sociology (6 cr) at the 300 or 400 level

PRE-LAW

- CRM 231 – Courts and Criminal Procedure (3 cr)
- POL 211 – American Government (3 cr)
- HIS 112 – U.S. History - 1865 to Present (3 cr)
- Choose one of the following:
 - CRM/SOC 205 – Criminology: Theories of Crime (3 cr)
 - CRM 221 – Criminal Law (3 cr)
 - HIS 111 – U.S. History to 1865 (3 cr)
 - PHL 115 – Ethics (3 cr)
 - POL 215 – Civil Rights and Civil Liberties (3 cr)
 - SOC 113 – Introduction to Sociology (3 cr)
 - SPC 111 – Public Speaking (3 cr)
- Choose two of the following Upper-Division Law Courses:
 - AMGT 317 – Arts and Entertainment Law (3 cr)
 - BUS 346 – Negotiations (3 cr)
 - COM 417 – Media Law and Ethics (3 cr)
 - SMGT 405 – Sport Law (3 cr)

PSYCHOLOGY

- PSY 111 – General Psychology (3 cr)
- Five additional courses in Psychology (15 cr), two of which (6 cr) must be at the 300 or 400 level

SOCIOLOGY

- SOC 113 – Introduction to Sociology (3 cr)
- Five additional courses in Sociology (15 cr), two of which (6 cr) must be at the 300 or 400 level

THEATRE

- THA 101 – Introduction to Theatre I: The Curtain Rises (2 cr)
- THA 113 – Basic Performance I (2 cr)
- THA 131 – Production and Design I: Stagecraft (2 cr)
- Twelve credits in additional courses in Theatre from the following list, at least two (6 cr) must be at the 300 or 400 level:
 - THA 114 – Basic Performance II (2 cr)
 - THA 132 – Production and Design II: Lighting (2 cr)
 - THA 231 – Basic Stage Management (3 cr)
 - THA 235 – Acting I: The Fundamentals of Truth (2 cr)
 - THA 331 – Production and Design III: Costume and Make-up for the Stage (2 cr)
 - THA 341 – Theatre History and Literature II: Shakespeare to Ibsen (3 cr)
 - THA 342 – Theatre History and Literature III: Modern and Contemporary Drama (3 cr)
 - THA 361 – Musical Theatre Performance I: Fundamentals of Acting in Musical Theatre (2 cr)

E

Course Descriptions

COURSE DESCRIPTIONS

The following list describes the courses taught at Dean College. Not every course listed is taught every semester or every year. The College reserves the right not to offer any course for which there is not a sufficient number of students enrolled.

If a course has a corequisite (courses that must be taken simultaneously) or a prerequisite, that requirement is listed in the course description. The course description lists any applicable course fees as well.

The number to the right indicates credits earned.

Note: The courses included are for the requirements listed in this catalog. Previous year's catalogs are available via dean.edu.

***Denotes Core Distribution Courses.**

The complete lists of the All-College Core Electives, Dean Career Advantage Experience Courses and Liberal Arts Electives are provided on [pages 198-202](#).

F Accounting

ACCT 103 Financial Accounting 3

An introduction to the fundamental principles and basic concepts of financial accounting. Emphasis is placed on understanding financial statements used by corporations. Concepts to be studied include transaction analysis, accounts receivable, inventory, long-lived assets, revenue recognition, long-term liabilities, and stockholders' equity. The course stresses the use of financial statement information in business decisions. *Offered every semester.*

ACCT 200 Managerial Accounting 3

An introduction to the managerial applications of accounting information emphasizes volume-cost-profit analysis, budgeting and control, performance and evaluation. Course objectives are to develop the analytical and quantitative skills necessary in making sound business decisions. Prerequisite: ACCT 103. *Offered every semester.*

Art

ART 101 Introduction to Visual Art 3

An introduction to ways of seeing and discussing art from around the world, including examples of painting, sculpture, prints, photography, architecture and other historical and contemporary media. This course is designed to help students develop an understanding of the form and expression of works of art. Field trips: \$50. *Offered every semester.*

ART 102 Survey of Studio Art 3

This course will present students with a general hands-on overview of a variety of media used in creating art. Basic introductions to drawing, painting, printmaking, photography and sculpture will provide students with the opportunity to enhance their personal artistic and sculptural development. This hands-on class will encourage students to explore and experience the

world of creating visual arts. Course fee: \$50. *Offered every fall semester.*

ART 150* Museums of New England: A Kaleidoscope of the World 3

This course is an interdisciplinary study and review of the museums of New England, including diverse areas such as art, history, architecture, music and science. The course objectives are to expose and encourage an appreciation in a wide field of disciplines as viewed through the museums/collections available in the area. Examples of museums are the Peabody-Essex Museum, Harvard Museum of Natural History, Isabella Stewart Gardner Museum, New Bedford Whaling Museum and Boston Museum of Science. Field trips: \$30. Prerequisite: ENG 111 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

ART 230 Basic Drawing 3

This course develops the basic skills and techniques of drawing, and introduces materials and concepts such as composition, proportion tone, space, and perspective as applied to still life, landscape and the figure. Materials fee: \$35. Prerequisite: ART 102. *Offered every spring semester.*

Arts and Entertainment Management

AMGT 111 Introduction to Arts and Entertainment Management 3

This course functions as an introduction to the artistic and managerial business basics within the context of the arts and entertainment industry. Students will explore a wide range of for-profit and not-for-profit business models, management styles and career opportunities in the arts and entertainment world. Additional topics will include the history of the arts and entertainment industry, trend analysis, different management and leadership roles, artistic and business plans in the

live event field and impact on local and regional communities as well as the role arts and entertainment can play in community development and economic growth. Course fee: \$40. *Offered every fall semester.*

AMGT 112 Theatre, Dance and Performing Arts Management 3

This course explores the not-for-profit performing arts industry, including theatre, dance, classical music, opera and other forms from the perspective of being the senior manager of these organizations. Topics include artistic and programming techniques, board management, fiscal management and budgeting, basic facility requirements, marketing and fundraising as well as current trends in arts participation and the role of technology in the arts. At the conclusion of this course, students will be able to design and implement a preliminary plan for personal and professional success. Prerequisite: AMGT 111 or permission of the Dean of the School of the Arts. Course fee: \$40. *Offered every spring semester.*

AMGT 202 Theme Park Management 3

This course offers students a history and overview of the theme park industry with an examination of current issues, including crowd control, consumer marketing, handicap access, safety issues and customer service. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions. A final project will include students designing their own theme park based on knowledge learned throughout the semester. This course is cross-listed with BUS 202. Prerequisite: AMGT 112, BUS 123 or permission of the instructor. *Offered every other spring semester.*

AMGT 203 Venue and Facility Management 3

This course focuses on the skills, procedures and systems necessary to plan, develop, operate and maintain an arts, entertainment or live event facility. Students will explore the management issues that arise in the daily operations of a facility as well as the unique distinctions between leasing/renting a facility and owning/operating a venue. This course introduces students to the human, physical and financial demands of facility management and the manager's role in maintaining the venue(s) for maximum safety, comfort and profitability. Prerequisite: AMGT 112 or permission of the Dean of the School of the Arts. *Offered every fall semester.*

AMGT 210 Presenting Performing Arts and Touring 3

This course will examine the art and skill of performing arts presenting and touring entities including for-profit and not-for-profit presenting organizations, performing arts centers, university/college presenters, theatre and dance companies, classical and popular music, festivals, variety artists and more. Topics covered will include starting and developing a new performing arts organization including mission/vision statements, capital funding, marketing and fundraising techniques, the curatorial process and programming, working with unions, educational programming and community

outreach. Prerequisite: AMGT 112, THA 101 or DAN 111 or permission of the Dean of the School of the Arts. *Offered every spring semester.*

AMGT 212 Theme Park Management Experience 3

Students registered for the experiential class of Theme Park Management will participate in a six-day experiential learning trip to Walt Disney World and Universal Studios in Orlando, Florida. The on-site experience will include training sessions with Disney staff, Universal staff and field experience during "back-stage" tours and group projects at the various parks. This course is cross-listed with BUS 212. Course fee: Approximately \$3,300. Corequisite: AMGT 202 or BUS 202. Prerequisite: AMGT 112 or BUS 123 and AMGT/BUS 202 or permission of the instructor. *Offered every other spring semester.*

AMGT 220 The Business of the Biz 1

This course serves as a primer focused on the preparation and transition from student to professional artist/manager. Specific focus is given to the branding of the individual – the mindset and practices from those of a student to that of an industry professional – and developing an action plan for their coming years. Topic areas include best practices for the industry, analog and digital personal marketing, professional practices and business structures, such as unions, agencies, arts and entertainment-related organizations and more. Students will also focus on personal and business finances, as well as taxes, contracts, negotiations, representation, and getting the job. Prerequisite: AMGT 112 or permission of the Dean of the School of the Arts. *Offered every spring semester.*

AMGT 230 Safety and Security for Live Arts/Entertainment 3

An in-depth exploration and analysis of security and safety aspects for the production and presentation of live events in the Arts and Entertainment industries. Throughout the course, students will discuss, analyze, research and assess best practice models and policies for security and safety in a variety of live event environments. Students will engage in research individually and as a group on the process of establishing and setting up security and safety protocols including risk assessment, management and mitigation; physical and observational security, safety and security scenario trainings; crowd control and traffic flows; developing safety manuals; developing emergency event guidelines/procedure/training; safety protection for employees; weather preparedness for outdoor events and environmental situations; food/beverage/waste management policies; and more. Prerequisite: AMGT 112, AMGT 203, or permission of the Dean of the School of the Arts. *Offered every other spring semester.*

AMGT 305 Principles and Foundations of Not-for-Profit Fundraising 3

This course includes the study of psychological and sociological aspects of fundraising with an emphasis on the practical application of and techniques used

for successful fundraising. Areas of study will include development/setting of fundraising targets, practical research and data management, creation and implementation of a fundraising plan, including different styles of funding campaigns, donation management, and earned income generation including individual, corporate, foundation and government funding. The class will also focus on basic tax and legal issues related to fundraising, including NFP incorporation, IRS tax status, report requirements and legal/ethical matters related to donations, grants, sponsorships and capital campaigns. Prerequisite: AMGT 112 or SMGT 172, Junior standing or permission of the Dean of the School of the Arts. *Offered every spring semester.*

AMGT 317 Arts and Entertainment Law 3

This course offers an overview of the types of agreements and contracts prevalent in the arts and entertainment industry and their implementation and management. Special attention will be focused on basic contract theory and practical implementation, copyright, unions, royalty agreements, trademark law, understanding collective bargaining agreements, and current issues surrounding online entertainment. Prerequisite: AMGT 112 or permission of the Dean of the School of the Arts. *Offered every fall semester.*

AMGT 319 Marketing for Arts/Entertainment and Live Events 3

Students will apply fundamental marketing and promotion concepts to the arts/entertainment, sports and live event industry from a real-world perspective. Utilizing these theories and best practices, students will identify the consumer/production markets and develop appropriate marketing and promotion plans. Additionally, students will use research to justify and present market segmentation, target selection, product positioning and buyer behavior patterns for multiple real-world assignments. The class will explore new and enhanced platforms for marketing, including social media, mobile marketing and technology-based marketing. Prerequisite: BUS 235 or permission of the Dean of the School of the Arts. *Offered every fall semester.*

AMGT 325 Live Event Planning and Management 3

This class will focus on the principles and foundations of event planning and management. During the semester, the class will explore event concept development and planning, site selection, budgeting and fiscal management, marketing and promotion, sponsorship, ticketing and more. Additionally, current trends and successful business practices in event management will be covered throughout the semester. Students will work in conjunction with the Theatre and Dance programs to produce/present a performing arts event at the end of the semester and present a final portfolio with all of the documents and materials related to the event, including event plans, timelines, work breakdowns, marketing/promotion and event reports. Prerequisite: AMGT 112 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis.*

AMGT 402 Senior Project 3

This course addresses the practical application of skills needed for success in pursuing a variety of careers in the field of Arts and Entertainment Management. This course culminates in a substantive capstone project that exemplifies the student's progress in their chosen area, while also demonstrating relevance to the student's future endeavors in the field. Prerequisite: DCA 350 and Senior standing in the AMGT program or permission of the Dean of the School of the Arts. Course fee: \$450. *Offered every fall semester.*

AMGT 405 Leading the Organization 3

Senior year is when the concepts of leadership come into play. Students will be encouraged to take initiatives and shape their skills in preparation for what's next in their careers within the Arts and Entertainment field. Topics to be covered include leadership theories, conflict management techniques and leadership skills. Because the best leaders are those who know themselves, time will also be spent increasing the students' self-awareness of personality and leadership traits. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts. *Offered every spring semester.*

AMGT 460 Producing for Broadway and Regional Theatre 3

An in-depth exploration and analysis of the business aspects of producing Broadway, commercial theatre, and not-for-profit regional theatre, as well as new and emerging theatre companies. Through discussion, research, analysis and assessment of models for producing in a variety of entertainment environments, students will engage individually and in groups with the process of producing, including product acquisition and selection, raising capital and investment techniques, securing and scheduling venues, artistic and production team management and more. Prerequisite: AMGT 112, Junior or Senior standing or permission of the Dean of the School of the Arts. *Offered every fall semester.*

Biology

BIO 151 General Biology – The Cell 4

An introduction to molecular biology, cell structure and function, cellular respiration, photosynthesis and genetics. The course begins with an introduction to the basic chemical principles necessary to understand their applications to the biological topics covered. Emphasis is given particularly to topics related to current health, nutrition, genetics and biotechnology. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$75. *Offered every fall semester. This course fulfills the Core Lab Science requirement.*

BIO 152 General Biology – Organisms 4

Covers such topics as theories of the origin of life and evolution, reproduction, behavior, natural history, food-borne and infectious disease organisms, ecology and classification of organisms. Students will participate in

a major dissection as part of the required laboratory sessions. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$75. *Offered every spring semester. This course fulfills the Core Lab Science requirement.*

BIO 160* The Science of Human-Wildlife Interactions: Coyotes in My Backyard **3**

News reports of coyotes, bears, fisher cats and other wild animals in our backyards are becoming more common. How should we react? This course will explore the history of human interactions with wildlife in New England. We will consider the ecology and patterns of human settlement in the area and efforts made to control local wildlife. A major question considered will be, "What are the rights of wildlife versus the rights of humans?" Current scientific research such as the radio-collaring of coyotes in the Boston area will help us understand the activities of these wild animals in our backyards and ways that we can live together. Prerequisite: ENG 111 and Core Mathematics requirement or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 165* The Science of TV Crime Scene Investigations **3**

Can you really catch a criminal in 24 hours? This course will challenge the methods and assumptions presented in crime shows from an objective and systematic scientific perspective. To form an educated opinion on the validity of the science presented in these shows, students must build a solid foundation in medical biology and forensics. In-class activities will provide students with hands-on experience using forensic techniques. This is designed as a lab-based course recommended for Criminal Justice, Communications, and Science majors. Prerequisite: ENG 111 and Core Mathematics requirement or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 167* Musculoskeletal Anatomy **3**

This course includes the study of the human body and its parts with emphasis on the bones, muscles, joints and tissues involved in basic movement patterns. Strongly recommended for students who intend to pursue personal trainer certification, take upper-level anatomy courses, or who want to better understand the movement of the human body. Prerequisite: ENG 111 or concurrent enrollment in ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 168* The Science of Food: What Are You Eating? **3**

Trillions of microorganisms live in your gut without which you could not survive. Cheese, yogurt, beer and bread: What do they all have in common? This course will provide an interactive forum to discuss the science

involved in the food we produce and eat. Topics may include the following: a brief review of human nutrition, a description and discussion of food organisms in modern diets, chemical reactions involved in food preparation and the environmental impact of dietary choices. Prerequisite: ENG 111 and Core Mathematics requirement or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 171 Human Anatomy and Physiology I **4**

This course is a study of the structure and function of the human body with emphasis on the integumentary, skeletal, muscular and nervous systems. Through the use of clinical examples and case studies, students will be immersed in the study of the complexity and interrelatedness of the human body. Laboratory exercises include some anatomical dissection. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$75. *Offered every semester. This course fulfills the Core Lab Science requirement.*

BIO 172 Human Anatomy and Physiology II **4**

This course covers the endocrine, digestive, respiratory, circulatory, immune, excretory and reproductive systems of the human body. Laboratory exercises include anatomical dissection. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$90. Prerequisite: "C-" or better in BIO 171 or permission of the Dean of the School of Liberal Arts. *Offered every semester.*

BIO 175 Anatomy Essentials **4**

A one-semester study of the structure and function of the human body with emphasis on the integumentary, musculoskeletal, nervous, cardiovascular, respiratory and digestive systems. Discussions will emphasize the correlations between the optimal functioning of these systems and physical performance. This course is required for Dance majors and recommended for students interested in the study of anatomy and physiology. This course does not satisfy the anatomy requirement for Health Sciences, Pre-Nursing, Pre-Athletic Training, or Exercise Science majors. This course may not be substituted for BIO 171 or BIO 172. Laboratory exercises include some anatomical dissection. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$75. *Offered every fall semester. This course fulfills the Core Lab Science requirement.*

BIO 176* Genetics and You **3**

This course is intended to give students basic exposure to some of the current topics of scientific interest and contemporary relevance in human genetics. After establishing a foundation in genetic principles, the content of this course will range from concepts, such as genetics and race/ethnicity and gender; issues of predictive genetic testing; DNA-based forensics to identify specific individuals; human cloning for reproductive and therapeutic purposes;

and current medical genetics cases. Readings will be from the scientific, medical literature, and news reports. Prerequisite: ENG 111 and Core Mathematics requirement or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 180 Human Biology 4

Students will explore the basic science of human biology. Students will have the opportunity to understand how the human body responds to external influences of diet, physical activity, infectious pathogens, alcohol, drugs and stress through the reading and evaluation of basic research studies. Laboratory activities will augment lecture topics and will culminate in the completion of a capstone project involving the design, implementation and evaluation of a personal fitness program. (Students in the Biology, Exercise Science, Health Sciences, Pre-Nursing, Pre-Athletic Training, and Science majors may take this course as an elective. This course does not substitute for any of the required lab sciences in those majors.) Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Lab fee: \$75. *Offered every semester. This course fulfills the Core Lab Science requirement.*

BIO 211 Microbiology 4

This course introduces the principles of general bacteriology, morphology, physiology and bacterial relationships in nature. Students gain experience in laboratory methods for the cultivation of bacteria and their destruction as well as for general laboratory procedures. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Prerequisite: A grade of "B-" or better in BIO 151 or BIO 171 or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every fall semester.*

BIO 224* Pathophysiology: Pain and Suffering 3

This course provides the student with knowledge of the basic mechanisms involved in human disease processes. Topics include processes of diseases and disorders, such as inflammation, infection, cancer, aging, genetic disorders, immune deficiency, and autoimmune disorders. Stress and substance abuse-related disorders will also be discussed. Healthy People 2020 initiatives will be used to explore the causes of common health care problems and programs to improve the health of our population. Students interested in pursuing careers in healthcare, public health or health education will gain insights into the fundamental concepts germane to human diseases. Prerequisite: ENG 111; MTH 150 or MTH 240; and a "B-" or better in BIO 171 and BIO 172 or BIO 175 or BIO 180, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 240 Cellular and Molecular Biology 4

This course is designed to introduce students in the Biology and Health Science majors to the dynamic relationships between cellular structures and processes

and their molecular mechanisms. A foundation in cellular structure and function will be used to explore advanced cellular processes, such as cell signaling between and within a cell, cell movement, division, differentiation and specialization and both apoptotic and necrotic cell death. Laboratories will focus on exercises that will help illustrate cellular phenomena, as well as an introduction of techniques and procedures commonly utilized in modern cellular and molecular research. The development of critical thinking processes and proficiency in scientific reading and writing will be emphasized throughout the course. Lecture and lab meet separately during the week. Prerequisite: A grade of "B-" or better in BIO 151, BIO 171 or BIO 180 or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every spring semester.*

BIO 250* Beyond Henrietta Lacks: Race and Medicine in 20th Century America 4

In 1951, Henrietta Lacks, a young African American woman from Baltimore died of cervical cancer. Tumor cells were taken from Lacks without her knowledge or consent. These cells, now known as HeLa cells, were the first immortal cell line grown in a laboratory, and they continue to contribute to medical discoveries today. This course explores the intersection of the history of medicine with social history in America, focusing particularly on the category of race. We will use a historical lens to discuss broader ethical questions about race and medicine, for example, access to medical care and the use of human subjects in medical research. In the lab, students will have the hands-on opportunity to investigate the connections between cell biology, modern medicine, and social and ethical questions. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. This course is cross-listed with HIS 250. Prerequisites: ENG 111, Core Mathematics requirement, and BIO 171, BIO 175 or BIO 180; or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

BIO 320 Evolution 3

Evolution is one of the most fundamental concepts in modern biology; studying evolution informs our understanding of current practices from molecular genetics to antibiotic resistance. This course will explore the historical context within which evolution by natural selection became accepted and continue into our modern understanding of the mechanisms and factors that have led to and continue to shape the diversity of life on this planet. Topics will include evolutionary genetics, adaptation, macroevolution, units of selection, and mechanism of speciation. Current topics explored may include genomics, genomics in the prokaryotic world and eukaryotic endosymbiosis and viral evolution. While this course is designed for Biology majors, it is open to all upper-division students with a strong foundation and curiosity. Prerequisite: BIO 151 or a "B-" or better in BIO 180 or BIO 171 or BIO 175 or the permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

BIO 330 Molecular Genetics**3**

Genetics is both the foundation for evolution and adaptation and the lens through which we view our unique human profiles. Understanding genetics at the molecular level allows us to explore topics related to human health and medicine as well as lay the foundations for many fields in the life sciences. Foundations built in this course include the molecular basis for heredity, cell division and chromosome heredity, inheritance patterns, genetic linkage, genetic mapping, and DNA structure, replication and uses. These foundations will be used to explore topics such as the human genome project, genetic testing and genetic counseling, cancer genetics, genomics, epigenetics and personalized medicine. While this course is designed for Biology majors, it is open to all upper-division students with a strong foundation and curiosity. Prerequisite: BIO 151 or a "B-" or better in BIO 180 or BIO 171 or BIO 175 or the permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

BIO 387 Applied Kinesiology**4**

This course will analyze human movements. In looking at the relationship between anatomical structure and function, the course explores the human body and how it performs by studying anatomy, body mechanics and physiology. Discussion will include common injuries associated with human movement, prevention of injuries, conditioning, movement behaviors, somatics and efficiency of motion. Students must be concurrently enrolled in a weekly laboratory session. Prerequisite: BIO 171 or BIO 175 with a minimum grade of "B-", junior standing or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

BIO 430 Immunology**3**

This course is designed to provide biology students with an understanding of basic immunology. This course will explore the properties of the immune system beginning with how the human body recognizes and responds specifically to foreign substances. The molecular and cellular basis of immunity will be emphasized. The roles of antigens, antibodies and immunocompetent cells in pathogenesis and immunity to infectious diseases will be covered. Specific topics may include antigens and antigenic determinants, antigen-antibody reactions, antibody structure and formation, cellular immune responses, the complement system, phagocytosis, monoclonal antibody formation, immunogenetics and the histocompatibility antigens. Diseases of the immune system including tolerance, inflammation, allergies and hypersensitivity reactions may be explored. Finally, the applications of immunology in the design of vaccines, immunotherapeutics, immunodiagnostics, and organ transplantation will be discussed as will the use of immunology in biological research. Prerequisite: A grade of "B-" or better in BIO 240 and BIO 211, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

BIO 440 Advanced Cellular and Molecular Biology**4**

This course is designed to provide students the opportunity to explore in depth the issues being addressed in cellular and molecular research, research that serves as the foundation for biomedical research and the biotechnology industry and that deepens our understanding of how eukaryotic cells function in health and disease states. By focusing on the questions and challenges being addressed in today's research labs, students will deepen their understanding of the cellular basis for biological processes and the tools and techniques being used to explore these topics. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. Prerequisite: A grade of "B-" or better in BIO 240 or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every fall semester.*

BIO 495 Senior Capstone**3**

The purpose of the capstone is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty of the Liberal Arts bachelor's degree programs. Prerequisite: Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

F**Business****BUS 123 Foundations of Business****3**

Students are introduced to the role of business in our society and become familiar with the forms of business ownership, organizational structure, management styles, management functions, financial management and labor relations. *Offered every semester.*

BUS 150 Personal Finance**3**

This highly interactive course will combine theory and practical application in giving students the knowledge and general understanding of key aspects of personal finance. Students will have the opportunity to learn how to make informed financial decisions related to budgeting, banking, credit, insurance, and taxes using an analytical framework. *Offered every semester. This course fulfills the Core Mathematics requirement.*

BUS 202 Theme Park Management**3**

This course offers students a history and overview of the theme park industry with an examination of current issues, including crowd control, consumer marketing, handicap access, safety issues and customer service. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions. A final project will include students designing their own theme park

based on knowledge learned throughout the semester. This course is cross-listed with AMGT 202. Prerequisite: AMGT 112, BUS 123 or permission of the instructor. *Offered every other spring semester.*

BUS 212 Theme Park Management Experience 3

Students registered for the experiential class of Theme Park Management will participate in a five-day experiential learning trip to Walt Disney World and Universal Studios in Orlando, Florida. The on-site experience will include training sessions with Disney staff and field experience during "back-stage" tours and group projects at the various parks. This course is cross-listed with AMGT 212. Course fee: Approximately \$3,300. Corequisite: AMGT 202 or BUS 202. Prerequisite: AMGT 112 or BUS 123 and AMGT/BUS 202, or permission of the instructor. *Offered every other spring semester.*

BUS 218 Principles of Advertising 3

F Principles of advertising and its purpose in business. This course provides an overview of the objectives of advertising and various methods used, including traditional tactics and emerging trends. Examines the steps to developing an advertising campaign, the media used including social media, and the operations. *Offered on an as-needed basis.*

BUS 230 Principles of Management 3

Students will be made aware of the importance of management in business today. Through their readings and assignments, students will learn the value of planning. Students will gain an understanding of corporate cultures, organizational structures, and the importance of using the right measures in evaluating the performance of an organization. Finally, the student will gain an understanding of leadership and its importance in contemporary businesses. Prerequisite: BUS 123, AMGT 111 or SMT 172 or permission of the Dean of the School of Business. *Offered every semester.*

BUS 235 Principles of Marketing 3

A basic study of the distribution of goods and services is developed in detail. Marketing institutions and their processes in retail and wholesale distribution are considered along with a study of pricing policies and governmental controls. The decision-making process is illustrated by the use of case studies. Prerequisite: BUS 123, AMGT 111 or SMT 172 or permission of the Dean of the School of Business. *Offered every semester.*

BUS 240 Human Resource Management 3

This course is based on the concept of the service-profit chain, which shows a direct correlation between loyal customers and loyal employees. The course explores the human resource function in an organizational setting. Topics covered will include the selection process, organizational culture, employment law, compensation, professional development and labor unions. *Offered every fall semester.*

BUS 245 The Diverse Workforce 3

This course concentrates on the multiple effects of the changing demographics, technology, globalization

and the diversity of our new workforce. There will be particular emphasis on the skills required to effectively manage this new diverse workforce. *Offered on an as-needed basis.*

BUS 314 Marketing Analytics 3

This course will discuss the growing importance of marketing analytics in today's businesses. Students will learn some of the best approaches to measuring and analyzing the market. Various tools will be introduced so that students will be able to implement and utilize them upon completion of the course as they examine a company's ROI, identify trends, and understand sales performance. *Offered every spring semester.*

BUS 315 Legal Issues in Human Resources 3

This course examines the laws and regulations affecting the American labor force. It also examines the basic employment concerns from the perspective of both the employer and employee. Issues such as health and safety, opportunity, hours of work and minimum wage are covered. Current court rulings and cases are studied as they relate to individuals and firms in the workforce setting. *Offered on an as-needed basis.*

BUS 317 Staffing and Recruitment 3

This course covers the fundamentals of recruitment, selection and placement techniques. This includes topics such as employee testing, drug testing, handwriting analysis and interviewing. *Offered on an as-needed basis.*

BUS 321 Entrepreneurship 3

This course examines the nature of entrepreneurship and the role of entrepreneurship in society. It investigates the entrepreneurial process in a variety of contexts. The course explores a variety of issues surrounding new venture creation, including the business plan, the economics of the business, determining resource needs and acquiring resources, marketing requirements, deal structure, technology issues and ethical issues among others. Prerequisite: BUS 123 or permission of the Dean of the School of Business. *Offered every fall semester.*

BUS 325 Principles of Finance and Budgeting 3

This course provides an understanding of the finance function and the responsibility of a financial manager in both for-profit and not-for-profit organizations. Students develop the tools and concepts necessary for effective financial decision making and problem solving. Topics such as financial ratio analysis, cash flow, asset management, budgeting and cost of capital are covered. Prerequisite: ACCT 103 and AMGT 111 or BUS 123. *Offered every spring semester.*

BUS 337 Organizational Behavior 3

The purpose of this course is to examine human behavior in organizations at the individual and group levels including the effect of organizational structure on behavior. Specific attention will be placed on the use of organizational behavior concepts for developing and improving interpersonal skills. Prerequisite: an

introductory course in the discipline (SOC 113, BUS 123, or PSY 111) and junior standing, or permission of the Dean of the School of Business. *Offered every fall semester.*

BUS 341 Data Analysis and Decision Making 3

This course familiarizes students with the basic concepts of business statistics and decision making and provides a comprehensive overview of its scope and limitations. Students perform statistical analyses of samples, compute the measures of location and dispersion, and interpret these measures for descriptive statistics. Other sections review linear regression, multiple regression and correlation analysis, as well as model building, model diagnosis and time series regression using various models. After a review of the basic concepts of probability, students apply discrete and continuous distributions of probability. Other topics include constructing a hypothesis on one and two samples, performing one-way and two-way analyses of variance, and applying nonparametric methods of statistical analysis. Prerequisite: ECO 150 or ECO 111 and ECO 112; and Core Mathematics requirement; or permission of the Dean of the School of Business. *Offered every fall semester.*

BUS 344 Operations Management 3

This course introduces the student to operating practices and models in the manufacturing and service fields. Topics include planning the size and scope of a production process and purchasing and accounting for raw materials as well as the production process flow, quality management and the technology utilized in managing all operations. Students will examine workforce issues, productivity and areas that relate to the service industry. Finally, students will learn the importance of project planning and its impact on all industries. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Business. *Offered every fall semester.*

BUS 346 Negotiations 3

This course develops student conflict management skills. Through lectures and interactive exercises, students learn how to achieve desired outcomes. By exposure to consumer behavior theory as well as the study of interpersonal relationship theory, course participants learn how to arrive at “win-win” solutions. Students will learn that everything is negotiable and what techniques work best depending upon the setting. The course will be taught by experienced practitioners who have been very successful in conducting successful negotiations in their careers. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Business. *Offered every spring semester.*

BUS 350 Sales and Relationship Management 3

Every business involves selling. This course focuses on the elements of the sales process beginning with building a relationship with the buyer and continuing to develop the relationship in order to retain the customer. Involving theory and practical application, the course will

introduce the place of sales in business and in personal promotion. Participants also discuss how to identify customer needs and develop solutions to meet and exceed these needs. *Offered on an as-needed basis.*

BUS 353 E-Commerce 3

e-Commerce is buying, selling and conducting any kind of business online. This course will include learning about the technology (platforms, systems, etc.) implemented in this way of doing business and will also examine social media, search engine optimization, and influencer marketing employed by various organizations. The major e-commerce companies will be considered. The course will also review the skills necessary for success in the e-commerce arena, including digital marketing, accounting, finance, strategy, and analytics. *Offered on an as-needed basis.*

BUS 405 Leading the Organization 3

The management function of leadership is defined as influencing others to achieve organizational goals. This course will focus on this topic on theoretical and practical levels. Topics to be covered include leadership theories, conflict management techniques and leadership skills. Because the best leaders are those who know themselves, time will be spent on increasing the students’ self-awareness of personality and leadership traits. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Business. *Offered every spring semester.*

BUS 417 Benefits and Compensation 3

This course explores every aspect of a variety of benefit and compensation packages. Specific emphasis will be placed on retirement pension plans, and disability and group insurance, as well as training and employment services. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Business. *Offered on an as-needed basis.*

BUS 495 Business Policy and Strategic Management 3

In this course, students study the functions and responsibilities of senior management as they lead an entire organization — establishing and updating its mission and goals and designing and implementing the strategies to achieve this mission in light of a continuously changing environment. In order to fulfill their role, effective senior managers must understand the organization in its entirety — each functional area as well as the interactions among those areas. As a result, while prior courses have focused on a single functional area of business (for example, marketing, economics, finance, accounting, management), this senior capstone course will integrate the knowledge from all these courses in order to focus on the total business situation from the perspective of senior managers. During the course, students will analyze business problems in order to develop strategic plans to effectively lead and manage organizations and improve organizational performance. Students will be assigned to teams, each of which will be required to develop a business plan for a new or existing business. Students complete this course in their

senior year. Prerequisite: Senior standing or permission of the Dean of the School of Business. *Offered every fall semester.*

Chemistry

CHM 145 Chemistry for Healthcare Professions 4

This course is a one-semester introduction to principles of general, organic, and biological chemistry encountered in health science and allied health fields. Topics include: atomic theory, molecules and ions, the mole concept, solutions, chemical reactions, equilibrium, acids and bases, radioactivity, organic nomenclature, functional groups and their properties and reactions, and biologically important molecules and their roles in the human body. Lecture and laboratory meet separately each week. The laboratory emphasizes basic techniques in quantitative and qualitative analysis. Prerequisite: A grade of "B" or better in MTH 150, or a grade of "C-" or better in MTH 151 or placement above MTH 151, or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every spring semester. This course fulfills the Core Lab Science requirement.*

CHM 151 General Chemistry I 4

An introduction to the fundamental principles of chemistry. The nature and types of chemical reactions and the mass and energy relationships accompanying chemical changes will be emphasized. Lecture and laboratory meet separately each week. The laboratory emphasizes basic techniques in quantitative and qualitative analysis. Prerequisite: A grade of "B" or better in MTH 150, or a grade of "C-" or better in MTH 151 or placement above MTH 151, or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every fall semester. This course fulfills the Core Lab Science requirement.*

CHM 152 General Chemistry II 4

Equilibrium, kinetics and electrochemistry are the primary focus of this course. Lecture and laboratory meet separately each week. The laboratory emphasizes basic techniques in quantitative and qualitative analysis. Prerequisite: CHM 151 or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered every spring semester.*

CHM 345 Concepts in Organic Chemistry and Biochemistry for the Biological Sciences 3

This course serves to establish the chemical basis for cellular processes using the vocabulary and perspective of both organic chemistry and biochemistry. Designed for Biology majors, this course will begin with the basic principles and definitions in organic chemistry and build to biological structures and interactions, biological reactions and biological equilibrium and thermodynamics. A foundation in aqueous chemistry, chemical reactions and their mechanisms will be built. Topics in organic chemistry may include acids and bases,

isomers, thermodynamics of binding and recognition and oxidation and reduction processes. Biochemistry topics will include the structure and function of biological molecules such as biopolymers, enzymes, kinetics, membranes, metabolism and metabolic pathways. Prerequisite: A grade of "C-" or better in CHM 151 and CHM 152, BIO 151 or BIO 171 or permission from the Dean of the School of Liberal Arts. *Offered every fall semester.*

Communications

COM 112 Dean Radio/Music and Entertainment 1-2

Students enrolled for 1 credit will learn the skills associated with becoming a broadcasting professional while working in WGAO-FM facilities. The class will stress digital equipment operations, FCC rules and regulations in association with an FM licensed broadcast facility, digital streaming, on-air preparation, announcing skills, public file requirements, and overall radio station operations. Students are expected to work a weekly shift at WGAO-FM. No prerequisite required. Students enrolled for 2 credits will serve as station directors or assistant directors in the areas of programming, music, promotion, production and training. Prerequisite: Instructor approval. This course may be repeated for credit. *Offered every semester.*

COM 115 Dean Radio/News and Sports 1-2

This course is for the student who is interested in a career in news, sports or public affairs programming. Broadcast skills in news and sportscasts, and sports or news talk shows will be stressed. No prerequisite required. Students enrolled in 2 credits will serve as station directors or assistant directors in the areas of news and sports. Prerequisite: Instructor approval. This course may be repeated for credit. *Offered every semester.*

COM 116 Dean TV 1-2

Students enrolled for 1 credit will have the opportunity to work as members of a production team streaming Dean College events. Production team members will develop skills including setup, breakdown, and operation of video production and editing equipment, while adhering to all safety procedures. All crew members will be involved with operating cameras and on some occasions will be requested to fulfill a related field production function. Additionally, students will assist with filming short-form, promotional, client-based video projects across the Dean College campus, and potentially for external audiences. This course meets once weekly. There are no prerequisites. Note: Students enrolled for 2 credits will be required to do additional streaming events and promotional client-based video projects. This course meets twice weekly. Prerequisite: COM 123 or Instructor approval. This course may be repeated for credit. *Offered every semester.*

COM 121 Introduction to Communications 3

An introduction to print, film, broadcast, social and emerging media. An examination of the history, organization, current influence and future trends, stressing the educational, cultural and influential powers exerted by the media. *Offered every semester.*

COM 122 Digital Audio Production I 3

This course is an introduction to the basics of audio for radio, television, multi-media and sound operation. Students will understand basic audio production techniques on a digital audio workstation utilizing multi-media production labs to fulfill assignment requirements. *Offered every semester.*

COM 123 Digital Video Production I 3

This course is designed to engage students with learning the principles of video production and working as a member of a production team while becoming immersed in the process of producing and directing video productions. Students will be given the opportunity to conceptualize, develop scripts, produce and direct their own productions in a group atmosphere. All students will be given the opportunity to participate as on-camera talent or cast on-camera talent for their projects. This will primarily be a practical hands-on course; however, the weekly required reading and class discussions will help form the theoretical basis needed to begin the process of creating meaningful and engaging productions. *Offered every semester.*

COM 124 Web Design and Social Media Production I 3

This course introduces the theory, technology and uses of digital, new and social media. In this hands-on course, students will learn the fundamentals of digital web design and social and mobile media by creating and maintaining their own websites and accompanying social media. In addition, students will learn how to engage the user through target marketing, ad words and search engine optimization. A laptop computer is required. *Offered every spring semester.*

COM 202 Integrated Marketing Communications 3

This course provides instruction in sales methods, audience measurement, demographics, advertising, promotions and public relations in traditional broadcast media, new media and social media. *Offered every fall semester.*

COM 211 Media Writing 3

This course focuses on the development of writing skills for radio, television, film and emerging media. Students will gain experience in writing commercials, public service announcements, script writing (fiction and documentary) and broadcast journalism. It is a writing-intensive course. *Offered every fall semester.*

COM 213 Media Concept Creation 3

Mass communication creators often find the most challenging part of the creative process comes in the

pursuit of matching creative ideas with achievable goals. The essence of this course is to develop concepts for various genres of film, television, and web programming that will engage their audience, and are ultimately attainable within the parameters of the production tools provided. Students will study how industry professionals go about their process of creating programs. Furthermore, students will engage in their own conceptualization process, including brainstorming and clustering exercises to flesh out engaging ideas for shows they wish to eventually produce. A series of treatments will form the ultimate goal for the course, and fuel future programs that they can develop scripts for, and in turn produce into programming, and that will become a portion of their portfolio. *Offered on an as-needed basis.*

COM 217 Sports and Entertainment Media 3

The purpose of this course is to provide a practical, real-world basis for sports, sports-as-entertainment and entertainment coverage in print, broadcast and online/digital media. Students will produce a range of stories in each media category; learn the basics of "beat" reporting; understand what it means to "do their homework" and how to compete for positions in a shrinking job market; deepen their overall knowledge of sports as it appeals to consumers of media, and learn how social media plays an important role in coverage. *Offered every spring semester.*

COM 223 Digital Video Production II 4

Using HD field equipment and Final Cut Pro digital editing software, students will further their study in digital storytelling for the traditional sectors of TV and film as well as for the growing online sectors, including social networking sites and websites. This course will focus on the technical and aesthetic aspects of producing, directing, budgeting and on-location shooting. Prerequisite: COM 123 or COM 125. *Offered every fall semester.*

COM 225 Digital Audio Production II 3

An intermediate study of digital audio production methods stressing in-studio production, use of audio principles for online delivery, podcasting and emerging media. Students will utilize digital multimedia laboratories and Pro Tools software to fulfill assignment requirements. Prerequisite: COM 122 or COM 125. *Offered on an as-needed basis.*

COM 252* Media, Conflict and Power 3

This course examines the way in which modern mass media have altered the dynamics of politics in the United States. It will also cover the ways the mass media influence how one thinks and acts in the political world. In addition, the course breaks down the role of the media in campaigns and elections, how the news influences our political attitudes and behaviors, and how media coverage of government influences policy makers. Prerequisite: ENG 111 or permission of the Instructor. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

COM 255* Sports and Media: Did You See the Game Last Night? 3

Students explore moral and ethical issues in sports as presented in the media. The development of a personal philosophy and an understanding of social responsibility in the sport management setting are specific goals of the course. Topics may include, but are not limited to, cheating, violence and intimidation, sports reporting, the role of media (tweeting, videos, reports) in sports decisions, winning and losing, sportsmanship, eligibility, performance-enhancing aids, scandals in sport, race and gender. Prerequisite: ENG 111 or permission of the Instructor. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

COM 305 Sports Reporting 3

This course is designed to allow interested students the opportunity to dig deeper into reporting stories within the sports world. Work will be produced within the print, broadcast and digital realm, along with acquiring journalistic techniques in the creation of their work. There will be a heavier emphasis on writing; “beat” reporting will be practiced; and there will be a continued deepening of knowledge of sports teams, topics and trends as they appeal to consumers of media, and understanding the principles of the competitive nature within the industry. Prerequisite: COM 217, and junior or senior standing or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 311 Media Sales and Advertising 3

This course provides instruction in sales methods, audience measurement, demographics, and promotion utilized in media sales. Broadcast media and digital media platforms will be examined. Prerequisite: Junior or senior standing, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 312 Advanced Dean Radio/Music and Entertainment: Producing and Directing 2

A continuation of COM 112. Prerequisite: COM 112, and Junior or senior standing. This course may be repeated for credit. *Offered every semester.*

COM 315 Advanced Dean Radio/News and Sports: Producing and Directing 2

A continuation of COM 115. Prerequisite: COM 115, and Junior or senior standing. This course may be repeated for credit. *Offered every semester.*

COM 327 Applied Professional Communication 3

In this course, students will examine and apply communication concepts, theories and skills that are critical to success in business and professional contexts. Students advance their knowledge and skills in interpersonal, group, organizational and public communication contexts. Topics studied include

culture, conflict, constructive criticism, decision making, interviewing, language, leadership, nonverbal communication, roles and relationships. Learning activities involve interviewing, researching, preparing presentations, and providing feedback to others. Prerequisite: Junior or senior standing, or permission of the Coordinator of the Oral Communication Program. *Offered every semester. Fulfills upper-division core requirement for all bachelor's programs.*

COM 332 Advanced Media Writing 3

This course focuses on the intermediate writing skills for radio, television, film and emerging media. Students will gain experience in script writing for television and film (fiction and documentary) as well as multimedia journalism. It is a writing-intensive course. Prerequisite: COM 211. *Offered on an as-needed basis.*

COM 335 Media Management 3

This course will examine management skills required in today's electronic media marketplace. Topics will include the basic management functions of planning, organizing, controlling and leading. In addition, broadcasting policies, practices, programming, staffing and sales interactions will be examined through case studies. Prerequisite: Junior or senior standing, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 341 Media Theory and Criticism 3

A study of the different theories and approaches utilized in media and their impact on society. Students will learn critical skills to examine media products and the messages embedded within them. Media bias and ideology will also be examined. Prerequisite: Junior or senior standing, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 343 Sports Play-by-Play 3

This course will teach students the basics within radio and television (including webstreams) announcing duties for what is known as “play-by-play.” PBP is the purest form of reporting that exists, as reporters/announcers are giving a blow-by-blow description of an event—what is happening—as it is occurring “live.” What words or phrases do you use? How do you change voice intonation? How do you portray excitement and energy to the audience? How do you talk for so long without stopping? All good questions and all skills that will be addressed through classroom and lab/live experiences. *Offered on an as-needed basis.*

COM 345 Talk Show Hosting 3

This course will help students learn to conduct talk programming for radio, television and the internet (podcasts). How do you engage in a topical debate? How do you research topics for discussion? Is it a good thing to be controversial with a “hot take,” or not? Emphasis will also be applied on production aspects (show planning, “teasing” the audience, research of topical information) of conducting (sports) talk radio/TV/web programming. Interviewing skills

will also be learned and emphasized. *Offered on an as-needed basis.*

COM 351 Advanced Audio Production 3

An advanced study of digital audio production methods stressing in-studio production, use of audio principles for online delivery, podcasting and emerging media. Students will utilize digital multimedia laboratories, WGAO radio and Pro Tools software to fulfill assignment requirements. The class will stress writing and producing on-air broadcasting, and multi-media audio themes. Prerequisite: COM 125 or COM 122, COM 225 or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 352 Advanced Social Media Production 3

Building on the work of the first two years, students develop and increase their skills in social and new media production. In this hands-on course, students will focus on writing and producing Internet work, with multi-media audio and video themes, using YouTube and other areas of social media. Students will also learn how to create a fully integrated social media campaign that increases search engine optimization. A laptop is required. Prerequisite: COM 124 or COM 218, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 353 Advanced Video Production 3

Building on the work of the first two years, students develop and increase their skills in video production by using Dean's Digital Studios as well as other venues. The class will stress writing and producing on-air broadcasting, creative and documentary filmmaking, and multimedia video themes, using digital cameras for Internet distribution (YouTube, for instance). Prerequisite: COM 123 or COM 125, COM 223 or permission of the Program Coordinator of Communications. *Offered every fall semester.*

COM 355 Advanced Dean TV: Producing and Directing 2

Students will serve as directors and will be assigned a production crew during streaming events and/or during the filming of promotional video projects. Students will have the opportunity to coordinate members of a production team during the streaming of Dean College events. Directors will develop skills including setup, breakdown, and operation of video production and editing equipment, while adhering to all safety procedures. All crew members will be involved with operating cameras and, on some occasions, will be requested to fulfill a related field production function. Additionally, students will assist with filming short-form, promotional, client-based projects across the Dean College campus, and potentially for external audiences. This course is a continuation of COM 116 and, as such, will meet during the same time as COM 116 once weekly as well as one additional weekly class meeting throughout the semester. Prerequisite: COM 116, COM 123 and COM 223, Junior or senior standing. This course may be repeated for credit. *Offered every semester.*

COM 363 Sports Analysis & Commentary 3

This course will teach students how to analyze a sport for broadcast and use descriptive words and phrases to both inform and entertain an audience. What is the difference between play-by-play (PBP) and commentary? PBP drives the bus with "what" is happening while commentary/analysis tells you "how" and "why" things happen or occur during the sport/game/event. Students will learn how to get in and out of conversations so as not to step on the action important to the audience and learn how to add to the enjoyment factor for the audience, not take away from it. Experience within the sport you are broadcasting is helpful but not mandatory — provided you know the rules of the game. *Offered on an as-needed basis.*

COM 385 History of Film 3

This course acquaints students with the evolution of the motion picture in history and the contexts of this evolution. Period films in both the documentary and the entertainment formats will be analyzed to demonstrate the reciprocal influences between film and culture. Prerequisite: Junior or senior standing, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 417 Media Law and Ethics 3

This course addresses the regulation and ethics of communications media, including newspapers, broadcast media, cable and the Internet. Topics include telecommunications regulation, defamation, rights of publicity, privacy, access to information and press freedom. Special attention will be given to intellectual property, cyber law, the law of e-commerce, Internet privacy, and media freedom and information. Approaches to ethical decision making and the application of it to modern media practices will be examined. Prerequisite: Junior or senior standing, or permission of the Program Coordinator of Communications. *Offered on an as-needed basis.*

COM 423 Sports Information 3

This course will teach students how to work with the media, and how to promote athletics and deal with the occasional crisis. Students will learn how to communicate messages about an organization or individual that may help shape an image or strengthen an idea or brand. Public relations (PR), in its ideal form, provides an audience with information and knowledge they may not be able to ordinarily obtain. This course will also explore the difference between what is real or fact and what is perceived by the audience as real or factual. Additionally, how is this promotion affected by today's social media constraints? *Offered on an as-needed basis.*

COM 495 Senior Capstone/Project 3

Communications majors will reflect, conceive, research, format, provide a protocol, and assess outcomes in a project that exhibits collective academic and artistic experiences over the previous seven semesters. This will be done under the supervision of a faculty member and

be presented as scheduled by the faculty member in the senior year. Prerequisite: Senior standing or permission of the Program Coordinator of Communications. *Offered every fall semester.*

Criminal Justice

CRM 110 Introduction to Criminal Justice 3

This course is designed to familiarize students with the history, theory, practice and philosophy of the criminal justice system. The emphasis is on acquainting students with the various components of the criminal justice system (law enforcement, courts and corrections) and their roles and functions in the criminal justice system and process. Through interactive lectures, class discussion, reflective writing assignments, film clip critiques and career exploration activities, students develop a solid foundation in the discipline. Knowledge acquired from this course will prepare the student for succeeding courses in the Criminal Justice program. *Offered every semester.*

CRM 205 Criminology: Theories of Crime 3

Why do some people commit crime? Why do some people become crime victims? This course explores the prominent theories used to answer these questions, identify how we measure crime, and explain criminal behavior and victimology. Biological, psychological, sociological and integrated theories of deviance, delinquency and criminality are compared and evaluated. Using case studies, students examine and discuss crime control policies that prevent, reduce or effectively respond to crime from the perspective of different crime theories. This course is cross-listed with SOC 205. Prerequisite or corequisite: SOC 113 or permission of the Dean of the School of Business. *Offered every spring semester.*

CRM 218 Law Enforcement and Society 3

This course will examine and assess the role of law enforcement in American society. Students will reflect on the responsibilities of law enforcement in our pluralistic and democratic society, and the need for law enforcement to respond to changes in American society, including the aging population, diversity, immigration and migration. Police discretion, values and culture, as well as relations with the communities they serve, will be explored in different historical, political and social contexts. Law enforcement accountability and ethics will be covered along with current issues in a post-9/11 era. Emerging strategies and trends will include discussion of technology and data-driven strategies and policing. Prerequisite: CRM 110 or permission of the Dean of Business. *Offered every spring semester.*

CRM 221 Criminal Law 3

A study of sources and principles of criminal law with emphasis on the general elements of crimes, criminal responsibility, general and specific intent crimes, and criminal defenses. Prerequisite: CRM 110 or permission of the Dean of the School of Business. *Offered on an as-needed basis.*

CRM 231 Courts and Criminal Procedure 3

The purposes, structure and functions of the state and federal criminal court systems will be investigated. The delicate balance between individual freedom and liberty on one hand, and public safety and public order on the other, will guide exploration of the role and responsibilities of criminal justice agencies — law enforcement, courts (defense attorneys, prosecutors and judges) and corrections — at the federal, state and local levels of government. Focus will be on the 4th, 5th, 6th, and 14th Amendment constitutional principles of due process and equal protection governing the process by which crimes are investigated, prosecuted, adjudicated and punished. Criminal procedure concepts will be actively applied in real-world cases involving stop, frisk, search and seizure, arrest, interrogation and identification. Prerequisite: CRM 110 or permission of the Dean of the School of Business. *Offered every fall semester.*

CRM 313 Corrections 3

Corrections are an integral part of the criminal justice system and process. Together with prisons and jails, community corrections — probation, parole and intermediate sanctions such as day reporting, electronic monitoring, and drug and other specialty court programs — perform a critically important role in crime control and public safety. Using lectures, class discussion and problem-based projects, students will examine the current challenges of corrections, as well as the sentencing policies most likely to yield the greatest gains in public safety, cost-effectiveness, offender rehabilitation, community re-entry and reduced recidivism. Throughout the semester, students will conduct mock hearings to understand the roles of the prosecutor, defense attorney, probation officer and judge in sentencing criminal offenders. Prerequisite: Junior or senior standing, CRM 110 or permission of the Dean of the School of Business. *Offered every spring semester.*

CRM 324 Juvenile Justice 3

This course provides an understanding of the causes and the consequences of juvenile delinquency. Students will explore purpose, organization and function of the juvenile justice system. Case studies will be used to understand juvenile offenders as individuals within and influenced by social structures such as gender, race/ethnicity, family, school and social class and to identify promising practices and crime control policies directed at delinquency prevention, intervention and treatment. This course is cross-listed with SOC 324. Prerequisite: Junior or senior standing. *Offered on an as-needed basis.*

CRM 452 Criminal Investigation 3

Advanced procedures involved in criminal investigations and preparation of cases for court presentation are examined, including crime scene search and recording, collection and preservation of physical evidence, scientific aids to criminal investigation, interviews and interrogation, follow-up investigation and case preparation. A cursory look into the aspects of major crimes, their elements and specialized investigatory

methods will be covered. Prerequisite: Junior or senior standing. *Offered on an as-needed basis.*

Cybersecurity

CRM CS 100 Introduction to Cybersecurity 3

This course provides an introduction to the world of cybersecurity, beginning with a discussion of how hackers operate, reviewing some of the more common hacker methods and reconnaissance activities. The course then introduces the different terminology, products, services and elements of cybersecurity, including both physical security threats and defenses. The course provides an introduction to security protocols and their role within a secure network infrastructure and provides an overview of a variety of security technologies such as firewalls, router security, virtual private networks (VPNs) and wireless security. The course also includes a discussion of security policies and protocols, giving the student an appreciation of the importance of security policy. The course also addresses current topics in cybersecurity such as the Internet, email, social media and Google hacking. *Offered on an as-needed basis.*

CRM CS 101 Computer System Fundamentals 3

This course provides an introduction to all aspects of computer security. It describes threats and types of attacks against computers to enable students to understand and analyze security requirements and define security policies. In the course we will discuss major models in computer security such as Bell-La Padula, Biba and Clark-Wilson, and compare their properties and roles in implementation. Security mechanisms and enforcement issues will be introduced and security features of major application systems will be discussed as practical examples. Other topics include cryptography, planning for security, risk management, security standards, law and ethics. *Offered on an as-needed basis.*

CRM CS 102 Cybersecurity Defense in Depth 3

This course examines the world of cybersecurity risks and defenses that pose significant threats to governments and businesses. This includes knowledge, skills and techniques to identify and address the many cybersecurity threats facing our world today. This course will provide a framework for current and future cybersecurity threats by first examining the history of cybersecurity and then applying lessons learned in the past to current cybersecurity risks and defenses. The course will attempt to predict future cybersecurity concerns and the necessary preparations needed to defend against them. The course also examines how IT security threats are constantly evolving and provides insight into cybersecurity defenses from business and government perspective using real-world scenarios to demonstrate actual cybersecurity threats and the strategies used to defend against those threats. *Offered on an as-needed basis.*

CRM CS 103 Large Scale Cyber Crime and Terrorism 3

This course examines cyber crime and terrorism in a global context and focuses on large-scale incidents that affect international security. The course emphasizes the evolution of cyber crime and terrorism within the context of globalization and the increasing complexity of cyber crime and international, nationless decentralized terror networks. The course discusses the relationship of cyber crime and uses of information technology that cultivate and sustain current international terror networks. The course will also cover emerging trends and potential threats such as electromagnetic pulse attacks (EMPs) and methods (and limitations) to confront large-scale cyber crime and terrorism such as advanced data mining techniques by the intelligence community and the use of fusion centers. *Offered on an as-needed basis.*

CRM CS 304 White Collar Crime 3

This course focuses on topics and issues in the area of white-collar crime as they relate to cybersecurity. It examines and contrasts the treatment of corporate and white-collar offenders by the criminal justice and regulatory justice systems. The course also explores the nature and scope of white-collar crimes, crime types, case studies and the etiology of offending. Prerequisite: Junior or senior standing. *Offered on an as-needed basis.*

CRM CS 405 Cybersecurity Investigations and Case Study 3

This course is a comprehensive analysis of the methods, tools and best practices for handling, responding to and investigating cybersecurity incidents and product vulnerabilities. Building a security incidence response team (IRT) and a product security team for security vulnerability handling are covered. Students review legal issues from a variety of national perspectives and consider practical aspects of coordination with other organizations. Prerequisite: Junior or senior standing. *Offered on an as-needed basis.*

Dance

Dance Technique Courses:

Students will be assigned to levels based on the School of Dance acceptance and placement auditions. Thereafter, students will be reassessed each semester to determine appropriate level placement.

All Dance technique courses are repeatable for credit. All technique classes are offered every semester as prescribed by course sequences or as-needed.

DAN 120 Dance Technique for Non-Majors 1

This course explores dance techniques for performers, dancers, actors and musical theatre actors. Its objective is to develop basic skills in dance and free the performer's physical and emotional expression through movement. Enrollment priority is given to students majoring in Theatre or Arts and Entertainment Management.

DAN 131	Dance Improvisation I	1	DAN 235	Pointe Variations	0.5
This course examines the practice of dance improvisation and its application in creation and performance. Through movement exploration, reading and discussions, students will become familiar with the process of spontaneous creation.			This course teaches excerpts from historical classical ballets. The student must be assessed at the intermediate/advanced level.		
DAN 132	Pilates	1	DAN 170	Modern Dance Foundations	1
This course will help students develop a clear understanding of healthy movement and initiation from the center. Use of opposition to elongate into space without losing the core connection and use of breath in order to move with balance of ease and control will be explored to gain a stronger, more balanced physique.			This course provides training in the basic skills of modern dance technique. The focus is on body integration (breath, spine and pelvis), locomotor skills, dynamic variety, and musicality.		
DAN 231	Dance Improvisation II	1	DAN 173	Modern I: Elements	1
This course is a continuation of DAN 131 and examines the practice of dance improvisation and its application in creation and performance at a deeper level. Through movement exploration, reading and discussions, students will continue to hone their skills related to the process of spontaneous creation. Prerequisite: DAN 204.			This course provides training in the basic skills of modern dance technique. The focus is on body awareness and connectivity, which promotes a greater range of efficient movement possibilities and dynamics. Prerequisite: DAN 170 or advanced placement.		
DAN 150	Ballet Foundations	1	DAN 271	Modern II: Limón/Humphrey	0.5-3
This course provides training in the basic skills of ballet technique, including barre and centre work, with an emphasis on physical alignment, as well as the acquisition of movement vocabulary and terminology.			This course provides training in the intermediate skills of the Limón and Humphrey techniques. Prerequisite: DAN 173 or advanced placement.		
DAN 151	Ballet I	1	DAN 272	Modern II: Graham/Taylor	0.5-3
This course offers training in the basic skills of ballet technique, including placement, emphasis on alignment and most effective use of anatomical structure. Vocabulary is stressed.			This course provides training in the intermediate skills of the Graham and Taylor techniques. Prerequisite: DAN 173 or advanced placement.		
DAN 152	Ballet II	1	DAN 276	Modern II: Horton	0.5-3
This course continues training in the basic skills of ballet.			This course provides training in the intermediate skills of the Horton technique. Prerequisite: DAN 173 or advanced placement.		
DAN 253	Ballet III	1	DAN 372	Modern III: Limón/Humphrey	0.5-3
This course provides training in the intermediate skills of ballet technique.			This course provides training in the intermediate/advanced skills of the Limón and Humphrey techniques. Prerequisite: DAN 271.		
DAN 254	Ballet IV	1	DAN 373	Modern III: Graham/Taylor	0.5-3
This course continues training in the intermediate skills of ballet technique with emphasis on center floor, phrasing and performance.			This course provides training in the intermediate/advanced skills of the Graham and Taylor techniques. Prerequisite: DAN 272.		
DAN 355	Ballet V	1-1.5	DAN 377	Modern III: Horton	0.5-3
This course provides training in intermediate/advanced skills of ballet technique.			This course provides training in the intermediate/advanced skills of the Horton technique. Prerequisite: DAN 276.		
DAN 356	Ballet VI	1-1.5	DAN 479	Modern IV	0.5-3
This course continues training in intermediate/advanced skills of ballet technique.			This course provides training in advanced-level modern dance technique. Prerequisite: DAN 372 or DAN 373 or DAN 377.		
DAN 457	Ballet VII	2	DAN 278	Modern Contemporary I	0.5-3
This course provides training in the advanced skills of ballet technique.			This course provides training in the intermediate skills of modern contemporary techniques. Prerequisite: DAN 271 or DAN 272 or DAN 276.		
DAN 234	Pointe	0.5	DAN 378	Modern Contemporary II	0.5-3
This course is designed to teach the dancer the transition from executing classical ballet on flat and demi-pointe to pointe. Prerequisite: DAN 152 and faculty approval.			This course provides training in the intermediate/advanced skills of modern contemporary techniques. Prerequisite: DAN 278.		

DAN 478 Modern Contemporary III	0.5-3	DAN 243 Tap III	1
This course provides training in advanced-level modern dance modern contemporary techniques. Prerequisite: DAN 378.		This course provides training in the intermediate techniques of tap dance.	
DAN 191 Hip Hop I	1	DAN 244 Tap IV	1
This course offers training in a variety of hip hop techniques, practice in freestyle, and exposure to character development and performance techniques for dancers. The course also furthers students' understanding of the historic and cultural development of hip hop and the music that has influenced the genre.		This course continues training in the intermediate techniques of tap dance.	
DAN 192 Hip Hop II	1	DAN 345 Tap V	1
This course offers further training in a variety of more advanced hip hop techniques, practice in freestyle, and character development and performance techniques for dancers. The course also builds on students' understanding of the historic and cultural development of hip hop and the music that has influenced the genre.		This course provides training in the intermediate/advanced techniques of tap dance.	
DAN 160 Jazz Dance Foundations	1	DAN 346 Tap VI	1
A basic study of jazz dance technique, including warm-up, isolations, and progressions, with an emphasis on physical alignment, as well as the acquisition of movement vocabulary and terminology.		This course provides training in the advanced techniques of tap dance.	
DAN 161 Jazz I	1	DAN 136 Men's Ballet Technique I	1
This course offers basic training in a variety of jazz styles, with analysis of the differences between modern jazz and modern dance.		Beginning ballet technique, allegro and repertoire in classical ballet for men. Required of male dance majors.	
DAN 162 Jazz II	1	DAN 236 Men's Ballet Technique II	1
This course continues training in a variety of jazz styles and studies the correlation between ballet, modern dance and modern jazz techniques.		Continuation of beginning/intermediate training in the technique, allegro and repertoire of classical ballet for men. Required of male dance majors. Prerequisite: DAN 136 or permission of the Dean of the School of Dance.	
DAN 263 Jazz III	1	DAN 336 Men's Ballet Technique III	1
This course provides training in the intermediate skills of a variety of jazz techniques.		Continuation of training in the intermediate/advanced technique, allegro and repertoire of classical ballet for men. Prerequisite: DAN 236 or permission of the Dean of the School of Dance.	
DAN 264 Jazz IV	1	DAN 436 Men's Ballet Technique IV	1
This course continues training in the intermediate skills of a variety of jazz techniques.		Advanced training in the technique, allegro and repertoire of classical ballet for men. Prerequisite: DAN 336 or permission of the Dean of the School of Dance.	
DAN 365 Jazz V	1	DAN 137 Pas de Deux I	0.5
This course provides training in the intermediate/advanced skills of a variety of jazz techniques.		Beginning technique of supported adagio and partnering repertoire in classical ballet. Required of male dance majors; by invitation only for female dance majors. Prerequisite: Permission of the Dean of the School of Dance.	
DAN 366 Jazz VI	1	DAN 237 Pas de Deux II	0.5
This course continues training in the intermediate/advanced skills of a variety of jazz techniques.		Beginning/Intermediate technique of supported adagio and partnering repertoire in classical ballet. Required of male dance majors; by invitation only for female dance majors. Prerequisite: DAN 137 and permission of the Dean of the School of Dance.	
DAN 367 Jazz VII	1	DAN 337 Pas de Deux III	0.5
This course provides training in the advanced skills of a variety of jazz techniques.		Advanced technique of supported adagio and partnering repertoire in classical ballet. Required of male BFA in Dance majors; by invitation only for female dance majors. Prerequisite: DAN 237 and permission of the Dean of the School of Dance.	
DAN 141 Tap I	1	DAN 437 Pas de Deux IV	0.5
This course provides training in the basic skills of tap dance.		Advanced technique of supported adagio and partnering repertoire in classical ballet. Required of male BFA in Dance majors; by invitation only for female dance majors. Prerequisite: DAN 337 and permission of the Dean of the School of Dance.	
DAN 142 Tap II	1		
This course continues training in the basic skills of tap dance.			

DAN 193 Related Dance Forms I 0.5–1

Introductory study of dance forms relating to jazz, tap, modern or ballet techniques that are not part of the regular course offerings in the School of Dance.

DAN 293 Related Dance Forms II 0.5–1

Study of dance forms relating to jazz, tap, modern or ballet techniques that are not part of the regular course offerings in the School of Dance.

DAN 393 Related Dance Forms III 0.5–1

Study of dance forms relating to jazz, tap, modern or ballet techniques that are not part of the regular course offerings in the School of Dance.

DAN 493 Related Dance Forms IV 0.5–1

Study of dance forms relating to jazz, tap, modern or ballet techniques that are not part of the regular course offerings in the School of Dance.

F DAN 205 Partnering Techniques 0.5

Introductory course designed to teach dance students the basic elements of partnering techniques, including the science and mechanics of weight, support, momentum, counterbalance, and anatomical efficiency, as they relate to contemporary dance forms. Prerequisite: DAN 204; DAN 271 or DAN 272 or DAN 276; and approval of the Dean of the School of Dance.

DAN 124–424 Rehearsal and Performance 1–3

This course demands substantial participation in performing, producing, and/or choreographing for a School of Dance-sponsored production (min. 32–96 hours of work). Opportunities include performing, choreographing, or producing for faculty, guest artists, and other school-approved concerts in multiple genres for multiple venues. Professional expectations and responsibilities that support these exciting opportunities are learned and practiced. One course in DAN 124 is a requirement for all A.A. and B.A. Dance majors and is repeatable for credit, while more than 4 credits of DAN 124–424 requires approval from the Dean of the School of Dance. Students pursuing the B.F.A. in Dance are required to take DAN 124–424 every semester.

Dance Studies Courses:**DAN 111 The Discipline of Dance 2**

This course introduces dancers to Dean faculty, alumni, and current students and discusses the rigors of the Joan Phelps Palladino School of Dance. Throughout this course, students will be introduced to career paths in dance and opportunities to broaden their awareness of the global ecosystem of dance. Prerequisite: Must be a dance major or permission from the Dean of the School of Dance. Course fee: \$40. Offered every fall semester.

DAN 112 The Profession of Dance 2

This course exposes the dance major to the wide range of curricular and internship possibilities at Dean and introduces careers in the field of dance. At the conclusion of this course, students will be able to design and implement a plan for personal success (nutrition,

injury prevention, mental health, study skills, learning styles, etc.) and professional success. Prerequisite: DAN 111 or permission from the Dean of the School of Dance. Course fee: \$40. Offered every spring semester.

DAN 182 Rhythmic Analysis 3

Study of rhythmic structure and notation in music as they are applied to movement patterns. Students with previous music training may test out of the course without receiving credit. Offered every semester.

DAN 201 Dance History I – World Perspectives on American Dance 3

This course traces the historical evolution of dance from the 1600s to the present. The focus is on the global origins of dance forms, specifically as they have been reflected in the evolution of the American dance scene. Through visual, analytical and theoretical perspectives, students gain an understanding of how the early foundations of dance have shaped the world of dance. Offered every spring semester.

DAN 204 Dance Composition I – An Architectural Overview 3

This introductory course is designed to teach dance students the basic elements of dance composition, including thematic structure and the use of space. Improvisational methods are emphasized and the solo form is explored, developed and performed. Prerequisite: DAN 131. Offered on an as-needed basis.

DAN 206 Pedagogy I 3

This course offers an overview of teacher preparation and practice. Emphasis is on ballet technique as a foundational technique for many genres. Included throughout are discussions of anatomical structure and injury prevention. Offered every fall semester.

DAN 210 Creative Movement for Children 3

An introduction to creative drama, dance play-making and improvisation based on the principles and philosophies of movement education. Students will learn how a question-challenge approach to teaching can motivate children to explore movement, interact socially, and develop physically. Prerequisite: DAN 206. Offered every spring semester.

DAN 220 The Business of the Biz 1

This course serves as a primer focused on the preparation and transition from student to professional artist. Specific focus is given to the branding of the individual – the mindset and practices from those of a student/artist to that of a sole-proprietor company – and creating a plan of action for their coming years. Topics include analog and digital personal marketing, getting the job, professional practices and business structures in the industry such as unions, dance-related organizations and agencies, in addition to strategies for various types of auditions and submissions, as well as business taxes and expenses. Prerequisite: DCA 200 or permission from the Dean of the School of Dance. Offered every spring semester.

DAN 301 Dance History II – 20th and 21st Century Dance 3

This course is based on the importance of dance as a compositor and agent of history. The focus is on 20th and 21st century dance. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Dance. *Offered every fall semester.*

DAN 304 Dance Composition II – Production Design for Small and Large Groups 3

Emphasis is placed on the development of thematic structure in creating a dance for stage production. A complete group piece with narrative arc, thematic structure, clear intent and impact will be created. Prerequisite: DAN 231; and DAN 271 or DAN 272 or DAN 276. *Offered on an as-needed basis.*

DAN 306 Pedagogy II – Methods and Materials for Teaching Various Dance Genres 3

Using knowledge gained from Pedagogy I (which focused on ballet), materials and methods for teaching modern and jazz will be introduced and the student will apply knowledge of class structure, alignment, sequencing and technique to these genres. Prerequisite: DAN 206 or permission of the Dean of the School of Dance. *Offered every spring semester.*

DAN 313 Performance Theory and Criticism 3

This course is an introduction to the research and analysis of Theatre and Dance performances in various contexts and traditions by examining the realms of dramaturgy, theory, literature and criticism. This course is cross-listed with THA 313. *Offered on an as-needed basis.*

DAN 380 Research Methods in the Performing Arts 3

This course engages students in critical inquiry into theory, texts and performances, while acquainting them with approaches to research in the performing arts, particularly theatre and dance, including modes of investigation, and reviews of literature as well as historiographical methodologies. This course is cross-listed with THA 380. Prerequisite: THA 251 or DAN 201. *Offered on an as-needed basis.*

DAN 381 Laban Movement Analysis 3

This course studies a system and a language for observing, describing and notating forms of human movement. Studies include the categories of Body, Effort, Shape and Space. Prerequisite: DAN 304 or permission of the Dean of the School of Dance. *Offered on an as-needed basis.*

DAN 385 Film Survey in Dance 3

This course is a survey of dance in film and digital media. It examines the varying ways in which dance is incorporated into films, video, television and digital technology and the ways that film is incorporated into dance. The survey is a study of how dance on screen differs from and is similar to live performance and may offer opportunity to create dance film

projects. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Dance. *Offered every fall semester.*

DAN 402 Senior Project 3-6

This course addresses the practical application of skills needed for success in pursuing a variety of careers in the field of dance, culminating in a capstone project that exemplifies the student's progress in choreography, performance, dance studies, management applications, research, pedagogy, or other dance related areas of study, and demonstrates relevance to the student's future endeavors in dance. Travel to a major metropolitan area provides networking opportunities and exposure to working professionals. Prerequisite: DCA 350 and Junior standing in the Dance program or permission of the Dean of the School of Dance. Course fee: \$450. *Offered every fall semester.*

DAN 483 Dance Composition III – Honing Your Artistic Voice and Craft 3

Emphasis is placed on the development of thematic structure in creating a dance that further explores and challenges the choreographer's voice, delves into interdisciplinary work, and presents various approaches to art making. A complete group piece with narrative arc, thematic structure, clear intent and impact will be created. Prerequisite: DAN 381. *Offered on an as-needed basis.*

Dean Career Advantage

DCA 100 Campus Connections: Making the Transition 1

This course is designed to provide first-year students with the skills, tools, and mindset to succeed in college as well as begin to prepare for a global and competitive job market. This 1-credit course is linked with the introductory course in the student's major to develop engagement and personal awareness as well as develop relationships with the student's Success & Career Advisor and faculty. Students will begin to develop an individualized career guide that will be reviewed each semester. *Offered every fall semester.*

DCA 110 Career Connections: Developing Your Brand 1

This course is a continuation of DCA 100 and is designed for students to learn more about who they are. After working on defining themselves as individuals, students will begin the process of developing and then presenting their personal brand. Students will write their initial resume, explore LinkedIn and begin to learn about professionalism in the workplace. A review of their individualized career guide will be a critical component of this course. Prerequisite: DCA 100. *Offered every spring semester.*

DCA 200 Internship Connections: Creating Your Plan 1

This course is a continuation of DCA 110 and is designed to integrate critical experiential readiness

skills with the intent of utilization in a practical setting. This valuable pre-experiential course assists students in formulating career objectives and better prepares them for future employment. The course better prepares students to research and secure their internship/ leadership/global experience for any subsequent semester. Students will be exposed to all credit-bearing career experience courses and discuss all options to meet the 9+ credit requirement. Students will understand the Global Experience, the Leadership Experience, and the formal on-the-job internship experience that make up the Dean Career Advantage. Prerequisite: DCA 110. *Offered on an as-needed basis.*

DCA 201 The Job Shadow Experience 1

The *Job Shadow Experience* offers students an online reflective component to integrate reflection with experience gained from a firsthand job shadow experience. This valuable learning and reflection assist students in formulating future career goals, and realistic job options. Prerequisite: DCA 110; matriculated in a Dean College bachelor's degree program; be in good academic and judicial standing. Students must receive prior approval of their job exploration site before enrolling in this course. This approval would be from the Dean of the School in which the student is enrolled. *Offered every semester.*

DCA 300 The Internship Experience 3-15

This course offers students on- or off-campus placement and an online component to integrate reflection with the practical knowledge gained from firsthand experience in an internship setting. This valuable experiential learning assists students in formulating career objectives and better prepares them for future employment. The following number of hours are required for the designated number of credits: 96 hours for 3 credits (8 hours per week for 12 weeks). Any additional credits will require 32 hours of internship work per credit. The Dean of the School in which the student is enrolled must approve the internship placement and provide permission for the student to enroll in DCA 300 before the student may register for this course. Prerequisite: DCA 200. *Offered every semester.*

DCA 301 The Global Experience 1

This online course integrates reflection with a student's semester-long study abroad experience to assist students in formulating a global view of the world. Prerequisite: DCA 200; matriculated in a Dean College bachelor's degree program; minimum cumulative GPA: 3.000; good judicial standing; completed at least 30 credits. Approval through the Study Away Program application process. *Offered every semester.*

DCA 302 The Leadership Experience 3

This course is a part of the Dean Career Advantage in every bachelor's degree program at Dean College, fulfilling 3 of the required 9+ credits. This course is designed to be completed after students complete DCA 200 — *Internship Connections: Creating Your Plan* and can only be taken with a current leadership experience to reflect upon. You must have an approved application

for this course with an approved leadership opportunity outlined. *The Leadership Experience* will allow students to make the real-world connection regarding their areas of study and its utilization within the workplace. Prerequisite: DCA 200. *Offered on an as-needed basis.*

DCA 303 The Conference Experience 1-3

The Conference Experience offers students in-person preparation and reflective components to integrate the knowledge gained from firsthand conference preparation and participation. This valuable learning and reflection assist students in development of leadership and professional development that comes along with attending and participating in conferences. Prerequisite: DCA 200; matriculated in a Dean College bachelor's degree program; required minimum cumulative GPA: 3.000; and be in good judicial standing. Application process with faculty approval must be followed to be enrolled in this course. Additional course fees may apply. *Offered on an as-needed basis.*

DCA 350 Future Connections: Launching Your Career 3

This course is designed to provide students with the skills necessary to transition from college to their careers and/or graduate school. It also assists students with the ongoing development of the attributes necessary for professional and personal success in their chosen next step after graduation from Dean College. Topics and activities include but are not limited to: self-assessments regarding aptitudes and interests; exploration of career opportunities for graduates from the major; informational interviewing and job shadowing; cover letter and resume writing; concrete job search strategies; job interview preparation; professional networking; identification of continued volunteer and part-time opportunities to enhance marketability; graduate school exploration and application preparation; and project and stress management skills needed to navigate the job search process while completing their college degree. Prerequisite: DCA 200, at least 3 credits of their Dean Career Advantage Experience requirement. *Offered every semester.*

Dean Success Seminars

DEAN 123 Student Success Seminar III 1

This course will focus on learning adaptive reading and writing skills. How to effectively remember and plan for coursework, and how that transfers to higher-level on-the-job planning. This course will focus on transferring and applying the core skills of critical literacy (reading, writing, listening and speaking) to the following areas of intellectual development: communication, problem solving, social interactions, citizenship, analysis, values and global perspectives. *Offered every fall semester.*

Economics

ECO 110* The Economies of Debt: Private and Public 3

This course will explore the causes and consequences of incurring debt at the individual and government levels. In addition to increasing consumer debt, governments at all levels — local, state, national and international — are assuming increasing debt as their spending exceeds their revenue sources. Students will learn why and how debt is increasing and what impact it has on household and societal economic welfare. The course will address what can be done to reduce debt for both consumers and governments. Prerequisite: ENG 111 or permission of the Dean of the School of Business. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

ECO 111 Principles of Economics – Macro 3

Emphasis is on an analytical study of the forces responsible for determining the level of output, employment and income, and the techniques for directing those forces into the desired directions of full employment, stable prices, increased standards of living, and a favorable balance of payment positions. Special attention is given to the business cycle, theories of growth and development, techniques of national income accounting, and the role of government. Students may receive credit for only one of the following courses: ECO 111 or ECO 150. *Offered on an as-needed basis.*

ECO 112 Principles of Economics – Micro 3

Emphasis is on an analytical study of the forces responsible for determining the level and composition of consumer demand, output of the firm, and the supply and demand of factor inputs. It is concerned with the determinants of the prices of goods, labor, capital and land. Careful attention is paid to the economics of pollution and the theory and practice of international trade, with special emphasis on current international economic problems. Students may receive credit for only one of the following courses: ECO 112 or ECO 150. *Offered on an as-needed basis.*

ECO 150 Principles of Economics 3

This course is an introduction to how societies confront the economic problem, i.e., how societies provision themselves to deal with the problem of scarcity. Stress is placed on how markets work. Microeconomic topics include supply and demand analysis, consumer choice theory, cost functions, market structures and consumer welfare theory. Macroeconomic topics include gross domestic product determination, aggregate demand analysis, the determinants of inflation and unemployment, international trade, and monetary and fiscal policy. Students may not receive credit for both ECO 150 and either ECO 111 or ECO 112. *Offered every semester.*

Education

EDU 103* Foundations of Education 3

This foundation course focuses on historical, philosophical and socioeconomic influences on current educational classroom practices. Upon successful completion of this course, the student will have a foundation for understanding the history of education in the United States, various philosophical models of teaching, aspects of quality education and the impact of contemporary challenges on education as well as the educator's role and responsibilities. This course is designed to introduce the student to the professional practice of education. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester. This course fulfills the Core Distribution Social Sciences requirement.*

EDU 111 Introduction to Early Childhood Education (ECE) 3

Through discussion and observation, students will explore the history of early childhood education and its influences on current classroom practices, various philosophical models, aspects of quality in early childhood programs, strategies for observation, the role of play in children's learning, planning of integrated curriculum, professional development of the early childhood teacher and a basic overview of the development of young children. Students seeking qualification from MA DEEC or seeking to work with children in second grade or younger, should take this course; those seeking to work with children in grades three or higher should take EDU 103. *Offered every fall semester.*

EDU 114 Infants and Toddlers: Care and Curriculum 3

This course focuses on the care and teaching of infants and toddlers in group settings. The developmental characteristics of children from birth to 2.5 years of age will be the basis for planning appropriate learning experiences, organizing the physical environment, and recognizing the importance of interpersonal relationships. *Offered every spring semester.*

EDU 130 Classroom Behavior Management 3

This course is designed to recognize both the teacher's need to maintain basic classroom control and the young child's need for self-expression in a safe, accepting environment. Students will learn ways to modify behaviors that foster self-esteem and self-control in children as well as their caretakers. *Offered every spring semester.*

EDU 200 Education Internship 1

This course offers direct and supervised experience in an educational setting providing students with the opportunity to apply the skills acquired in their course of study. Prerequisite: Sophomore standing. May be repeated for credit. *Offered on an as-needed basis.*

F

F

EDU 231 Curriculum for Young Children 3

This course is designed to provide the student with a developmental approach to early childhood education programming, stressing the value of active learning and open-ended experiences in all areas of the curriculum. The interrelation of each area of the curriculum in the total learning experience is stressed, with particular emphasis on art, music, movement, mathematical thinking, literacy, dramatics, woodworking and science. Prospective teachers develop techniques of planning, implementing and evaluating child-centered opportunities for daily programming and techniques for extending children's individual learning. Lecture and workshop methods are used to equip the student with ideas to take back to the classroom. EDU 231 may be taken concurrently with EDU 280/281; if taken prior to EDU 280/281, students must earn a "C-" or better in EDU 231 to be allowed to enroll in EDU 280/281. Prerequisite: EDU 251, PSY 211 or permission of the Early Childhood Education Program Director. *Offered every fall semester.*

EDU 240 Social and Emotional Learning 3

In this course, based on key features of NAEYC and state standards for social and emotional learning, students will learn how to effectively support and maintain positive child-child interactions. They will learn to critically analyze both adult interactions with children and adult scaffolding of child-child interactions, recommend ways to improve relationships and interventions and justify their recommendations. Practicing a guidance approach to classroom management, they will learn to identify goals for children's problematic behaviors, draw upon a broad repertoire of intervention strategies to maintain a positive classroom climate, and promote the continued social-emotional growth of children. *Offered every spring semester.*

EDU 261 The Diverse Learner 3

This course is designed to help those who will be working with the diverse learner in a regular classroom or special education setting. Students will study physical, cognitive and behavioral developmental problems in young children and will learn management techniques to aid them in mainstreaming these youngsters. Special attention will be given to community resources for the teacher and effective ways of working with parents. Prerequisite: EDU 251 or PSY 211. *Offered every spring semester.*

EDU 270 Collaboration for the Child: Engaging Family & Community Connections 3

This course focuses on family and community involvement in early childhood education. Participants examine strategies for establishing and maintaining collaborative relationship with culturally diverse families and communities. Effective communication, engagement, and school/home partnerships are explored. *Offered every spring semester.*

EDU 280 Seminar for Field Observation and Participation 1

Opportunities to take part in the program at Dean College Children's Center will be supplemented in this course by the seminar group discussions as well as individual conferences and evaluations of field participation performance. Observations, records of behavior, individual case studies and supervised participation activities will be discussed during weekly seminar sessions. Seminars are for one hour and field participation is for 3.5 hours per week. Corequisite: EDU 281. Prerequisite: "C-" or better in EDU 103 or EDU 111; "C-" or better in EDU 251 or PSY 211; concurrent enrollment in EDU 231 or prior completion of EDU 231 with a "C-" or better; and approval of the Early Childhood Education Program Director. The Program Director reserves the right to withdraw a student from EDU 280 based on academic standing and/or performance reasons. Fingerprinting fee for background check: \$35. *Offered every fall semester.*

EDU 281 Lab for Field Observation and Participation 2

Students have an opportunity to participate at Dean College Children's Center in the classroom with young children. Students will begin planning, implementing and evaluating open-ended opportunities for the children under close supervision of the classroom teachers and instructing supervisors. Field placement must be taken after or concurrently with EDU 231. Field participation is for 3.5 hours per week. Corequisite: EDU 280. Prerequisite: "C-" or better in EDU 103 or EDU 111; "C-" or better in EDU 251 or PSY 211; concurrent enrollment in EDU 231 or prior completion of EDU 231 with a "C-" or better; and approval of the Early Childhood Education Program Director. The Program Director reserves the right to withdraw a student from EDU 281 based on academic standing and/or performance reasons. *Offered every fall semester.*

EDU 282 Seminar in Early Childhood Education (ECE) Practicum 1

Student Teaching Practicum opportunities at Dean College Children's Center will be supplemented by the seminar group discussions as well as individual conferences and evaluations of practicum performance. Observations, records of behavior, opportunity lesson plans and daily participation in the program will be discussed during weekly seminar sessions. Seminars are for one hour and practicum is for 14 hours per week. Corequisite: EDU 283. Prerequisite: "C" or better in EDU 280 and in EDU 281, "C" or better on the Final Student Observation Record, complete a CORI/SORI and fingerprinting and approval of the Early Childhood Education Program Director. The Program Director reserves the right to withdraw a student from EDU 282 based on academic standing and/or performance reasons. *Offered every spring semester.*

EDU 283 Lab for Practicum in Early Childhood Education (ECE) 5

Student teaching assignments at the campus preschool, Dean College Children's Center, will give the ECE

career student an experience to actively participate in the day-to-day program. Students will be absorbed in planning, implementing and evaluating opportunities for the young children in their placement as well as taking part in parent meetings, finding appropriate resources, collecting anecdotes on children, and taking over the head teacher's role on student-teacher planning days. This course provides in-depth classroom experience with increasing responsibilities. Frequent supervision from the faculty supervisor and individual conferences with teachers will give constant feedback as to the student's effectiveness in the classroom. Upon completion of this practicum, students will meet the requirements for Teacher Certification from DEEC. Student Teaching Practicum is for 14 hours per week. Corequisite: EDU 282. Prerequisite: "C" or better in EDU 280 and in EDU 281, "C" or better on the Final Student Observation Record, complete a CORI/SORI and fingerprinting and approval of the Early Childhood Education Program Director. The Program Director reserves the right to withdraw a student from EDU 283 based on academic standing and/or performance reasons. *Offered every spring semester.*

EDU 285 Observation and Assessment 3

This course examines the role, purpose, and applications of assessment in early childhood education. Participants explore developmentally appropriate assessment techniques and strategies in early childhood education to meet the needs of diverse learners as well as approaches to effectively select, design, and record assessment. Participants examine how to interpret and evaluate assessment outcomes to evaluate student development and to enhance curriculum planning. Additionally, this course provides an overview of collaborative partnerships such as school districts, parents, and community resources in the assessment process. *Offered every fall semester.*

EDU 323 Language Development & Early Literacy, Birth-K 3

This course focuses on theoretical and developmentally appropriate teaching methods in language and literacy for children from birth to age eight. Theories in language development, including second language acquisition, as well as the needs of English language learners are examined. Participants will explore research-based early literacy teaching strategies for engaging children in integrated listening, speaking, reading, and writing experiences. There is an emphasis on incorporating content area standards and developing hands-on learning experiences for young children. Additionally, developmentally effective assessments are discussed as a means of guiding instruction. *Offered every fall semester.*

EDU 327 STEM Learning in Early Childhood 3

This course focuses on an understanding and use of developmentally appropriate practices to teach and integrate mathematics and science concepts and skills in early childhood education. Developing meaningful curricular content, modifications, hands-on

learning experiences, and integration of early childhood content area standards are explored. A foundation in developmentally effective teaching and assessment of the content area is provided. *Offered every spring semester.*

EDU 475 Student Teaching 12

This experience requires a minimum of 200 hours working directly with children in an approved placement, toddler-K. In some cases, the placement is in a student's workplace, but rarely in a public-school classroom. The student works with an assigned college supervisor and an EEC licensed, site-based cooperating practitioner, increasingly taking responsibility for management of the classroom, designing learning experiences, and communicating with families and administrators. Students develop a performance portfolio documenting their competencies and attend scheduled seminars. Prerequisite: 2.000 GPA in all coursework; 2.300 GPA in all EDU courses; Approved CORI/SORI and fingerprinting; Demonstrate professional behavior in person and in written communication; Approval of Program Coordinator. *Offered every fall semester.*

EDU 495 Senior Capstone 3

The purpose of this seminar is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty in the bachelor's degree program. Prerequisite: Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

English

ENG 101* As Good As Your Word 3

This course explores the full range of literary study, from the creative to the reflective to the analytical, and on to publishing! Literary study starts with art, with writers who want to say something about the world and their place in it. So begins the course with a burst of creative writing as students generate their own, original work about topics ranging from love to identity to coming of age. Model pieces by published writers are discussed and studied for inspiration. The course then moves into a period of revision and reflection in which those creative pieces are refined and in which students compose a narrative of their development as readers and writers. The course ends with a unit of literary analysis of the creative work produced by the class. Students explore what this literature reveals about themselves and the world and what patterns emerge across multiple texts. In the final class project, a digital collection of student work is created and shared with the campus using a Wix website. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. This course is

required for all A.A. and B.A. English majors. *Offered every fall semester. This course fulfills the Core Distribution Humanities requirement.*

ENG 111 Composition I 3

This course develops the student's ability to think clearly and write effectively for academic purposes. Classroom sessions focus on concept development, organization of ideas, and techniques for writing college essays, critical analysis of text, and process writing. Lab sessions reinforce skill development. Both formal and informal writing assignments as well as nonfiction reading, are incorporated throughout the course. Instruction in the following areas is emphasized in all sections: rhetorical awareness, critical thinking, proper use of MLA citations and formatting, introductory research skills and correctness in grammar and mechanics. Students must achieve a grade of "C-" or better to meet the prerequisite for ENG 112. *Offered every semester. This course fulfills a College Core requirement.*

F ENG 112 Composition II 3

This course is a continuation of the two-semester college writing requirement. The coursework continues to emphasize and develop critical thinking and argument in academic writing, and additionally requires independent research writing. The integration of visual elements into formal papers, MLA formatting and documentation, and editing strategies are also taught and reinforced. Prerequisite: A grade of "C-" or better in ENG 111 or permission of the Dean of the School of Liberal Arts. Students must achieve a grade of "C-" or better to meet the prerequisite for ENG 320, ENG 331, or ENG 332. *Offered every semester. This course fulfills a College Core requirement.*

ENG 218* Multiracial and Multicultural Identity: Breaking the Census Box 3

In a world in which race, ethnicity and cultural identity are or may be very singular and even polarizing discussions, this course will include contemporary literature that both grapples with and celebrates multiracial identity. The literary works explore family, interpersonal and professional relationships, issues of class and education, political and social consciousness, the immigrant narrative, and what is often referred to as the "return" narrative. The multiracial voice is one of increasing interest, as is the ongoing conversation around race, color and ethnicity in addition to how one may choose to identify oneself. Through current works of literature by authors such as Danzy Senna, Danielle Evans, Natasha Tretheway, Julia Alvarez, Garrett Hongo and James McBride, students will explore the advantages and challenges of dual identities. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 219* Introduction to Journalism 3

An introduction to newspaper reporting with hands-on experience in gathering news; interviewing techniques; and writing, editing and analyzing basic news, sports and feature stories. Students are required to write and edit

stories using the most appropriate technology. Students will also examine the role and responsibilities of the press and study the legal and ethical problems facing journalists. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 220 Creative Writing: Non-Fiction 3

This course focuses on the further study and writing of nonfiction. In order to develop an appreciation of form and technique, students will read and study examples of nonfiction as shown by the foremost writers, contemporary and traditional, in the field. Students will work in both a private and writing workshop setting. Students will be encouraged to submit work to a student publication. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

ENG 222 Creative Writing: Fiction 3

Students are introduced to the techniques of writing fiction through analysis of works by class members and established writers. All work is discussed in a workshop situation. Emphasis is on fundamental methods and forms basic to writing fiction. A portfolio of exercises, short stories and revisions provides the basis for the course grade. Students may receive credit for only one of the following courses: ENG 221 or ENG 222. *Offered on an as-needed basis.*

ENG 223 Creative Writing: Poetry 3

This course includes a study of poetry and focuses on the writing of poetry. Students will read contemporary and traditional works of selected poets, poems in form and open verse. The students will submit their work throughout the semester in a workshop setting for review and feedback. Prerequisite: ENG 112 or permission of the Dean of the School of Liberal Arts. Students may receive credit for only one of the following courses: ENG 221 or ENG 223. *Offered on an as-needed basis.*

ENG 224* Writing the American Dream 3

Is the American dream still alive and well? What does this concept reveal about our past, present, and future? This course examines and explores how writers have perceived the American dream and the American people's aspiration to its promise. Representative writings from the nation's conception through the struggles and triumphs of the republic to contemporary questions about who Americans are will be read, discussed, and analyzed to get a firmer understanding of the American character and experience. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 233* New England: Life, Lore and Literature 3

This course is a study of literature and landscape, folklore and history, revealing the regional stamp that defines New England, the Northeastern region of the United States. From ocean to mountain, from cities to rural villages, from suburbs to communities, from Puritans to Transcendentalists, and from immigrants

to intellectuals, New England embodies the beauty and diversity of American life. The local color of New England is distinguished by its stories, its poets and its food; sample the flavors of this unique part of America. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 240* Literature of Food: Bread for the World **3**

Eating is necessary for human survival, yet it also connects us together as a social function. What we eat defines our family, class and ethnic uniqueness. When food is written about in literature, it allows us to experience it with all our senses and have a deeper understanding of its significance. Readings in this course will include texts that use food to introduce themes of pleasure, love and loss. Classes will focus on how these texts create their narrators as they experience food memory, food discovery and food desire. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 243* World Writers **3**

Globalization has linked the world and its varied cultures together as never before. Politicians and pundits emphasize cultural exchanges, clashes, fusions, or co-optations. Ideas and memes now float freely across national borders, and we have daily access to countless world cultures through the internet, social media, and television. How can we make sense of this cultural complexity in a globalizing world? This course provides students the opportunity to engage with this question through a focused, thematic selection of poetry, novels, and short stories written by major writers from diverse world cultures in the modern era. It asks students to consider the writers' life stories, their creative works, and their cultural and historical context. In doing so, students will be able to compare literature across cultures, including writers from European and non-European cultures. Course requirements include participation, short responses, papers, and exams. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 245 Children's Literature **3**

This course surveys children's literature in the age-range of preschool through fourth grade, including picture storybooks, books to begin on, folktales, poetry, fantasy fiction, realistic fiction, historical fiction, biography and informational nonfiction. Emphasis is placed on selection criteria, literary criteria and literary appreciation. Several children's novels are included. The textbook explains and critiques children's literature; additional reserved reading is assigned in a wide variety of children's picture books. Assignments cover reading and analyzing children's books, creative writing and projects, and composing an original children's book final project. Prerequisite: ENG 111 or permission of

the Dean of the School of Liberal Arts. *Offered every spring semester.*

ENG 250* Music in Literature **3**

Music has always been an integral part of our lives. When music is present in literature, it helps readers relate to characters and their situations, giving insight into the personalities of protagonists, thus allowing us to understand them better. Music has the power to convey moods, meaning, and ideas through its descriptions in writing. Fiction that contains major musical elements can jog our memory and bring us back to a place, time, or occurrence in our past. Readings in this course will include texts and short stories that focus on the Jazz Age, the Harlem Renaissance, American ballads and folk songs, and the determination and potential of the human spirit. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 260* Poets and Poetry: The Poetic Voice **3**

Through a study of selected poets, students will develop an appreciation and understanding of the creative approach used by poets to express the thoughts and ideas of humanity. Through close reading and analysis, students will develop an appreciation of beauty, awakening insights and universal themes that are voiced by poets. While the course will include a variety of poems, several primary poets will be studied in more depth. The selections will include traditional, cross-cultural and contemporary poets. Coursework will include formal and informal writing assignments, source research, critical thinking, discussion, and exams. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fourth semester. This course fulfills the Core Distribution Humanities requirement.*

ENG 262* The Graphic Novel **3**

In the United States, comic books began in the 1930s telling tales of crime-fighting caped heroes such as Superman, The Flash, and Batman. Superhero stories bloomed into graphic science fiction, horror and Westerns in the 1950s, the comic book form waxing and waning in popularity throughout the mid 20th century until 1978 when Will Eisner gave us the first graphic novel: *A Contract With God* — short stories told in words and pictures, dubbed sequential art. And then came Alan Moore's *V for Vendetta* in 1985, and Art Spiegelman's *Maus I and II* in 1992 — and since then, an explosion of book length comics we call graphic novels. Sometimes these "novels" are really comic journalism or memoir — the word novel coming to mean long work more than long fictional story. In this course, we will read these three foundational graphic novels, and then reach into the diversity of graphic novels that exist today, including: Gene Luen Yang's *American Born Chinese*, Craig Thompson's *Blankets*, and Alison Bechdel's *Fun Home*. We'll complete the course by turning back to the origins of the form, a contemporary Marvel comic about Pakistani-American teenage superhero Kamala Kahn

F

who is (Ka Pow!!!) ... Ms. Marvel! Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

ENG 270* Literature by Women Writers 3

Students will explore the contributions of women writers in portraying the images and roles of women in both the public and private realms, addressing relevant themes, social issues and the changing role of women. Drawing from 19th-century, 20th-century and contemporary selections, the literature will heighten an awareness of the multiple identities, limitations, and positions of women in various places and time periods. Through powerful voices and character development, the literature selections will address the contexts of childhood upbringing, marriage, professional careers, political consciousness, race and ethnicity. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fourth semester. This course fulfills the Core Distribution Humanities requirement.*

ENG 285* Studies in the Short Story 3

One of the most enduring pleasures of life is a well-told story. Students will work toward analyzing, understanding and enjoying the power and beauty of multiple stories by selected short story writers. Students will read a handful of diverse authors to appreciate the many subjects, themes, techniques and styles that define the writer's work. As a compressed form of fiction, the short story offers students a window into the world with brevity of language and character development. Students will learn to investigate these works with a keener critical eye, as the writer condenses large ideas into smaller pieces. Through selected writers, this course offers students a broader understanding of diversity and the human condition. Coursework will include formal and informal writing assignments, source research, critical thinking, discussion and exams. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fourth semester. This course fulfills the Core Distribution Humanities requirement.*

ENG 290* Literature of Baseball 3

This course examines the subject of baseball as seen through examples of a variety of literature. Poetry, short stories, essays, novels, myths and legends, sports columns, and plays will serve as the literary vehicles through which baseball is explored. The course also shows baseball as the mirror of American history, psychology, and sociology. By more deeply understanding baseball, the reader comes to a more profound awareness of the American character, the American experience, and the timelessness of the American Dream. Authors such as Carl Sandburg, Ring Lardner, Damon Runyon, Bernard Malamud, Marianne Moore, August Wilson, Bart Giamatti, John Updike, Don DeLillo, Annie Dillard and others will be among the selections. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fourth semester. This course fulfills the Core Distribution Humanities requirement.*

ENG 302 Romanticism: Frankenstein and the Gothic Writers 3

Mystery, faith, and nature. Passion, emotion, and darkness. The irrational and the monstrous. These were the watchwords of Romanticism. Students will have the opportunity to explore the sense of experimentation in forms, lifestyles, and consciousness among Romantic writers such as Mary Shelley, Lord Byron, or John Keats. These women and men had inherited what they saw as the cold rationality of the Enlightenment and they hoped to find a different vision of humanity through their literature, art, music and philosophy. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 305 Mythology: Legends, Gods, and Heroes 3

Scholar and writer Joseph Campbell writes that mythology is the "roadmap of the soul" and that a culture or nation without a mythology is also without a soul. In this course, we will study some of the great mythological works from a variety of ancient cultures. Doing so will allow us to compare the cultural meanings behind the legends, gods and goddesses, and heroes and heroines as well as the role of myth as a model for individual as well as cultural life among ancient peoples. These are the stories that later inform and shape the patterns of religion, art, and literature, as well as contemporary social theory. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 320 Advanced Essay Writing 3

This course will take a multidisciplinary look at a single controversial question facing the United States, giving students multiple perspectives in different disciplinary styles through which to develop a complex understanding of the issue. Students will write several essays and informal assignments, practicing the essential academic writing skills of building an argument, analyzing readings, writing from sources, using a documentation system, and doing library research. Prerequisite: A grade of "C-" or better in ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every semester.*

ENG 331 Writing for the Arts and Entertainment World 3

This course examines the different types and styles of writing required in the arts and entertainment industries: persuasive, informational, promotional, journalistic and critical. This course includes instruction in: feature and review writing; writing for fundraising including grants, appeal letters and special events promotion; and marketing pieces including flyers, brochures, press releases and advertising copy. The student will develop writing materials for each of these areas, culminating in a final portfolio project. Prerequisite: A grade of "C-" or better in ENG 112 and junior or senior standing, or permission of the Dean of the School of the Arts. *Offered every semester.*

ENG 332 Strategic Writing for Managers 3

This course will focus on written communication in the professional workplace. It will focus on topics such as context, purpose, audience, style, organization, format, technology, results and strategies for persuasion when examining the development of typical workplace messages. In addition to writing shorter assignments, a substantial formal report that incorporates data analysis and support for conclusions or recommendations is required. Prerequisite: A grade of "C-" or better in ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every semester.*

ENG 341 Shakespeare and the Classics 3

This course presents students with the important works of Shakespeare and the Classical theatre. Through analyzing and studying of the works of Greek, Roman, Medieval and Elizabethan theatre, students will identify their effects on the world of modern drama. Theatre tickets: \$45. This course is cross-listed with THA 341. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

ENG 342 Advanced Writers Workshop 3

The full writing process joins the individual to a community of writers working toward establishing and improving voice and technique. Writers provide effective, engaging, and constructive analysis of each other's work. The techniques of writing fiction, poetry, and/or creative nonfiction are reinforced through readings by established writers who offer advice about the writing life. Entering the conversation and community of writing is a rich opportunity to share ideas and establish goals that lead to critique and editing of new and ongoing work. Each writer will complete a portfolio of work by the end of the course. May be repeated for credit. Prerequisite: ENG 220 or ENG 222 or ENG 223. *Offered on an as-needed basis.*

ENG 345 Copyediting 3

Polished writing is essential for professional careers in fields from journalism and marketing to communications and education. Copyediting includes correctness in grammar and form but reaches beyond to careful use of language that has been finely tuned to the relationship between writer and reader. Through editing practice and exercises, and critiquing published and unpublished material, students will leave the course with practical experience correcting error, cutting redundancy, refining voice, and editing for crisp, lively prose. The course will culminate with the completion of a substantial copyediting project for a real-world client. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

ENG 346 Digital Publishing 3

Students in this course will produce a digital magazine, which publishes original student work produced in a variety of settings on campus. Effective teamwork

will be emphasized. Modeling the work environment of editorial staff, students will learn to solicit original work; lead writers through an editorial process; design a digital magazine that embeds video, audio, visual and text elements; copyedit and promote the magazine. The course will culminate in the publication of an annual magazine issue and a release event. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

ENG 354 Contemporary Writers 3

Can we get away from the late, great literary giants? Who are the emerging writers today, and what new experimental or postmodern styles are they using in their art? This course provides students an opportunity to read and talk about contemporary writers and explore their craft. We will look at poets, fiction writers, memoirists and/or playwrights, according to a specific theme in their promising new works. Students should be open to discuss, address and research creative expression. Themes will address issues in the world today, such as climate change, income inequality, dystopian futures, gender or racial identity, changing family structures, modern love, social conformity or public protest. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 355 Literary Modernism 3

Students will read the works of such 20th century modern writers as James Joyce, Ernest Hemingway, T.S. Eliot, William Butler Yeats, F. Scott Fitzgerald and Robert Frost, in order to develop an appreciation for the depth of adventure and the breadth of imagination of American, British and Irish literary expression in the first decades of the 20th century. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 357 Black Literature Matters 3

Black Literature Matters provides students with an opportunity to explore the literary voices that have shaped our understanding of African-American identity. This course explores African-American literature through genres of poetry, fiction, nonfiction, and creative nonfiction as a reflection of the oppression, political consciousness, activism and celebration of black identity. This course allows students to investigate and place literature produced by black authors in their proper historical context. Key themes will include gender, racism/colorism, sexuality, coming of age, and social activism. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 365 Cinema: Films from Literature 3

An analysis of film adaptations from various literary sources. Novels, plays and screenplays are used and studied extensively within the course. Several film genres and techniques will be viewed. With its long and complex history, and the ever-unfolding interactions between the

printed word and the visual image, the nature of what happens to literature in the hands of filmmakers cannot be reduced to such commonplace statements as “the book is always better than the movie.” Students will explore some of the major critical frameworks for viewing the exchange between literature and film, focusing on style and genre connections between the fictional worlds of John Buchan, James M. Cain, Graham Greene and suspense/film noir. With Greene, we will take a more focused look at global intrigue in such far-flung places as Vienna and Saigon; with Welles, we will look at the evolution of a classic. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 375 U.S. Latino Literature 3

This course will explore issues of ethnic identity, language, immigration, oppression and love through contemporary poetry, novels and film. While the writers represented come from the U.S. Southwest, Puerto Rico, Cuba and The Dominican Republic, they all write in English to address American readers. Their work as a whole troubles and complicates the idea of a single Latino identity in the United States, and instead reaches toward historically distinct notions of self and community. Coursework will include reading discussion, independent research, short presentations, one longer paper and three short exams. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

ENG 495 Senior Capstone 3

The purpose of this seminar is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty in the bachelor's degree program. Prerequisite: Senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

Health Sciences

HSCI 111 Introduction to the Health Sciences 3

Students interested in the allied health fields will explore a variety of learning and study strategies essential for collegiate success in allied health professional programs. Student learning is supported through the integration of videos, media, review of articles, introduction to basic medical terminology, and public health issues. At the conclusion of the course, students will create and implement a campus-wide health initiative as a group project. *Offered every fall semester.*

HSCI 227* The Language and Math of Medicine 3

This course is designed to provide Pre-nursing and Health Science majors as well as other students whose career goals include one of the medical fields with an understanding of basic medical terminology and mathematical calculations and applications used in the field of medicine. This course will be taught using case studies as way to engage students and to provide a context for related terms and math. The language of medicine will include an exploration of specific terms related to the cases as they are presented. The mathematics of medicine will include such topics as metrics and apothecary in medicine, dosage calculations, differences in dosages for children and adults, and IV flow rates. This course will be a hybrid course meeting for 75 minutes once per week with the remaining instruction and application work being done online. Prerequisite: A grade of “B-” or better in BIO 151, BIO 172 or BIO 175 or the permission of the Dean of the School of Liberal Arts. *Offered every fall semester. This course fulfills the Core Distribution Mathematics and Natural Sciences requirement.*

History

HIS 101* Making History 3

Making History is an introductory course in history methods and historical consciousness, including exploration into the history of Dean College. Students learn the difference between primary and secondary sources as well as the critical and analytical approaches to working with sources. Primary sources throughout American and world civilizations may be used to develop students' historical-mindedness, and the focus on local/Dean history helps students form a campus identity and appreciation for the relationship between past and present. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester. Fulfills a Core Distribution Humanities requirement.*

HIS 111 United States History to 1865 3

This course surveys the social, economic and political developments in American history from European colonization to the American Civil War. In addition to these subjects, considered topics include the American Revolution and Constitution, Jacksonian democracy, the market revolution and the sectional conflict. Students will encounter primary historical materials as well as scholarly accounts of the past. Lecture and discussion. *Offered on an as-needed basis.*

HIS 112 United States History – 1865 to Present 3

This course surveys the social, economic and political developments in American history from Reconstruction to the Cold War and beyond. Students will engage the United States' economic, political and military rise as a world power, as well as the far-reaching social developments that came with American ascendancy.

Students will encounter primary historical materials as well as scholarly accounts of the past. Lecture and discussion. *Offered on an as-needed basis.*

HIS 151 World History I, to 1500 3

This course is devoted to the study of early human social development up to the era of globalization in the 1500s. Main themes include the rise of cities and trade, empire building, cultural exchange, religion and philosophy, and technological development. Much of the course focuses on the Mediterranean societies from the first cultures in Mesopotamia to Christian and Islamic dominance in Europe in the 1400s. Comparative regions include East Asia (China), Sub-Saharan Africa and the Americas. Students will encounter primary historical materials as well as scholarly accounts of the past. Lecture and discussion. *Offered on an as-needed basis.*

HIS 152 World History II, 1500 to Present 3

This course is devoted to the study of civilizations from the 15th and 16th centuries to the present. In addition to global contact and exchange, the course emphasizes the rise of science, industrialization, and the resulting political ideologies and social revolutions. The widespread upheaval and reorganization caused by World Wars I and II lead to the course's conclusion in the Cold War, decolonization and globalization. Students will encounter primary historical materials as well as scholarly accounts of the past. Lecture and discussion. *Offered on an as-needed basis.*

HIS 203* Cold War America: Culture and Conflicts 3

This course explores the social, economic and political forces shaping American culture during the height of the Cold War. Topics of study include the causes and culture of consumer conformity and anti-Communism, the social and political rebellions of the 1960s, and the experiences of the war in Vietnam. Students will encounter multidisciplinary primary sources (music, art, film, literature, documentation) as well as scholarly accounts of the past. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 242* Reading World Revolutions 3

This course is devoted to the study of modern world revolutions in France, Russia, the Dominican Republic and Iran. In addition to exploring the historical context of modern revolutionary moments, this course also examines the creative work that emerged in response. Students will gain a broad understanding of what causes societies to overturn and how individual artists represent this upheaval. Coursework will include reading traditional and graphic novels, and primary source documents as well as scholarly accounts of the four revolutions. Discussion, active learning exercises and lecture will structure class time. Assessment is through papers, a teamwork project and exams. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 250 Beyond Henrietta Lacks: Race and Medicine in 20th Century America 4

In 1951, Henrietta Lacks, a young African American woman from Baltimore died of cervical cancer. Tumor cells were taken from Lacks without her knowledge or consent. These cells, now known as HeLa cells, were the first immortal cell line grown in a laboratory, and they continue to contribute to medical discoveries today. This course explores the intersection of the history of medicine with social history in America, focusing particularly on the category of race. We will use a historical lens to discuss broader ethical questions about race and medicine, for example access to medical care and the use of human subjects in medical research. In the lab, students will have the hands-on opportunity to investigate the connections between cell biology, modern medicine, and social and ethical questions. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. This course is cross-listed with BIO 250. Prerequisite: ENG 111, Core Mathematics requirement, and BIO 171, BIO 175 or BIO 180; or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 253* Post/War: 20th Century Europe 3

Warfare and its consequences defined Europe's tumultuous 20th century. This course familiarizes students with the narrative of European history from 1914 until the turn of the 21st century. In particular, it explores the disastrous period of world war and social upheaval from 1914 to 1945 as well as postwar consequences for Europe's place in global affairs. After surveying the rise and fall of Cold War societies in Europe from 1945 to 1989, the course concludes by considering the European Union as an attempt to transcend 20th-century violence and upheaval. Through this historical example, students will have the opportunity to consider the enduring question of how societies cope with warfare and its consequences. Why does extreme violence often produce more violence? How have societies managed to stop cycles of violent warfare? Can a society ever truly become Post/War? Students will be able to reflect upon such questions through analysis of historical sources, literature and art. Coursework will include exams, short response papers and a final research paper. Discussion and lecture. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 260* The Holocaust in History and Memory 3

In the context of the Second World War, Nazi Germany implemented a program of systematic, state-sponsored mass murder, targeting people with disabilities, gay men and lesbians, Gypsies and, above all, European Jews. Since the end of the War, the Holocaust and its horrors have continued to pose disturbing problems for survivors, lawyers, historians, writers, artists and the international public. Across the globe,

people have sought to come to terms with this event through historical study, commemoration and creative representation. In this course, students will gain a broad understanding of Holocaust history as well as the myriad ways it has been memorialized through literature, art and architecture. At the end of the course, students will apply their knowledge of the Holocaust to investigate how historical memory shapes current cultural and political debates. Coursework will include analysis of historical documents, literature, art and architecture as well as exams, short response papers and a final research paper. Discussion and lecture. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 265* History of Science

4

Our modern world is built on a foundation of science and technology. How did we get here? This course investigates how human beings have used reason and experimentation to explain and manipulate the natural world from the ancient period to the present, focusing on the past 500 years. We will locate the Scientific Revolution of the 1500s and 1600s and the modern physical and mathematical sciences that it inspired within an older, multi-cultural story of science history. We also will explore how science and technology have transformed politics, economies, and societies in world history. In a concurrent lab, students will have the opportunity to walk in the shoes of past scientists, reproducing pivotal experiments from history and experiencing key scientific discoveries firsthand. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. This course is cross-listed with SCI 265. Prerequisite: ENG 111, Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

HIS 310 The Harlem Renaissance

3

This course takes students into the multifaceted world of the Harlem Renaissance. There's something for everyone here, from the economic and social conditions that pushed African Americans out of the South to find new homes in northern cities, to the political philosophies (e.g., Garveyism) that emerged from Harlem and other black neighborhoods in the North. And then there's the artistic output: literature, visual arts, music, dance and theatre. We will explore it all as we come to understand what it meant for African-American culture and life to be reborn: the Harlem Renaissance! Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 311 August Wilson and the African American 20th Century

3

Combining the fields of theatre, literature, and history, students will explore the rich legacy of playwright August Wilson. Wilson's "Century Cycle" consists of 10 plays that span the black experience of the 20th century, as described here by writer John Lahr: "Their historical trajectory takes African Americans through the shock of

freedom at the turn of the century (*Gem of the Ocean*); to the reassembling of identity in the teens (*Joe Turner's Come and Gone*); the struggle for power in urban America in the 1920s (*Ma Rainey's Black Bottom*); the dilemma of embracing their past as slaves in the 1930s (*The Piano Lesson*); the promises made and broken to those who served in World War II (*Seven Guitars*); the fraught adaptation to the bourgeois values of the 1950s (*Fences*); the stagnancy in the midst of 1960s militancy (*Two Trains Running*); the disenfranchisement during the boom of the 1970s and 1980s (*Jitney* and *King Hedley II*); and the assimilation into the mainstream and the accompanying spiritual alienation of the 1990s (*Radio Golf*)." Students will engage Wilson's works through in-class discussion and presentation and out-of-class reading and research. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 312 America in the 1960s

3

Were the 1960s the apotheosis of American life or simply another period of transition and change? This course covers the "Long Sixties," a period (1957-1974) of dramatic social, political and cultural change that was identified — early on — as a special and, perhaps revolutionary, time in American history. We will look at the major moments that punctuated American life — the Civil Rights Movement, the Space Race, the Youth Movement and Counterculture, the War in Vietnam (just to name a few) — that made life after the 1960s different from life before. Get ready for freedom marches, tours of duty and acid trips as we uncover an American people who were experiencing the growing pains of maturing into a world power while still believing in individual freedom and equality. Tracking Americans in the 1960s as they soared to new heights and failed fantastically, you'll see everything from Martin Luther King, Jr., to the Woodstock Music Festival in a whole new way. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 313 Globalization in History

3

In the 19th century, the journey from London to Hong Kong (by sail) took more than three months. Today, a direct flight takes only 12 hours. Of the more than 7 billion people on our planet today, 40% have access to the Internet. One out of every 10 people on earth watched the FIFA World Cup Final at the same time, and Coca-Cola can be found in nearly every country of the world. We have increasingly become a globalized population, connected by new technologies of communications and transportation, integrated through economic and financial networks, and transformed by cross-border cultural and ecological exchange. Students in this course will explore the history of how the world, in Thomas Friedman's words, became "flat" (i.e., an interconnected global population) and rediscover their place in it. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 314 Renaissance and Reformation Europe 3

This course examines the intellectual, cultural and religious history of Europe during an era of significant social and political upheaval from the 14th through the 17th centuries. It explores the Renaissance in literature, the arts, philosophy and architecture, as well as the religious conflicts that emerged during the Protestant and Catholic Reformations in the 1500s. Students will have the opportunity to consider these cultural transformations against the backdrop of European social and political developments of this era: territorial state building, innovations in printing communications, expanding trade and commerce, and the advent of overseas empires. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 315 German History Since 1871 3

During the 19th and 20th centuries an ongoing drive to define the cultural and political boundaries of the German nation radically altered the trajectory of global affairs through two world wars and the threat of a third. This course explores modern German history from unification under Bismarck in 1871 through Germany's present-day role as the economic anchor of united Europe. It charts the dramatic social and political upheavals in the German Empire, the military disaster of World War I, the promise and peril of the Weimar Republic, and the murderous allure of Hitler's Third Reich and World War II. The course also traces the history of divided Germany through the Cold War to revolution in 1989, reunification, and the formation of the European Union. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 316 Modern Latin America and the Caribbean 3

This course explores the history of Latin America and the Caribbean — that vast and diverse region marked historically and culturally by Spanish and Portuguese colonialism — from the Wars of Independence to the present. Beginning with 19th-century independence struggles, the course charts the emergence of new nations, capitalist economies, immigration waves and the challenge of European and U.S. neocolonialism. It then highlights the role of race, class and gender conflicts in the growth of popular and revolutionary movements during the early 20th century as well as the rise of popular and authoritarian dictatorships in the context of world war and economic depression. It continues with an examination of Cold War clashes and the role of the United States in the region. The course concludes with the impact of democratization and globalization on contemporary Latin American politics, society and culture. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 317 Modern Middle East 3

What are the historical roots of the Iraq War? How can we explain the Arab-Israeli conflict? Why did ordinary people rise up against their governments during the Arab Spring? In this course, students will have the opportunity to explore these and other questions by surveying the emergence of the modern Middle East since 1800. The course examines the challenges and reforms of the late Ottoman era, European colonialism, nationalism, the Arab-Israeli conflict, the oil economy and sectarian divisions, as well as the rise of political Islam and the role of the United States in the region. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 325 Digital History 3

Digital technologies have revolutionized the production of and access to historical knowledge. This course introduces students to the methods, theories, and practices of digital history. Students also will learn about a wide variety of digital technologies currently used in the field, focusing on the creation of online educational resources (OERs). With this foundation of knowledge, students will then gain experience with the production and editorial processes of digital history, as they create, edit, fact-check, and submit historical work for publication on an OER platform. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester.*

HIS 330 Public History 3

This course takes on two essential themes, both designed to prepare students for a variety of careers that involve historical thinking. The first is the process of using local and community-based primary sources to do history; for example, public landmarks, memorials, museum holdings, and local archival materials (such as town records). In our case, it also includes the use of campus historical materials ranging from architecture to artifacts to yearbooks, catalogs, and other publications. The second theme is the act of doing history publicly, and so this course guides students into making history public through original work on websites, displays, performances, and presentations. Prerequisite: ENG 112 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other spring semester.*

HIS 335 History of Gender and Sexuality 3

This course explores how ideas about and social practices of femininity, masculinity and sexuality have developed since 1800 in the United States and Europe. Within this comparative regional framework, students will have the opportunity to learn about the changing social expectations that women and men faced and how they adopted, negotiated or rejected these expectations. Students also will consider how medical professionals, social scientists, moral reformers, educators and governments have sought to define and redefine gender and sexual norms across the past two centuries. This exploration takes students on a historical

F

journey through themes such as marriage, reproduction, work and the family as well as desire, love and intimacy. It will include discussions of body presentation and fashion. The course also will investigate the contradictory ways in which gender and sexuality have been used in the political arena as both instruments of control and a means to individual freedom of expression. *Prerequisite:* Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 395 History of Blues Culture 3

A survey of the genesis of and developments in blues music from the 19th century to the late 20th century. Musical innovation will be coupled with social and historical narratives for context, thereby highlighting the connections between social circumstance and musical expression. Blues music's roots in Western Africa and American slavery will be exposed. The historical narrative will carry the story of the blues through the Jim Crow era, and then cover diversification in blues music in the post-World War II era. *Prerequisite:* Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

HIS 495 Senior Capstone 3

The purpose of this seminar is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty in the bachelor's degree program. *Prerequisite:* Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

Homeland Security

HLS 126 Security and Risk Management 3

In this course students examine the principles and issues in security management (including cybersecurity) as well as the challenges, concepts, strategies, and skills needed to manage security-related operations and activities. Focus is on leadership in management, personnel management, security planning and evaluation, communication and best practices. *Offered on an as-needed basis in the fall semester.*

HLS 201 Homeland Security Studies 3

This course familiarizes students with the Department of Homeland Security (DHS), the organizations responsible for security in the United States (local, state, and federal levels), the many threats faced by these organizations, and the legislation that empowers the organizations to carry out their individual roles. This course also covers topics such as intelligence, national preparedness, and cybersecurity technology in combating threats to national security. Guided by the instructor and with the

assistance of the Campus Safety staff, students will conduct a security audit. *Offered on an as-needed basis.*

HLS 226 Sports and Special Events Security Management 3

This course presents a systematic approach to sports and event venue security. It deals specifically with natural disasters, terrorism, crowd control problems, and other large-scale threats that sports and event management face. It will examine the connections between providing a safe, secure environment for patrons and participants and the challenges faced by the many agencies and private contractors charged with the significant work of providing a safe environment and enjoyable experience. Students will obtain a basic overview of key topics related to multiagency collaboration, risk management, training, planning, exercising, and emergency management. By drawing on numerous examples from both in and out of sport, students will consider the challenges, solutions, best practices, and prescriptions for coordinating the efforts of staff, law enforcement, and security personnel. *Offered on an as-needed basis.*

HLS 301 Risk Analysis and Loss Prevention 3

This course provides students with an understanding of the risk analysis and management process — assessing security vulnerabilities and threats and how to address these systematically through an effective and efficient security management plan. The course also discusses loss-prevention strategies for organizations and how security management plans can minimize organizational losses. *Prerequisite:* HLS 126 or permission of the Dean of the School of Business. *Offered on an as-needed basis.*

HLS 305 Security Systems Planning and Operations 3

Using case studies, simulations and field observations, students in this course learn principles of security systems, equipment and technologies. Specifically, the course examines security surveys, physical design, barriers, locks, lighting, alarms, entry control, closed circuit television and digital recording systems. The overall process of physical protection system design and integration is also covered. *Prerequisite:* HLS 126 or permission of the Dean of the School of Business. *Offered on an as-needed basis in the fall semester.*

HLS 310 Emergency Management Planning 3

This course examines the knowledge required to plan for disasters which is critical in emergency management. Planning can make a difference in mitigating the effects of a disaster, including saving lives and protecting property, and helping a community recover more quickly from a disaster. This course is designed to teach future emergency management personnel in developing an effective emergency operations plan (EOP). Topics covered include selecting the planning team, the planning process, hazard analysis, and plan format. Emergency Management Planning includes the planning process, threat analysis and the basic plan;

introduces functional and hazard, threat, and incident-specific annexes; and covers implementing instructions. Prerequisite: CRM 110. *Offered on an as-needed basis in the spring semester.*

HLS 320 Human Disaster Resilience 3

The focus of this course will be on human behavior in both natural and human-made disasters, e.g., hurricanes, tornadoes, earthquakes, floods, chemical spills, nuclear power plant accidents, riots, etc. Students will become familiar with a broad range of topics including, but not limited to, the different stages of disaster response, how organizations and communities plan for and respond to disasters, myths regarding disasters, different governmental responses, and theoretical models explaining the dynamics of disaster response. Case studies of a number of disasters will be used to illustrate the material discussed. Prerequisite: CRM 110 or permission of the Dean of the School of Business. *Offered on an as-needed basis in the spring semester.*

HLS 325 Cyber Security & Intelligence 3

This course is a study of cyber security intelligence from its nascent stages to its current operational and policy impact. Students will explore the full range of cyber capabilities from exploitation to defense including several case studies that demonstrate the challenges and benefits of cybersecurity criminal intelligence operations. This course will demonstrate how cybersecurity criminal intelligence has changed the nature of intelligence collection, operations, and analysis across the U.S. intelligence and defense communities and criminal investigations. Prerequisite: CRM 110. *Offered on an as-needed basis in the fall semester.*

HLS 330 Certified Aggression Manager 3

At the completion of this course, each participant will receive a certificate as a Certified Aggression Manager (CAM). Students are taught the significance of the "Introduction to the Critical Aggression Prevention System (CAPS)," Aggression First Observer's training and role, Certified Aggression Manager's training and role, and finally the Ambassador's train-the-trainer concepts. The Ambassador better prepares a student to learn and more deeply understand the Certified Aggression Manager's roles in the Critical Aggression Prevention System (CAPS). The student will learn to identify and rank the precursors to bullying, harassment, abuse, and violence in order to provide the opportunity to prevent such incidents. Students engaging in the Critical Aggression Prevention System (CAPS) obtain the level of understanding to identify, report, track and diffuse aggressive behavior using scientifically validated objectives, and measurable observables. Certified Aggression Managers (CAM) are often members of a Threat Assessment Team, Behavioral Intervention Team, or someone on the front lines of aggressive behavior prevention. Our students become CAPS trained and receive a nationally recognized Aggression Manager's Certification from the Center for Aggression Management® and Dean College. *Offered on an as-needed basis.*

HLS 401 Crisis and Emergency Response Systems 3

This course provides an overview of emergency response and security plans for major events, including crowd management, perimeter and access control, vendor and contractor management, and consequence and crisis management. Students will also examine the role of Homeland Security and other federal emergency response agencies, as well as state and local emergency response agencies in disasters, the role of nongovernmental organizations in emergency management, the role of land use regulation, the media, crisis communication, insurance, citizen participation and the social and economic costs of disasters. Prerequisite: HLS 126 or permission of the Dean of the School of Business. *Offered every fall semester.*

HLS 495 Vulnerabilities and Threats 3

Students will be required to research and analyze Homeland Security, Criminal Justice and Security environments or current issues by examining ways in which vulnerabilities are identified, risk analysis, and the fundamental principles underlying critical infrastructure protection. Students will present their findings in a final paper or PowerPoint presentation or video that incorporates the knowledge, skills, and abilities acquired in the Criminal Justice and Homeland Security major. Prerequisite: CRM 110 and Senior Standing. *Offered on an as-needed basis in the spring semester.*

Honors Colloquium

HON 299 Honors Colloquium 3

The Honors Colloquium is an interactive multifaceted seminar on a designated special topic, utilizing perspectives from several disciplines. Through comprehensive readings, class discussions, presentations and written assignments, students will develop a nuanced understanding of the topic while also building their critical thinking and analytical skills. A collaborative group project will be presented to the campus community at the end of the semester. As an honors course, the rigor of the colloquia is comparable to those at the 300 level. Honors Colloquia are repeatable for credit if the topic is different. *Offered every semester.*

HON 399 Honors Colloquium 3

The Honors Colloquium is an interactive multifaceted seminar on a designated special topic, utilizing perspectives from several disciplines. Through comprehensive readings, class discussions, presentations and written assignments, students will develop a nuanced understanding of the topic while also building their critical thinking and analytical skills. A collaborative group project will be presented to the campus community at the end of the semester. As an honors course, the rigor of the colloquia is comparable to those at the 400 level. Honors Colloquia are repeatable for credit if the topic is different. *Offered every semester.*

Liberal Arts and Studies

LAS 415 Critical Theory 3

This course examines the most important themes in intellectual history since the end of the 19th century. The focus of the course will be major 20th-century theories representing multiple disciplines including psychoanalytic, Marxist, neo-Marxist, New Historicist, feminist, postcolonial, postmodernist, critical race, structuralist and various post-structuralist perspectives. In addition to critical reading and discussion, students will complete multiple writing assignments in which they will apply various theories to everyday phenomena. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

LAS 495 Senior Capstone 3

The purpose of the capstone is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty of the Liberal Arts and Studies bachelor's degree program. Prerequisite: Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

F

Mathematics

MTH 125 Mathematical Problem Solving in Performing Arts and Entertainment 3

This course is designed for students in the performing arts interested in using a problem-based learning model to build the foundation of skills they will need for the future careers. Throughout the course students will engage in practical problems around challenges that require the application of mathematical thinking and skills such as set design, the budgets of producing a show and determining how to set ticket prices. Ideas explored may include set theory (with Venn diagrams), units of measure, proportions, modeling techniques, using simple statistical analysis, development and interpretation of tables and graphs, and linear and exponential growth. *Offered on an as-needed basis. Fulfills the Core Mathematics requirement.*

MTH 130 Introductory Statistics 3

Topics include descriptive statistics, measures of central tendency and dispersion, probability rules and probability distributions, the central limit theorem and simple hypothesis testing. Application to real-world problems is stressed throughout the course. *Offered every semester. This course fulfills the Core Mathematics requirement.*

MTH 150 Foundations of Quantitative Reasoning 3

Mathematical skills spanning algebra, geometry and basic descriptive statistics are embedded in a series of challenges facing adults in today's world. The course provides students with the background information and mathematical skills essential for personal financial and consumer literacy. Finance topics include compound interest and its relationship to savings and debt (credit cards, student loans, mortgages), balancing a bank account, essential personal taxes, stocks, bonds, and investment planning. An exploration of the federal budget will be included. The course introduces the quantitative basis for statistical surveys (fundamentals of preparing and reading tables, graphs and charts), unit conversion skills and geometrical principles used in simple building projects. The process of rigorous mathematical thinking (inductive, deductive and algorithmic) is emphasized. *Offered every semester. This course fulfills the Core Mathematics requirement.*

MTH 151 Precalculus I 3

This course is the gateway to the study of higher mathematics. It is useful preparation for courses with quantitative content. Topics include rational expressions and equations; radicals and exponents; linear, quadratic and polynomial functions; function theory and graphing; introduction to function composition and inverse functions; exponential and logarithmic functions; and an introduction and application of trigonometry concepts. *Offered every fall semester. This course fulfills the Core Mathematics requirement.*

MTH 152 Precalculus II 3

This course provides an overview of those topics in algebra and trigonometry that are needed for calculus and the physical sciences. Topics include basic algebra and graphing techniques, function and inverse function theory, exponential and logarithmic functions, and trigonometric functions and graphs. Prerequisite: A grade of a "B" or better in MTH 150; or a grade of "C-" or better in MTH 151, by math placement, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester. This course fulfills the Core Mathematics requirement.*

MTH 160* Organizing Principles of Mathematics in Art 3

Mathematics is a universal and fundamental principle upon which life is organized; if art and music are intrinsic components of the human experience, then we can explore their mathematical relationships. Throughout the ages, mathematics has been used to produce works of art. Number systems, patterns, art forms and aesthetics are different between cultures – these connections, cultural beliefs and conventions will be explored. Students will learn the mathematical concepts necessary to understand how math is embedded in art. While quantitative thinking and mathematical systems will be explored and formulas employed, this course will not emphasize mathematical skills. While art has been used to expand mathematical knowledge, it has also

been used to analyze art, for example, classifying figures based on their symmetry, and studying 17th-century Japanese woodcuts and abstract expressionists such as Jackson Pollock. Revolutions in art and in mathematics have often been closely tied. The Renaissance in art was preceded and, to some extent, made possible by the Renaissance in mathematics. Prerequisite: ENG 111 and Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

MTH 165* The Mathematics of Chance: The Odds of Winning **3**

This course presents the mathematics underlying games of chance and provides a precise account of the odds associated with many gaming events. It begins by explaining in simple terms the meaning of the concept of probability for the layman and goes on to become an enlightening journey through the mathematics of chance, randomness and risk. This course is also intended to demonstrate the mathematical theories behind gambling and games of chance while integrating knowledge set into the societal context of casino development and gambling addiction. Topics explored will include the various forms of gambling today and the math principles and counting techniques upon which they are based. Games will be examined for both their fundamental principles and the math tricks and tools that successful players bring to these games. In conjunction, the local- and state-level economics of casinos and the gaming industry will be discussed. The goal is mainly to make students more quantitatively literate. Prerequisite: ENG 111 and Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

MTH 241 Calculus I **4**

Introduces students to the concepts and contexts of calculus, with an emphasis on techniques and applications. Topics include: inverse functions theory; transcendental functions, including exponential, logarithmic and inverse trigonometric functions; limits; continuity theory; derivative functions; techniques of differentiation; applications of the derivative to real-world situations; L'Hopital's Rule; and anti-derivatives. Prerequisite: A grade of "C-" or better in MTH 152, by math placement, or permission of the Dean of the School of Liberal Arts. *Offered every fall semester. This course fulfills the Core Mathematics requirement.*

MTH 242 Calculus II **4**

A continuation of *Calculus I*, including: the Fundamental Theorem of Calculus, the definite integral with applications from geometry, physics and biology; techniques of integration; introduction to differential equations; infinite sequences and series; and Taylor Series. Prerequisite: A grade of "C-" or better in MTH 241, by math placement, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester. This course fulfills the Core Mathematics requirement.*

Music

MUS 103 Introduction to Music **3**

This course provides students with an overview of music in the West, from its origins to current practice, by giving an introduction to basic musical concepts and terminology and developing the student's ability to listen to music through study and individual interpretation. Field trips: \$45. *Offered on an as-needed basis.*

MUS 122 Applied Music **1**

Twelve 50-minute voice lessons (for all but Musical Theatre majors; these students must enroll in MUS 124) or instrumental lessons. Open to all students. Instructors are selected by the Applied Music Coordinator. Fee: \$600. May be repeated for credit. Prerequisite: Consent of the Applied Music Coordinator. *Note: If a student drops the course during the first two weeks of lessons, the student is financially responsible for those two weeks of lessons. If a student drops the course after the first two weeks of lessons, the student is financially responsible for the entire semester of lessons. Please note that a class has not been officially "dropped" until the Office of the Registrar has received all completed paperwork. Offered on an as-needed basis.*

MUS 124 Applied Voice **1**

Twelve 50-minute vocal lessons for Musical Theatre majors given by instructors as selected by the Applied Music Coordinator. Fee: \$600. Prerequisite: Consent of the Program Coordinator of Vocal Pedagogy and acceptance into the Theatre program in Musical Theatre. May be repeated for credit. *Note: If a student drops the course during the first two weeks of lessons, the student is financially responsible for those two lessons. If a student drops the course after the first two weeks of lessons, the student is financially responsible for the entire semester of lessons. Remember, "Drops" do not become official until the Registrar's Office has received all completed paperwork. Offered every semester.*

MUS 150* The Roots of Popular Music **3**

This course is an in-depth study of the origins of popular music in the 20th century and the social and historical context that gave birth to it and related genres and musical offshoots. From blues and country to punk and heavy metal, students will familiarize themselves with landmark groups, music and movements of different periods, exploring connections between modern music and the artists from the past that have paved the way for the popular music of today. Prerequisite: ENG 111 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

MUS 181 Fundamentals of Music **3**

Skills of reading music, meter and rhythm, intervals, scales and common chords, correlated sight-singing, and ear training. Students must complete MUS 181 with a "C-" or better by the end of their second semester to continue in the Musical Theatre track. Students with prior music theory training may opt to test out of MUS 181. If they do test out, they would continue in the Musical

Theatre track and would take an open elective in place of MUS 181. *Offered on an as-needed basis.*

MUS 243 American Musical Theatre 3

Introduces and encourages students to explore the elements, form and history of American Musical Theatre. Emphasis is placed on the various aspects of the musical theatre. The student will learn the contribution of this theatrical genre to the world of theatre including the major musicals, their composers, lyricists, librettists, directors, choreographers and performers. Theatre tickets: \$45. *Offered every spring semester.*

Peer Tutoring

PTU 102 Introduction to Peer Tutoring 1

Students train to become peer tutors in Dean's Morton Family Learning Center. Students will learn about the role and responsibilities of a tutor, how to carry out and evaluate sessions, and how to develop effective and ethical tutoring techniques. An excellent course for students interested in becoming teachers, counselors or social workers. Writing tutors who complete PTU 102 will be eligible to apply for peer tutoring jobs the following semester. May be repeated for credit. *Offered every semester.*

PTU 122 Peer Tutoring II 2

A continuation of PTU 102 for content tutors only. Students will further develop tutoring skills, and increase their knowledge of learning and teaching styles. Content tutors who complete PTU 102 and PTU 122 are eligible to apply for Work-Study jobs as peer tutors in the Morton Family Learning Center. May be repeated for credit. *Offered every semester.*

Performing Arts

PFA 125* Performance Studies 3

This course focuses on the critical terms and practices of the contemporary study of performance. Several key concepts and important genres of artistic and social performance will be engaged through an in-depth analysis of live and recorded performances as well as performance texts. The course will draw interdisciplinary methodologies from anthropology and ethnography in addition to employing concepts from literary and cultural theory. Projects combine written and performance elements to help students develop a scholar-practitioner understanding of the concept of performance in theatre as well as in rituals, religions, political events and other public forums. Prerequisite: ENG 111 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

PFA 150* Experiencing the Performing Arts: How to Watch and How to Listen 3

A historical survey of the arts of dance, theatre and music that develops an understanding and appreciation of representative works in the three fields, the place of

these arts in contemporary society, and the contribution the performing arts make to a richer life. Students will learn how to describe, analyze, interpret and evaluate the performing arts in order to move beyond a "that was cool — not sure why" reaction to a more detailed and satisfying understanding of a work. Attendance required at specified performances. Prerequisite: ENG 111 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

PFA 230* The Arts and Film from 1960 to Present 3

This survey course explores art, music, dance, film and theatre from 1960 to the present. The course finds commonalities and distinctions between the art forms that reflect historical trends. For example, students will study the films by Franco Zeffirelli and Baz Luhrmann's *Romeo + Juliet*, considering how they compare in light of society, art and culture; study the graffiti art of Jean Basquiat and Keith Haring; and performance studies through readings of Grotowski and performance art, folk rock music (Springsteen), rock (Hendrix, Joplin) and hip hop pop (Jay-Z and Lady Gaga); and dance (Alvin Ailey and Merce Cunningham). This course emphasizes the theoretical and has a strong writing component; it is recommended that students first take PFA 150. Prerequisite: ENG 111 or permission of the Dean of the School of the Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

PFA 250* I-Arts: The Arts in the Internet Age 3

From interactive installations to "mashups," digital technology has revolutionized the way we produce and experience art today. Artists using digital techniques and media have radically transformed art and created entirely new forms. This course will explore this dynamic spectrum with a focus on media and performance. Prerequisite: ENG 111 or permission of the Dean of the School of Dance. *Offered on an as-needed basis. This course fulfills the Core Distribution Arts requirement.*

Philosophy

PHL 100 Critical Thinking 3

This course is designed to help students develop their skills in critical thinking, problem solving, perception, believing and knowing, and the use of language as a system and a tool. This course is further designed to help students analyze, synthesize, and evaluate arguments and construct their own arguments in problem solving. *Offered on an as-needed basis.*

PHL 101 Introduction to Philosophy 3

This course examines some of the basic issues in philosophy, such as arguments for the existence of God, the nature of knowledge and reality, the nature of the mind and the self, the foundation of ethics and society, and the justification for scientific inductive reasoning. These problems are addressed, for the most part, through a historical approach by examining the views

held by central figures in the field over the past two millennia. Reading, discussion and writing are an integral part of the course. *Offered on an as-needed basis.*

PHL 115 Ethics

3

This course introduces students to the academic discipline of moral philosophy by examining its central questions, including the following: What is the nature of good and evil, of right and wrong, of freedom and responsibility? Can morality be objectively quantified? Can any given action be declared either a right or an obligatory act? What systems of moral decision making bring enlightenment to the investigation of ethics? This course will approach these topics historically and philosophically with the use of classic and contemporary writings, student discussions, and case studies in current moral dilemmas including controversial choices in medical ethics, the impact of technology on freedom and responsibility, actions of civil disobedience or of war, and ethics in the workplace. *Offered on an as-needed basis.*

PHL 120 Business Ethics

3

This course introduces students to the subject of ethics and how ethics finds particular application in the field of business. Students will briefly discuss the following ethical views: cognitivism vs. noncognitivism, utilitarianism, deontology, egoism and virtue ethics. These views will then be applied to the following business-related topics: corporate responsibility, employee responsibility, employer-employee relations, marketing, technology and privacy, and affirmative action, among others. *Offered on an as-needed basis.*

PHL 130 Symbolic Logic

3

This course introduces students to the basic concepts and ideas of symbolic logic. Logic is the study of reasoning and arguments; logical thinking allows us to examine the validity of an argument. Symbolic logic utilizes formal, mathematical symbols to follow a line of argument. Students will be introduced to the formal rules and applications of deductive reasoning, such as truth tables proofs to evaluate the validity of arguments in mathematics, computer science business and the social sciences. This study will enrich a student's understanding of the role mathematics plays in a wide range of fields and will position them to use these tools to deepen their critical thinking and problem-solving skills. *Offered on an as-needed basis. This course fulfills the Core Mathematics requirement.*

PHL 215* Beliefs and Behaviors: Comparing the World's Religions

3

Beliefs about where we came from, who we are, how we should relate to others, or how we should prepare for an eternal future, have certainly shaped our history in many ways. The goal of this course is to benefit from a systematic and objective investigation of the key beliefs, practices and cultural implications of each of the five major religions of the world: Hinduism, Buddhism, Islam, Judaism and Christianity. Students will build a base of knowledge about the religions of the world, be able to compare their similarities and differences, and apply

these insights to the personal journey of living in a diverse world. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Humanities requirement.*

Physical Science

PSC 150* Water Wars: From Properties to Distribution

3

Water is both essential for all life on Earth and a limited natural resource. Some believe the next war will be fought over water resources. Understanding the scientific importance and geological distribution of water helps define looming geopolitical issues and conflicts. The fundamental concepts, terminology and applications of water chemistry, biology, geology, oceanography and ecology will be explored. Students will develop their critical-reasoning skills and gain experience reading and analyzing primary scientific articles as well as articles and editorials in the popular press. The process of rigorous scientific thinking will be emphasized. Prerequisite: ENG 111 and Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

PSC 181* The Science of the Environment: Sustaining the Planet

3

Will Earth be able to support 12 billion human beings by the year 2050? Can changes in the way one person uses energy or recycles really help save the environment? Environmental science is an interdisciplinary science that focuses on the interactions between humans and our environment. This course will expose students to a variety of current environmental issues including human population growth, water and soil degradation, agriculture and production of food (including genetically modified organisms), fossil fuel and renewable energy, global climate change, biodiversity and sustainability. Select topics from chemistry, biology and the physical sciences will also be studied to provide an understanding of scientific principles underlying these environmental issues. Critical thinking and assessing the portrayal of environmental issues in the media will be stressed. Hands-on activities will help students understand theoretical principles and provide useful analytical skills. Students will research a topic selected in consultation with the instructor and will present results in a poster session or PowerPoint presentation at the end of the semester. Prerequisite: ENG 111 and Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

F

Physics

PHY 151 General Physics I 4

This course is a calculus-based introduction to fundamental principles of physics with an emphasis on mathematical modeling. Topics include: the use of vectors, kinematics in one and two dimensions, Newton's laws of dynamics, the relationship between energy, work, force, and power, momentum, rotational motion, angular momentum, torque, and an introduction to thermodynamics including: heat capacity, energy transfer, and ideal gas behavior. Lecture and laboratory meet separately each week. The laboratory emphasizes basic techniques in data collection and analysis. Prerequisite: A grade of "B" or better in MTH 240 or a grade of "C-" or better in MTH 241, or placement above MTH 241, or permission of the Dean of the College of Liberal Arts. Lab fee: \$75. *Offered on an as-needed basis in the spring semester. This course fulfills the Core Lab Science requirement.*

F

Political Science

POL 150* Protests: Peril, Power and Progress 3

Across the globe and here in the United States, compelling portraits of social justice and human rights struggles challenge and compel us to answer tough questions about equality, the cost of war and the price of freedom and justice. Students will explore the social, political, legal and historical contexts of selected social justice and human rights conflicts, and protests and movements in the United States and around the world. We will wrestle with the ideal and the reality of justice, peace, human rights, civil liberties, civil disobedience, democratic beliefs and values and the balance between security/public safety and individual freedoms. The focus will be on creating and protecting the right to engage in forms of nonviolent expression that may push the limits of tolerance, invite dispute, challenge the beliefs of the majority or powerful minority and serve as a catalyst for change. Coursework will include analysis of films and other primary and secondary sources including stories, text, music and lyrics. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

POL 211* American Government 3

An analysis of American democratic institutions and the process of government including such topics as: the Constitution, the principles and philosophies that underlie the American form of government, civil liberties and civil rights, political parties, campaigns, elections and voting behavior, and the functions and interrelationships of the branches of government. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

POL 215 Civil Rights and Liberties 3

The study of law governing American civil rights and liberties, primarily through decisions of the United States Supreme Court, in a political and historical context. Emphasis will be on the following areas: First Amendment freedoms of expression (speech, press, assembly); freedom of religion; equal protection of the laws and discrimination (race, gender, class, sexual orientation and disability); the right to privacy; and the rights of the criminally accused. *Offered on an as-needed basis.*

Psychology

PSY 100 Learning and Development 3

This course teaches students about themselves, about the learning process, and how to take responsibility for successful learning. Designed to provide students with the skills for positive personal growth, this course builds on a psycho-social development framework. Students will view the component of goal setting and achieving those goals in both academic and professional settings. Through discussion, small group projects, self-exploration and reflection, students will examine their individual learning strengths and weaknesses common to the psychology of success. *Offered on an as-needed basis.*

PSY 111 General Psychology 3

This course introduces students to the scientific discipline of psychology and prepares them for advanced coursework in the field. Students will study various perspectives of psychology: biological, behavioral, cognitive, psychodynamic, and humanistic. Topics may include historical developments and theorists, research methods, biological systems, sensation, perception, learning, memory, human development, psychological disorders, psychotherapy, and social psychology. *Offered every semester.*

PSY 134* Positive Psychology 3

This course introduces positive psychology and its focus on identifying, assessing, and building human strengths. This course explores personal and institutional conditions that optimize character development, relationships, and human potential. In addition, students will identify and develop their own strengths and skills. Topics may include life satisfaction, optimism, self-efficacy, character, flow, gratitude, and creativity. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

PSY 153* Psychology of Creativity 3

Human creativity stands at the core of the human experience. It plays a key role in the type of societies we create, the types of inventions we come to rely on and the works of art and performances we love; in fact, creativity can be found in nearly every domain of human activity. This course reviews current theories, research and applications of this rapidly evolving and fascinating field of study; specifically, as tied

to the field of psychology. Students also learn what they can do to enhance their own creative processes. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

PSY 155* Human Sexuality 3

This course surveys human sexuality in its biological, psychological, spiritual and social contexts. Topics may include: sexual anatomy, physiology of human sexual responding, love, intimacy, sexual communication, contraception, sexual behaviors, sexual problems and solutions, sexually transmitted infections, conception, sexual orientation, sexual development throughout life, sexual aggression and violence, paraphilia, prostitution and pornography. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

PSY 166* Mindfulness 3

What is mindfulness? This course will both answer the question and provide techniques for its practical use. Learn the principles and various approaches to contemporary mindfulness in its broad, historical context. You will understand its theoretical applications and be able to implement it in your own life. We will study prominent, published mindfulness and stress-reduction research by scientists and world-renowned mindfulness teachers. We will explore complementary practices such as yoga and meditation. We will begin a daily practice and document its effects through in-class discussion and writing assignments. You will emerge from this course better equipped not only for academic success, but for all that life brings. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester. This course fulfills the Core Distribution Social Sciences requirement.*

PSY 170* Understanding Fan Behavior: A Sociological and Psychological Perspective 3

Have you ever wondered why people spend hours watching sports, memorizing statistics, driving hours to away games, or painting themselves in team colors? Why do fans become aggressive toward the opponent's fans? How many people are removed from professional sporting events for disorderly conduct? This class will delve into the social, psychological, cultural and historical perspectives of fan behavior. Students will examine case studies and historical events from the popular media in conjunction with personal observations to analyze these concepts. This course is cross-listed with SOC 170. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered at least once a year. This course fulfills the Core Social Distribution Sciences requirement.*

PSY 202 Human Development: A Lifespan Perspective 3

This course introduces developmental psychology and studies the physical, cognitive, and social aspects of human development from conception to death. Students will develop an understanding of various developmental theorists and will apply a biopsychosocial model to understand developmental issues and milestones associated with each stage. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 211 Child Development 3

This course examines the physical, cognitive, and social aspects of child development from conception to late childhood (10 years old). Students will develop an understanding of various developmental theorists and will apply a biopsychosocial model to understand developmental issues and milestones associated with childhood. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 234 Learning and Memory 3

This course examines various theories about how people learn information and behaviors along with their ability to remember. Topics may include the brain substrates involved in learning and memory, research, types of learning and memory, intelligence, and motivation. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

PSY 240 Cognitive Psychology 3

How do we think, communicate information, make decisions, solve problems, perceive the world around us, and remember our past? In this course students will learn the theories, methods, and concepts of cognitive psychology and explore topics including consciousness, perception, attention, memory, emotions, decision making, problem-solving and reasoning. Prerequisite: PSY 111. *Offered every fall semester.*

PSY 241 Adolescent Development 3

This course examines the physical, cognitive, and social aspects of adolescent development from early to late adolescence (11-21 years old). Students will develop an understanding of various developmental theorists and will apply a biopsychosocial model to understand developmental issues and milestones associated with adolescence. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 245 Research Methods in the Social Sciences 3

This course is an introduction to the fundamental concepts, methodology and application of the research process in the social sciences. The major methodologies in research, both quantitative and qualitative, are considered. Students are introduced to the essential ideas in contemporary research, including how to conceptualize a study and how to review relevant

literature, sampling methods and options, measurement methods and how to determine their quality (reliability and validity), various research designs, basic data analysis methods and ethical issues in research. This course is cross-listed with SOC 245. Prerequisite: MTH 130. *Offered every spring semester.*

PSY 250 Social Psychology 3

This course introduces students to social psychology: the way people think about, influence, and relate to one another. Students will examine various issues and research associated with social psychology. Topics may include social cognition, culture, gender, conformity, persuasion, group influence, prejudice, aggression, attraction, and helping. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 310 Family Psychology 3

This course introduces students to the field of family psychology. Students will examine research on families and learn to view families from various perspectives. Students will study the development, functioning, interactional patterns, relational systems, and structure of various families. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester.*

PSY 320 Counseling Psychology 3

This course introduces students to the field of counseling. This theory-based course explores the therapeutic process and different models of counseling along with counseling techniques used by those models. In addition, it introduces students to various approaches to counseling (individuals, groups and families), and it provides opportunities for students to develop essential therapeutic and communication skills. Furthermore, it examines various personal and professional issues related to counseling. Prerequisite: PSY 111 and one 200 level Psychology course or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 325 Professional Orientation to the Human Services 3

This course explores the profession of human services practice across a diverse range of settings and with various service populations. It will introduce students to the basic skills and duties of human service practitioners (e.g., interviewing, assessment, and case management skills). Additional focus will be placed on the ethical and evidence-based delivery of services to clients and consumers in applied behavioral analysis, rehabilitation, recovery, life coaching, school, and public agency settings. Last, students will explore their own interests and strengths in relation to the spectrum of practice settings presented over the course of the semester. Prerequisites: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 332 Personality 3

This course introduces students to the study of personality. Students will examine the major theories of personality: psychoanalytic, neo-psychoanalytic, humanistic, behavioral, cognitive, and trait theory. In doing so, students will explore the historical contexts and the psychologists who developed these theories. Topics may include key concepts, research, personality development, personality assessment, and, to a lesser degree, method of therapy. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

PSY 333 Abnormal Psychology 3

This course introduces students to understanding, diagnosing, and to a lesser degree, treating human distress and disorders. Students will become familiar with the current version of the *Diagnostic and Statistical Manual of Mental Disorders (DSM)* and use a biopsychosocial perspective to understand various case studies. Topics may include these disorders: anxiety, depression, bipolar, substance use, dissociative, feeding and eating, disruptive, impulse control, conduct, schizophrenia, psychotic, and personality. Prerequisite: PSY 111 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

PSY 334 Brain and Behavior 3

This course examines the effects of basic neurological functions on behavior. Concepts include nerve cells and nerve impulses, communication at synapses, anatomy of the nervous system, plasticity of the brain, mechanisms of perception, wakefulness and sleep, the role of physiology on emotional behaviors and psychological disorders, and drug use and abuse. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 335 Psychology of Sport 3

Psychology of Sport is an application of the scientific method in studying the impact of relationships within the culture of sports. This course offers a global perspective and a broad base of knowledge on topics such as social relationships, communication, coach leadership, team cohesion, motivation and motivational climate, audience effects and morality in sports. Interactions and dynamics that affect sport performance and the sport experience for youth and adults will be addressed. This course delves into established areas of interest such as group dynamics, coach-athlete and peer relationships, and topics such as relational efficacy, stereotypes, gender, race and cross-cultural issues. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every semester.*

PSY 336 Exercise Psychology 3

This course provides an overview of the psychological health effects of exercise. Emphasis will be placed on selected topics regarding the impact of exercise on anxiety, body image, depression, emotional well-being, self-esteem, and stress. Prerequisite: PSY 111 and junior

or senior standing or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

PSY 345 Psychology of Extremism 3

This course examines the social psychological, sociological, and cultural forces that influence people to adopt ideological viewpoints and to engage in behaviors ranging from the counterintuitive to acts of terrorism. It explores the attitudinal and psychosocial bases of conflict and seeks to address the sources of inhumane behavior. Study of classic social science research is applied to contemporary world events. Students will study and present their research on extremist groups and movements. Included are the lessons of social sciences in combatting extremism. The course includes a long-form component. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

PSY 350 Culture and Psychology 3

This course explores a recent focus in social psychology, the investigation of human cognition and behavior across cultures. Topics include: building a conceptual framework for cross-cultural psychology; understanding methods of cross-cultural research; examining cognition and behavior that is universal and cognition and behavior that is culture specific; understanding human development and education across cultures; and factors in cultural diversity including sex, gender, race, individualism and collectivism, intelligence and acculturation. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

PSY 355 Psychology of Religion 3

This course investigates the psychology of religion from various perspectives (phenomenological, empirical and sociological). Students will explore the role of religion as a powerful meaning-making system that affects people's beliefs, motivations, emotions, behaviors and relationships. Topics may include prayer, meditation, mental health, mysticism, religious experiences, spirituality, and personal development. Prerequisite: PSY 111 and junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester.*

PSY 495 Senior Capstone 3

The purpose of this seminar is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty in the bachelor's degree program. Prerequisite: PSY 245, Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

Research Experience

The Research Experience Variable

By participating in the research experience course, students who are interested in career paths in research and academia can engage in a formal guided research experience under the mentorship of a faculty member. This course is a chance for students to gain applied research experience that will prepare them for both graduate school and their careers. These courses are offered at the upper-division level (386 or 486 in the discipline), for variable credit (contingent on the level of the student's involvement in the research) and meet the Dean Career Advantage program's career-intensive experience requirement. They may be offered in any of the disciplines offered by the College, and the three-letter code of the course number will indicate the discipline (for example, PSY is Psychology, DAN is Dance). Prerequisite: completed and approved proposal (this must include the research topic and purpose, initial research question and initial proposed methodology); junior/senior standing; matriculated in a Dean College degree program; cumulative GPA of 3.000 or higher; and permission of the sponsoring faculty member, the appropriate School Dean, and the Assistant Vice President of Academic Affairs. If the proposed research involves human subjects, approval of Dean College's Institutional Review Board is also required. A course fee may apply. *Offered on an as-needed basis.*

F

Science

SCI 265* History of Science 4

Our modern world is built on a foundation of science and technology. How did we get here? This course investigates how human beings have used reason and experimentation to explain and manipulate the natural world from the ancient period to the present, focusing on the past 500 years. We will locate the Scientific Revolution of the 1500s and 1600s and the modern physical and mathematical sciences that it inspired within an older, multi-cultural story of science history. We also will explore how science and technology have transformed politics, economies, and societies in world history. In a concurrent lab, students will have the opportunity to walk in the shoes of past scientists, reproducing pivotal experiments from history and experiencing key scientific discoveries firsthand. Lecture and laboratory meet separately each week. Must be concurrently enrolled in lab. This course is cross-listed with HIS 265. Prerequisite: ENG 111, Core Mathematics requirement; or permission of the Dean of the School of Liberal Arts. Lab fee: \$75. *Offered on an as-needed basis. This course fulfills the Core Distribution Natural Sciences and Mathematics requirement.*

Sociology

SOC 113 Introduction to Sociology 3

This course examines the influences of society on human behavior. Sociologists take a unique perspective in understanding how our thoughts, actions and feelings are affected by our social world. Through scientific research, sociology provides us with valuable information about ourselves and our world that can then be the basis for advocating for social change. Sociology includes a range of specialty areas including marriage and the family, education, politics and economy, gender, race and ethnicity. This course will introduce you to basic sociological concepts such as culture, socialization, social class, inequality, and social stratification. *Offered every semester.*

SOC 170* Understanding Fan Behavior: A Sociological and Psychological Perspective 3

F Have you ever wondered why people spend hours watching sports, memorizing statistics, driving hours to away games, or painting themselves in team colors? Why do fans become aggressive toward the opponent's fans? How many people are removed from professional sporting events for disorderly conduct? This class will delve into the social, psychological, cultural and historical perspectives of fan behavior. Students will examine case studies and historical events from the popular media in conjunction with personal observations to analyze these concepts. This course is cross-listed with PSY 170. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered at least once a year. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 203* Sociology of the Family 3

This course explores many questions including the following: What is a family? What is the relationship between family and economic, political and cultural change? How do families vary by social class and race/ethnicity? How do people form romantic relationships? How do people balance work and family? How have the attitudes, expectations, and behaviors surrounding dating, childbearing, marriage, divorce, and remarriage changed? Theoretical perspectives on the family are supplemented with examples of change and variation in families and households. A sociological perspective will help us place our private individual experiences in families within this broader context. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 205 Criminology: Theories of Crime 3

Why do some people commit crime? Why do some people become crime victims? This course explores the prominent theories used to answer these questions and explain criminal behavior and victimology. Biological, psychological, environmental, sociological (social, political, economic) and integrated theories of deviance and delinquency will be compared and contrasted. The

course will take an applied crime theory approach as students examine and discuss the crime prevention, control and treatment policies that relate to each major crime theory. This course is cross-listed with CRM 205. Prerequisite or corequisite: SOC 113 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*

SOC 214* Sociology of Culture and Popular Culture 3

"Culture" has many meanings. It can describe a cumulative way of life; the creations associated with the arts, and the beliefs, values, behaviors and possessions of a group. This course uses the sociological perspective to explore these different definitions as well as the production and consumption of culture and popular culture. It is organized around three guiding questions: What cultural patterns are found in various groups and institutions? What are the social origins of culture and popular culture? What influence do culture and popular culture have on society? Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every other spring semester. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 225* Health and Illness: A Sociological Perspective 3

This course uses sociological concepts, perspectives and research methods to examine the socio-cultural aspects of health and illness, including disease prevention, diagnosis and treatment. The course explores the epidemiology and social demography of health, examines the behaviors associated with health and illness, and reviews the experience of illness in various groups. Case studies are used to explore health care practitioner-patient interaction and medical ethics. The course also addresses health care delivery systems and social policies regarding medical care in the United States and around the world. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 230* Deviance, Conformity & Social Control 3

Who follows the rules and who breaks them? Who makes the rules? Who determines who and what is considered deviant and why? An emphasis is placed on understanding the social construction of such definitions as well as the social consequences for those whose behavior is judged as deviant. In this course, we will examine the various sociological theories regarding conformity and deviance, as applied to significant current events. We will also explore how various social institutions attempt to demand conformity and social control over deviant behavior. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every other spring semester. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 245 Research Methods in the Social Sciences**3**

This course is an introduction to the fundamental concepts, methodology and application of the research process in the social sciences. The major methodologies in research, both quantitative and qualitative, are considered. Students are introduced to the essential ideas in contemporary research, including how to conceptualize a study and how to review relevant literature, sampling methods and options, measurement methods and how to determine their quality (reliability and validity), various research designs, basic data analysis methods, and ethical issues in research. This course is cross-listed with PSY 245. Prerequisite: MTH 130. *Offered every spring semester.*

SOC 255* Social Inequality and Stratification**3**

This course explores inequality in the United States within a global framework. The class focuses on the major dimensions of social inequality: class, race and ethnicity, sex and gender, sexuality and disability. It explores the causes, consequences and lived experiences of inequality and stratification. The course will also examine theories of social inequality and historical and current attempts to reduce or eliminate it. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 260* Technology and Society**3**

This course examines the role of technology in society. Students will discuss multiple definitions of technology, as well as gain an understanding of the power and potential consequences of specific technologies. Using reading, writing and discussion, this course also explores the impact of technological development upon social life and culture, as well as how technology both contributes to and results from social change. Prerequisite: ENG 111 or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis. This course fulfills the Core Distribution Social Sciences requirement.*

SOC 317 Visual Sociology**3**

Visual sociology is an area of sociology devoted to the examination of the visual elements of social life and involves the use of photographs, film and video to analyze society and culture. This course provides a sociological lens to study the social meanings embedded in images and to appreciate their powerful influence. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester.*

SOC 320 Public and Applied Sociology**3**

This course will investigate what sociologists can do using their knowledge, tools and skills. Students will study the work of public sociologists, who address problems in society by making research accessible to a wider audience and by being social activists working in community-based organizations, nonprofit agencies and social movements. In addition, the course covers

the work of applied sociologists, professionals who use the principles of sociology to identify and attempt to find solutions for social problems and to improve the current state of social life. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

SOC 324 Juvenile Justice**3**

This course provides an understanding of the causes and the consequences of juvenile delinquency. Students will explore purpose, organization and function of the juvenile justice system. Case studies will be used to understand juvenile offenders as individuals within and influenced by social structures such as gender, race/ethnicity, family, school and social class and to identify promising practices and crime control policies directed at delinquency prevention, intervention and treatment. This course is cross-listed with CRM 324. Prerequisite: Junior or senior standing. *Offered on an as-needed basis.*

SOC 330 Mass Media and Society**3**

Using extensive content analysis, this course takes a critical approach to the study of the production and consumption of mass media, focusing on both the media industry in the United States and emerging forms of global media. The course will examine the economic and social organization of mass media, the content of media messages, the relationship between media and the public, the growth of new media technologies, and current dilemmas facing media policy makers. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered on an as-needed basis.*

SOC 345 Drugs and Society**3**

This course will explore drug use in a historical context, how the definition of legal and illegal drugs has changed over time, and the major theoretical frameworks that have emerged to explain drug use and abuse. In addition, this course will examine drug policies and attempts at regulation, look at how the media shapes our perceptions of drugs, and address current sociological drug issues. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other fall semester.*

SOC 350 Social Movements and Collective Behavior**3**

This course explores the historical origins of what we today call social movements, how they have changed over time, how they help to create social change, and the major theoretical frameworks that have emerged to explain them. In addition, this course examines the behavior of human crowds and masses in extraordinary circumstances, including crowd panics, mass scares, collective protests, riots, revolutionary situations, crazes, fads and fashions. The major project for the course involves students comprehensively analyzing a single social movement. Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. *Offered every other spring semester.*

SOC 355 Consumer Culture 3

Were you “born to buy”? What was the last product you bought? In this course, we will take a sociological approach to studying consumers, products and consumption. We will explore the development of consumer societies and outline the different methods we use to consume in modern society. How much “stuff” do you have? How much do you want? How much do you need? We will consider the different theories that explain consumer behavior and study the positive and negative consequences of living in a consumer culture. We will also examine the personal choices we make, consider the ways those choices are manipulated, and investigate the social forces that regulate consumer behavior and consumer societies. Is everything in society for sale? Are you? Prerequisite: Junior or senior standing, or permission of the Dean of the School of Liberal Arts. Offered every other spring semester.

F SOC 495 Senior Capstone 3

The purpose of this seminar is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one’s own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of the research results to the faculty in the bachelor’s degree program. Prerequisite: SOC 245, Senior standing or permission of the Dean of the School of Liberal Arts. Offered every fall semester.

Special Topics

These courses address a special topic in a designated discipline area that is offered at Dean College, using current theories in that area to analyze that topic. These courses may be offered at any level (100, 200, 300 and 400 level) and for variable credit (1–15 credits). Through comprehensive readings, students’ ability to think critically about the topic and the discipline will be developed. A research paper, project and/or seminar-style presentation may be required. Special Topics courses are repeatable for credit if the topic is different. A specific, detailed course title and description for each Special Topics offering, including specific prerequisites, are posted prior to the term in which the course will be offered. A specific Special Topics course may only be offered twice under the Special Topics category. Offered on an as-needed basis.

Explanation of the course numbering system:

The discipline is indicated by the 3–4 letter code in the course number (for example, ART is Art, HIS is History).

At the 100 and 200 levels, the first digit represents the course level: 100 level (first-year), 200 level (sophomore). The second and third digits indicate the degree category the course will fulfill.

- 90: Lower-Division Elective
- 95: Core Distribution Arts Elective

- 96: Core Distribution Humanities Elective
- 97: Core Distribution Mathematics and Natural Sciences Elective
- 98: Core Distribution Social Sciences Elective
- 99: Lower-Division, Non-Core Distribution Liberal Arts Elective

At the 300 and 400 levels, the first digit represents the course level: 300 level (junior year), 400 level (senior). The second and third digits indicate the degree category the course will fulfill.

- 90: Upper-Division Elective
- 99: Upper-Division Liberal Arts Elective

Speech

SPC 101 Communication Fundamentals 3

This course introduces and integrates basic theory, principles and practice of communication in interpersonal, small group and public communication settings. Students expand their understanding of communication and develop their in-person and digital communication skills and self-confidence in a variety of situations. Learning activities include preparing presentations, engaging in dialogues, defining the role of cultural awareness in effective communication, providing feedback to others, and participating in group activities. Offered every semester. This course fulfills a College Core requirement.

SPC 111 Public Speaking 3

This course offers a fundamental approach to oral communication through study and presentation of various types of informative and persuasive speeches. Focus is on effective research and organization of ideas to achieve specified purposes. Emphasis is on audience analysis, listening, rhetorical structure of messages, ethics, extemporaneous delivery and critical analysis of speeches. Video technology is used to permit more comprehensive analysis of students’ progress. Offered on an as-needed basis.

Sport/Fitness

SFL 111 Introduction to Sport, Fitness and Exercise 3

This course is designed as an introductory foundation to the disciplines within the areas of sport and fitness. Disciplines include but are not limited to fitness instruction, personal training, physical education, coaching, sport psychology, sports medicine, sport marketing and management, kinesiology, allied health and higher education. The course gives special attention to the kinds of work performed by professionals in the field, salary ranges, responsibilities, professional interactions, work settings, specialized skills, knowledge and certifications, and education requirements. Offered every fall semester.

- SFL 170 First Aid and Safety/CPR/AED 3**
This course is designed to give students the practical knowledge and skills to care for both themselves and others in the event of sudden illness or injury. Concepts of safety education and legal liability are examined in detail. Successful completion of the course can lead to certification in First Aid (American National Red Cross) and basic life support CPR (American Heart Association). Lab fee: \$50. *Offered every semester.*
- SFL 174* History and Philosophy of Sport and Physical Activity 3**
This survey course provides an overview of the historical development of physical activity and sport from primitive cultures to modern societies. Emphasis will be placed on the people, events, institutions and philosophies affecting the development of sport and physical activity in North America. This course is cross-listed with SMGT 174. *Offered every semester. This course fulfills the Core Distribution Humanities requirement.*
- SFL 185 Personal Training 3**
This course will include instruction of basic principles of progressive resistance exercises, cardiovascular and flexibility training. This course introduces fundamental concepts in neuromuscular and musculoskeletal exercise such as plyometrics, weight training, medicine ball training, resistance bands, kettle bells and free weights. Students will also receive instruction in the use of BOSU domes, stability balls, sand balls and foam rollers. Performance and functional testing will be included. This course is required for Exercise Science majors and is strongly recommended for students who intend to pursue Personal Trainer certification. Prerequisite: BIO 171 or BIO 175 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*
- SFL 201 Athletic Training Internship 3**
This course offers direct and supervised experience in the athletic training setting, providing students with the opportunity to apply the skills acquired in their course of study. Completed internship hours can be applied to clinical hours required in athletic training bachelor's degree programs at transfer institutions. Prerequisite: Completion of SFL 170 resulting in Red Cross Certification, BIO 171 and BIO 172 with a final grade of "C-" or better in each; Sophomore standing or permission of the Dean of the School of Liberal Arts. *Offered every semester.*
- SFL 234 Nutrition and Food Science 3**
Fundamental concepts of the science of nutrition with application to the health and fitness professions. Special emphasis will be placed on understanding the impact of nutritional practices on general health and sport performance. Additionally, the process of nutrition as it changes through life will be discussed. *Offered every spring semester.*
- SFL 241 Care and Prevention of Athletic Injuries 4**
This course focuses on upper and lower extremity evaluations, injury prevention techniques, and basic treatments for athletic injuries under the strict supervision of a licensed athletic trainer. Lecture and laboratory meet separately each week. Lab fee: \$50. *Offered every fall semester.*
- SFL 260 Fundamentals of Physical Fitness and Conditioning 3**
Introduces the principles and practices of physiological conditioning in both the classroom and the field laboratory. Emphasis is not placed on developing student physical fitness, but on understanding the components of physical fitness and how these relate to the field of health, physical education and recreation. *Offered every fall semester.*
- SFL 265 Resistance Training and Programming 3** **F**
This course offers instruction in various forms and techniques of resistance training. Emphasis is placed on proper techniques of single joint and multi-joint exercises and use of multiple modalities to develop individual and team sport training programs. Prerequisite: A grade of "C-" or better in BIO 167 or BIO 171 or BIO 175. *Offered every spring semester.*
- SFL 371 Exercise Physiology 4**
The purpose of this course is to provide a basis for understanding the body's physiological responses to exercise. Emphasis will be placed on the cardiovascular, pulmonary, muscular and metabolic systems immediate responses to an exercise session (acute) and after maintaining an exercise program (chronic). Must be concurrently enrolled in lab. Lecture and laboratory meet separately each week. Prerequisite: BIO 171, BIO 172 and Junior standing, or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*
- SFL 421 Exercise for Special Populations 3**
This course provides practical information on exercise for a wide range of populations and special diseases. An overview of each unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format. Topics may include, but are not limited to, exercise prescription for cardiac conditions, diabetes, asthma, orthopedic conditions, obesity, neuromuscular issues, and pregnancy as well as athletic, youth and older adult populations. Prerequisite: SFL 470 or permission of the Dean of the School of Liberal Arts. *Offered every spring semester.*
- SFL 434 Sport Nutrition 3**
This course provides basic nutritional information as it pertains to athletic/exercise performance. The class addresses the latest sports information, nutritional requirements and dietary practices for achieving performance goals. Topics of discussion may include diet

and exercise for lifelong health, diet fads, disordered eating, supplements, weight and body composition, and special populations such as athletes who are pregnant, vegetarian or have chronic disease. Prerequisite: BIO 171 or BIO 175, and SFL 234 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

SFL 470 Exercise Testing and Prescription 3

This course provides the opportunity to learn and practice the basic components of exercise testing during a variety of exercise conditions. Emphasis is placed on understanding fitness assessments, choosing appropriate tests, and prescribing safe and effective exercise. Lecture and laboratory meet separately each week. Prerequisite: SFL 371, or SFL 260 or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

SFL 480 Programming and Presenting in the Exercise Science Profession 1-3

In this course students will develop and plan a day long research and training program for the sport fitness community at Dean. Students will share research insights from their senior capstone research as well as insights gained from attendance at a professional exercise science conference. Students will create and lead sessions that may include movement, exercise, theory and practice. A course fee may apply. Prerequisite or concurrent with SFL 495 — *Senior Capstone*. *Offered every semester.*

SFL 495 Senior Capstone 3

The purpose of the capstone is to provide an integrative experience for seniors that will allow them to apply what they have learned in previous coursework. This course provides an opportunity to pursue independent research on a topic of one's own choosing, and to develop and defend answers to questions of interest to the student. This will culminate in a major research paper completed under the supervision of a faculty member, and a presentation of research results to the faculty in the bachelor's degree program. Prerequisite: Senior standing or permission of the Dean of the School of Liberal Arts. *Offered every fall semester.*

Sport Management

SMGT 172 Introduction to Sport Management 3

An introduction to the professional field of sport management and administration, and its place in society. Covers the role of the administrator in various sports settings, expected areas of responsibility, and opportunities for placement within the field. *Offered every fall semester.*

SMGT 174* History and Philosophy of Sport and Physical Activity 3

This survey course provides an overview of the historical development of physical activity and sport from primitive cultures to modern societies. Emphasis will be placed

on the people, events, institutions and philosophies affecting the development of sport and physical activity in North America. This course is cross-listed with SFL 174. *Offered every semester. This course fulfills the Core Distribution Humanities requirement.*

SMGT 187 Individual/Team Sports – Theory and Practice 3

This course will provide fundamental knowledge about individual and team sports, and how to teach them. Students will be introduced to a wide variety of both individual and team sports, which may include golf, swimming, badminton, archery, soccer, volleyball, lacrosse, basketball, baseball, and softball. Course content will include the selection and care of required equipment, rules, fundamental skills, strategies and safety. Students will participate and teach a variety of activities. *Offered every fall semester.*

SMGT 188 Fundamentals of Coaching – Theory and Practice 3

This course covers the fundamental principles of coaching. Emphasis is on the development of a program from organization through preparation for competition. Successful coaching strategies are offered through the application of practical guidelines. This course fulfills an elective requirement and is recommended for students seeking to participate in coaching activities in youth sports. *Offered every fall semester.*

SMGT 200 Coaching and Recreation Management Practicum 3

This course offers direct and supervised experience in a coaching or recreation management setting. Students have the opportunity to closely observe and work with an athletic team or recreation program while applying the skills acquired in their course of study. Prerequisite: DCA 200 and permission of the Sport Management Program Coordinator. *Offered every semester.*

SMGT 203 Sport Venue Management 3

This course focuses on the skills, procedures and systems necessary to plan, develop, operate and maintain a sports facility. Students will explore the management issues that arise in the daily operations of a facility as well as the ongoing consequences of leasing and making the leap into ownership. This course introduces students to the technical demands of facility management and the manager's role in maintaining the facility for maximum safety, comfort and profitability. Prerequisite: SMGT 172 or permission of the Sport Management Program Coordinator. *Offered every spring semester.*

SMGT 215 Sport Ethics 3

This course is meant to serve as an introduction to the many ethical issues that arise in the sport industry. Students will be exposed to various ethical decision-making models and will apply them within the sport context. Topics including race and discrimination, gender equity, sportsmanship, drug use and testing, cheating, gambling, violence and hazing, and youth

Students will investigate both the domestic and international sport tourism industry as well as organizations and their services, and analyze issues including sport tourism facility and event financing, sport tourism impacts and globalization and sport tourism as a culture. Prerequisite: Junior or senior standing or permission of the Dean of the School of Business. Offered on an as-needed basis.

Rehearsal and Performance includes the possible participation in acting, costuming, directing, tech, front box office and house support. Taking part in a substantial capacity in a theatre or musical theatre production is required. Each credit represents approximately 40–50 hours dedicated to the project. The student will enroll in the term in which the project is to be completed. May be repeated for credit. *Offered every semester.*

THA 131 Production and Design I: Stagecraft 2

This basic course in stagecraft centers on the principles and techniques of building, basic design and drafting with additional study in rigging and shifting stage scenery. Class work is supplemented by laboratory hours arranged in conjunction with Dean College theatre productions. *Offered every fall semester.*

THA 132 Production and Design II: Lighting 2

A basic course in stage lighting, the principles of lighting design and the methods and materials of rigging theatrical lighting instruments are studied. Class work is supplemented by laboratory hours arranged in conjunction with Dean College theatre productions. *Offered every spring semester.*

THA 220 The Business of the Biz 1

F This course serves as a primer focused on the preparation and transition from student to professional in the theatre, film/television, dance, and live entertainment industries. Specific focus will be given to the branding of the individual — the mindset and practices from those of a student/artist to that of a sole-proprietor company and creating a plan of action for their coming years. Topics include: analog and digital personal marketing, getting the job, professional practices and business structures in the industry such as unions, theatre-related organizations and agencies, in addition to strategies for various types of auditions and submissions, as well as business taxes and expenses. Prerequisite: DCA 200 or permission from the Dean of the School of the Arts. *Offered every spring semester.*

THA 230 Script Production and Analysis 1

This course explores the tools and techniques necessary to understand and write theatre scripts. Students will investigate the components of dramatic storytelling such as character, theme, tension, and conflict and how these elements are developed through the clues in the text, Mise-en-scene directives, character development, narrative structures, storytelling principles, and scriptwriting techniques. *Offered on an as-needed basis.*

THA 231 Basic Stage Management 3

This course provides a thorough analysis of technical and organizational aspects of stage management. The focus of the course is the stage manager's process which includes, but is not limited to, preparing for and running the rehearsal/performance processes, as well as an overview of general responsibilities, equity contracts and conflict management. Prerequisite: THA 101, THA 114, THA 131, and THA 132 or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

THA 235 Acting I: The Fundamentals of Truth 2

A deeper exploration of truthful and dynamic acting, bringing dramatic text to life through analysis, imagination, active physical choices and vocal expression. Prerequisite: THA 114 or permission of the

Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

THA 236 Acting II: Scene Study 2

An exploration of the acting methods of Stanislavsky through the practical application of physical, vocal and script analysis techniques in the rehearsal and performance of assigned scenes from 20th-century theatre. Exercises, methods and scene presentations will be discussed and critiqued. Prerequisite: THA 235 completed at Dean College or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every spring semester.*

THA 240 Voice and Articulation 1

This course explores the unique dynamics of the actor's vocal and physical instrument, seeking fullness of breath, expression and movement. Exercising the articulator muscles necessary for a wide range of speech possibilities also applicable to dialects, accents, impressions and other character specifics, this class uses various texts and physical exercises to improve volume, rate, rhythm, pitch, resonance, and texturing abilities of the actor's voice. May be repeated for credit. Prerequisite: THA 114. *Offered every fall semester.*

THA 243 A History of Musical Theatre: The Road from Showboat to Hamilton 3

This course introduces and encourages students to explore the elements, forms and history of Musical Theatre as an art form. Students will learn about the contribution of this theatrical genre to the world of theatre and popular culture, including the major lyricists, composers, librettists, directors, choreographers and performers. Theatre tickets: \$45. *Offered on an as-needed basis.*

THA 245 Voice and Movement for the Stage 1

This course focuses on the development of physical and vocal awareness, freeing the actor's body of its programmed patterns of behavior. Using the ideas of Laban, Bartenieff, Grotowski, Linklater and others, the work in this course aims to enable the actor to respond to natural impulses in order to reflect genuine emotion. Prerequisite: THA 114 and THA 240. May be repeated for credit. *Offered every spring semester.*

THA 251 Theatre History and Literature I: Aeschylus to Everyman 3

This course presents the student with the foundations of theatre history and literature in the Western tradition, from its beginnings on the hillside of the Acropolis in ancient Greece to the travelling minstrels and players in the courtyards of the Middle Ages. Students will explore the classic works of Aeschylus, Sophocles and Euripides, the comedies of Plautus, and the morality plays of Medieval Europe. Theatre tickets: \$45. *Offered on an as-needed basis.*

THA 301 American Musical Theatre Repertoire 3

This course introduces musical theatre students to the range of musical theatre composers, lyricists and their representative eras. The class will explore contemporary musical theatre genres, including legit contemporary repertoire, contemporary mix, and rock/pop styles with original score and jukebox musicals. Songs from all styles will be explored and performed in class. Students will develop as individual performers through in-depth understanding of character, context and vocal style. Strong musicianship skills are required for this course along with ongoing study of vocal techniques. This course also stresses character analysis through singing along with strategies of musical precision and healthy, expressive vocal production in solo and duet singing. Prerequisite: THA 240. *Offered on an as-needed basis.*

THA 305 Theatre Ensemble 1-3

This course brings together creative methods to build theatrical experiences. Possibilities include the creation of an original play, the development of a play from a novel or book, an ensemble piece created to deal with social topics, or a theme-based performance. It is for actors, directors, playwrights and designers to come together to create experimental theatre pieces. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

THA 313 Performance Theory and Criticism 3

This course is an introduction to the research and analysis of Theatre and Dance performances in various contexts and traditions by examining the realms of dramaturgy, theory, literature and criticism. This course is cross-listed with DAN 313. *Offered on an as-needed basis.*

THA 315 Acting Lab 1

This course investigates acting styles such as Commedia Dell'Arte, restoration comedy, clowning skills, Grotowski, solo performance, Asian performance styles (Kabuki, etc.), physical theatre, Viewpoints or any nontraditional acting style. Students explore these styles in-depth. Prerequisite: THA 235 or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

THA 325 Auditioning Strategies 1

Theory and practice of auditioning for stage, film and video. Students will prepare monologues, scenes, choreography and songs relative to their track. Prerequisite: THA 245. *Offered on an as-needed basis.*

THA 330 Theatre Pedagogy 3

This course focuses on current pedagogical theory and practice to assist students in preparing for work as teaching artists and practitioners in theatre. While investigating social and cultural impacts, students will explore protocols that inform, enhance and challenge the ways in which teaching and learning occur, inside and outside the classroom as well as how to structure

syllabi, design assignments, and develop a personal teaching philosophy. *Offered on an as-needed basis.*

THA 331 Production and Design III: Costume and Make-up for the Stage 2

This course introduces students to the history, design, application and management of stage costume and make-up. Students examine the varying aspects of stage costume and make-up as they apply to the practical part of the production and design process. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. Field Trips: \$40. *Offered every spring semester.*

THA 333 Acting III: Acting Shakespeare and the Classics 2

An in-depth exploration of techniques and concepts started in Acting I and II, including script analysis, character study, and vocal and physical work through application and exercises. The course draws from Stanislavsky, Michael Chekhov, Meisner, Strasberg, Adler, Hagen and other well-known acting training methods, as well as scanning verse and vocal skills. Prerequisite: THA 236 and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

THA 341 Theatre History and Literature II: Shakespeare to Ibsen 3

This course encourages students to explore the world of early modern drama and its most famous author William Shakespeare and discover how his work encourages the plays of Molière, Jonson and Sheridan, through the first great Modern playwright Henrik Ibsen. This course is cross-listed with ENG 341. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. Theatre tickets: \$45. *Offered every fall semester.*

THA 342 Theatre History and Literature III: Modern and Contemporary Drama 3

This course begins with the work of late 19th century playwrights Strindberg, Shaw, Chekov and Wilde, moving through the dramatic literature and historical contexts of the 20th and 21st centuries. Other playwrights to be covered include O'Neil, Brecht, Williams, Beckett, Albee, Miller, Mamet, Vogel, Churchill and more. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. Theatre tickets: \$45. *Offered every spring semester.*

THA 350 Stage Combat 1

This course examines and applies the fundamental approach to the art of stage combat, stressing principles of safety, form, choreographic conception and execution. The class includes the exploration of a variety of combat disciplines (including unarmed combat). Emphasis is on an eventual application in a performance environment. Prerequisite: THA 236, Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

THA 361 Musical Theatre Performance I: Fundamentals of Acting in Musical Theatre 2

This course introduces students to the music and theatricality of various musical genres (classical, contemporary, popular), providing those in the Musical Theatre track an opportunity to build their skills. The course will require competency in singing, dancing and acting; research in musicals as an art form; and developing their professional training in the area of musical theatre. Prerequisite: THA 236, THA 301, and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

THA 362 Musical Theatre Performance II: Song as Text 2

This course is a continuation of THA 361, in which students undertake more advanced musical roles and assignments in singing and dancing in order to increase their skills in preparation for careers in musical theatre. Prerequisite: THA 361 and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every spring semester.*

THA 363 Musical Theatre Performance III: Scene Study 2

The final segment of the series, which includes THA 361 and THA 362, this course is designed to help students understand, perform, sing and dance the classical musicals of the latter part of the 20th century and the beginning of the 21st century (Stephen Sondheim, Ahrens and Flaherty, Jonathan Larson, etc.), including Fosse dance style and hip hop. Prerequisite: THA 362 and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every fall semester.*

THA 370 Concepts of Theatre Design 3

An exploration into the creative history of design that supplies hands-on design experience in the areas of lighting, costume and scenery. Students will create concrete designs in these three areas, giving students a broad-based experience and education in the art of theatrical design. Prerequisite: THA 131, THA 132, THA 331, and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every spring semester.*

THA 380 Research Methods in Performing Arts 3

This course engages students in critical inquiry into theory, texts and performances, while acquainting them with approaches to research in the performing arts, particularly theatre and dance, including modes of investigation and reviews of literature, as well as historiographical methodologies. This course is cross listed with DAN 380. Prerequisite: THA 251 or DAN 201. *Offered on an as-needed basis.*

THA 402 Senior Project 3-6

This course addresses the practical application of skills needed for success in pursuing a variety of careers in the field of Theatre, culminating in a capstone project that exemplifies the student's progress in performance, theatre studies, management or tech applications, research, pedagogy, or other Theatre-related areas of study, and demonstrates relevance to the student's future endeavors in the field of Theatre. Travel to a major metropolitan area provides networking opportunities and exposure to working professionals. Prerequisite: DCA 350 and Junior standing in the Theatre program or permission of the Dean of the School of the Arts. Course fee: \$450. *Offered every fall semester.*

THA 411 Playwriting 3

A practical and theoretical approach to the art of writing plays. Students will read numerous examples of contemporary playwrights as well as engage in writing exercises, culminating in the writing of a one-act play. Scenes from the plays will be rehearsed and performed in the class. Prerequisite: Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

THA 426 Theatrical Staging and Direction 3

An introduction to stage direction from script selection to the final stage production. The course covers the theory of play analysis and interpretation, director's development of concept and composition, communication with actors and designers, staging techniques, and rehearsal methods and procedures. Theoretical applications include assigned exercises for student directors to present scenes (using freshman actors) that are analyzed and critiqued. Prerequisite: THA 114, THA 131, THA 132, THA 231, and Junior or senior standing; or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

THA 431 Production and Design IV: Sound and Digital Applications 2

This course will examine acoustic and digital sound in addition to visual media processes pertaining to theatrical productions. Students will explore topics such as script analysis, video, sound, sound plots, cue synopses, underscoring, sport effects and more as they relate to sound and digital design for the theatre. *Offered on an as-needed basis.*

THA 434 Acting IV: Acting for the Camera 2

A practical application of truthful acting techniques adapted to the unique demands of film and television. Students will work on scenes for sitcom, daytime drama, episodic television, commercials and film. Actual scripts from each genre will be provided. Prerequisite: THA 333 and Junior or senior standing, or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered every spring semester.*

THA 435 Acting V: Period Drama 2

Applying the fundamentals of truthful acting to the contexts and cultural norms of Greek Tragedy, Roman Comedy, Italian Commedia, Restoration Comedy, Moliere and Wilde. Prerequisite: THA 333. *Offered on an as-needed basis.*

**THA 441 Production and Design V:
Advanced Theatrical Design 2**

Practical advanced design in the areas of lighting, costume, sound or scenery, focused on concrete designs contributing to a College production. *Offered on an as-needed basis.*

THA 445 Acting VI: Special Topics in Acting 2

This course explores the unique challenges of devised work, original plays, absurdism, surrealism or other forms of non-realistic theatre. Prerequisite: THA 435. *Offered on an as-needed basis.*

**THA 475 Technical Portfolio Creation and
Dramaturgy 3**

This course brings together the areas of stage technology and theatre studies. For stage technology, building from THA 370, students develop a specific specialization in set, lighting, or costume. The course objective is the creation and maintenance of the student's portfolio for presentation in addition to the actual or hypothetical application of design to a Main Stage production. For theatre studies, students develop their dramaturgical and theatre history skills in the creation of a final paper. Prerequisite: Senior standing; or permission of the Dean of the School of the Arts or the Theatre Program Director. *Offered on an as-needed basis.*

F

***Denotes Core Distribution Courses.**

The complete lists of All-College Core Electives, Dean Career Advantage Experience Courses and Liberal Arts Electives are provided on pages 198-202.

All-College Core Electives List

As part of the All-College Core, students must take one course from each of the following six categories:

- Core Mathematics Elective*
- Core Lab Science Elective**
- Core Distribution Arts Elective or ART 101
- Core Distribution Humanities Elective or HIS 111, HIS 112, HIS 151, or HIS 152
- Core Distribution Natural Sciences and Mathematics Elective
- Core Distribution Social Sciences Elective or PSY 111 or SOC 113

Core Mathematics Electives*

BUS 150	Personal Finance	MTH 151	Precalculus I
MTH 125	Mathematical Problem Solving in	MTH 152	Precalculus II
	Performing Arts and Entertainment	MTH 241	Calculus I
MTH 130	Introductory Statistics	MTH 242	Calculus II
MTH 150	Foundations of Quantitative Reasoning	PHL 130	Symbolic Logic

*Contingent upon math placement and completion of any designated prerequisites.

Core Lab Science Electives**

BIO 180	Human Biology	BIO 175	Anatomy Essentials
BIO 151	General Biology – The Cell	CHM 145	Chemistry for Healthcare Professions
BIO 152	General Biology – Organisms	CHM 151	General Chemistry I
BIO 171	Human Anatomy and Physiology I	PHY 151	General Physics I

**Some majors require a specific lab science course as part of their program requirements. Please consult the specific description of that degree program for more information. Some lab science electives require specific prerequisites that will need to be completed before taking a designated course. Please see course descriptions for more information.

Core Distribution Arts Electives

ART 150	Museums of New England: A Kaleidoscope of the World	PFA 150	Experiencing the Performing Arts: How to Watch and How to Listen
MUS 150	The Roots of Popular Music	PFA 230	The Arts and Film from 1960 to Present
PFA 125	Performance Studies	PFA 250	I-Arts: The Arts in the Internet Age

Special Topics Electives with a course number of 195 or 295

Core Distribution Humanities Electives

ENG 101	As Good As Your Word	HIS 101	Making History
ENG 218	Multiracial and Multicultural Identity: Breaking the Census Box	HIS 203	Cold War America: Culture and Conflicts
ENG 219	Introduction to Journalism	HIS 242	Reading World Revolutions
ENG 224	Writing the American Dream	HIS 250	Beyond Henrietta Lacks: Race and Medicine in 20th Century America
ENG 233	New England: Life, Lore and Literature	HIS 253	Post/War: 20th Century Europe
ENG 240	Literature of Food: Bread for the World	HIS 260	The Holocaust in History and Memory
ENG 243	World Writers	HIS 265	History of Science
ENG 250	Music in Literature	PHL 215	Beliefs and Behaviors: Comparing the World's Religions
ENG 260	Poets and Poetry: The Poetic Voice	SFL 174	History and Philosophy of Sport and Physical Activity
ENG 262	The Graphic Novel	SMGT 174	History and Philosophy of Sport and Physical Activity
ENG 270	Literature by Women Writers		
ENG 285	Studies in the Short Story		
ENG 290	Literature of Baseball		

Special Topics Electives with a course number of 196 or 296

Core Distribution Natural Sciences and Mathematics Electives

BIO 160	The Science of Human-Wildlife Interactions: Coyotes in My Backyard	HSCI 227	The Language and Math of Medicine
BIO 165	The Science of TV Crime Scene Investigations	MTH 160	Organizing Principles of Mathematics in Art
BIO 167	Musculoskeletal Anatomy	MTH 165	The Mathematics of Chance: The Odds of Winning
BIO 176	Genetics and You	PSC 150	Water Wars: From Properties to Distribution
BIO 168	The Science of Food: What Are You Eating?	PSC 181	The Science of the Environment: Sustaining the Planet
BIO 224	Pathophysiology: Pain and Suffering	SCI 265	History of Science
BIO 250	Beyond Henrietta Lacks: Race and Medicine in 20th Century America		

Special Topics Electives with a course number of 197 or 297

Core Distribution Social Sciences Electives

COM 252	Media, Conflict and Power	PSY 170	Understanding Fan Behavior: A Sociological and Psychological Perspective
COM 255	Sports and Media: Did You See the Game Last Night?	SOC 170	Understanding Fan Behavior: A Sociological and Psychological Perspective
ECO 110	The Economies of Debt: Private and Public	SOC 203	Sociology of the Family
EDU 103	Foundations of Education	SOC 214	Sociology of Cultural and Popular Culture
POL 150	Protests: Peril, Power and Progress	SOC 225	Health and Illness: A Sociological Perspective
POL 211	American Government	PSY 230	Deviance, Conformity & Social Control
PSY 134	Positive Psychology	SOC 255	Social Inequality and Stratification
PSY 153	Psychology of Creativity	SOC 260	Technology and Society
PSY 155	Human Sexuality		
PSY 166	Mindfulness		

Special Topics Electives with a course number of 198 or 298

Dean Career Advantage Experience Course List

The following courses fulfill the Dean Career Advantage Experience requirement. Please see the precise degree requirements for your individual major for any specific experience course requirements. Please also read the course descriptions for important prerequisite information for these courses.

BIO 440	Advanced Cellular and Molecular Biology (4 cr)	EDU 280/281	Field Observation and Participation (3 cr)
COM 112	Dean Radio/Music and Entertainment (1-2 cr)	EDU 282/283	Seminar in Early Childhood Education Practicum and Lab for Practicum in Early Childhood Education (6 cr)
COM 115	Dean Radio/News and Sports (1-2 cr)	EDU 475	Student Teaching (12 cr)
COM 116	Dean TV (1-2 cr)	ENG 345	Copyediting (3 cr)
COM 312	Advanced Dean Radio/Music and Entertainment: Producing and Directing (2 cr)	ENG 346	Digital Publishing (3 cr)
COM 315	Advanced Dean Radio/News and Sports: Producing and Directing (2 cr)	HIS 325	Digital History (3 cr)
COM 355	Advanced Dean TV: Producing and Directing (2 cr)	HIS 330	Public History (3 cr)
DAN 210	Creative Movement for Children (3 cr)	HLS 330	Certified Aggression Manager (3 cr)
DAN X24	Rehearsal and Performance (1-3 cr)	PSY 325	Professional Orientation to the Human Services (3 cr)
DAN 402	Senior Project (3-6 cr)	SFL 421	Exercise for Special Populations (3 cr)
DCA 201	The Job Shadow Experience (1 cr)	SFL 480	Programming and Presentation in the Exercise Science Profession (1-3 cr)
DCA 300	The Internship Experience (3-15 cr)	SMGT 200	Coaching and Recreation Practicum (3 cr)
DCA 301	The Global Experience (1 cr)	SOC 320	Public and Applied Sociology (3 cr)

Beyond the Classroom: Student Development

STUDENT DEVELOPMENT AND RETENTION

The Division of Enrollment and Retention coordinates a vast array of cocurricular and extracurricular programs and services designed to enhance and support students' academic, social and personal growth. Together with Academic Affairs, Enrollment and Retention works to assist students to develop skills necessary for success at Dean College and beyond.

Athletics

Dean's intercollegiate athletic program encompasses 16 intercollegiate sports for men and women, and they compete against some of the nation's most recognizable institutions in New England. Dean is a member of NCAA Division III and plays in the ECFC (Eastern Collegiate Football Conference) for football and in the GNAC (Great Northeast Athletic Conference) for 15 other sports. Dean offers opportunities for individual and team recognition as well as the possibility for postseason play.

The athletic program is dedicated to nurturing the athletic and academic growth of the individual student-athlete in a supportive environment. The academic monitoring system and close personal attention paid to each student-athlete ensures that they receive the support necessary to experience positive results on the playing field and in the classroom.

Athletic Facilities

Located at the Grant F. Longley Athletic Complex, Lippert Field, a 1,000-seat stadium, is used for competition soccer, lacrosse and football. Longley also houses recently renovated baseball and softball fields as well as a natural surface game field where intercollegiate contests can take place. Pieri Gymnasium, home of the Bulldogs' basketball and volleyball teams, seats more than 500 fans for home contests. Adjacent to Pieri Gymnasium is a multipurpose synthetic surface that can be used for both practice and intercollegiate competition as well as a space for intramurals and other campus

wellness activities. The College has two on-campus fitness centers featuring state-of-the-art cardiovascular equipment and a full line of strength-training equipment. In addition, a large, fully equipped training room is provided for injury prevention and rehabilitation.

Campus Safety

The Department of Campus Safety provides protection and services 24-hours-a-day, 7-days-a-week to the entire campus community throughout the year. The department works in conjunction with a Law Enforcement Services entity that works closely with Franklin Police, Franklin Fire and all emergency response units on matters of safety and security, both on our campus property and in the Franklin community. These units are tasked with upholding the enforcement of federal, state and local laws as well as College policies and procedures on Dean College property. Additionally, all officers are trained in CPR and as first responders for medical emergencies.

Counseling Services

Dean College Counseling Services assists students with making the most of their college experience both personally and academically. During college, students may require varying degrees of support for personal, social or academic purposes. Our licensed professional counselors provide free and confidential services to support these needs.

Counseling Services offers a variety of support programs, including short-term counseling; emotional well-being workshops; consultation with faculty, staff and parents; and educational programs. Counselors are available to meet with students to discuss topics ranging from homesickness to more serious psychological concerns that may require a crisis assessment.

If a student requires off-campus services, Dean clinicians will facilitate referrals to local health care providers. Counseling Services does not provide long-term counseling, administer psychiatric evaluations or prescribe psychotropic medication.

Health Services

Dean College Health Services is an on-campus ambulatory care center and is affiliated with Milford Regional Medical Center (MRMC). Health Services is staffed by board-certified and licensed nurse practitioners who provide acute and preventive health care to students with the goal of helping students develop health-enhancing behaviors. Students who

need more extensive medical services will be referred to MRMC, a local Urgent Care or a physician specialist available within the MRMC network. This offers students a wide variety of specialty care and outpatient centers dedicated to the ongoing health and wellness of their patients. This partnership provides students with quality health care, both on and off campus. MRMC is located approximately 10 miles from campus and is a major affiliate of UMass Medical Center of Worcester.

Health Insurance

Massachusetts state law requires all full-time and certain part-time students to participate in a qualifying student health insurance program (SHP) or in a health insurance plan with comparable coverage. At Dean College, students will be automatically enrolled in the school SHP Insurance Plan. If a student has a private qualifying health insurance plan, then the student must complete the online Dean College Health Insurance Waiver Form, available on the Dean College website. Once the online waiver form has been submitted and reviewed, the SHP charge will be removed from the student's account PROVIDED the private insurance plan meets Massachusetts state requirements.

Mandatory Health Forms

Dean College, in accordance with Massachusetts state law, requires the completion of mandatory health and immunization forms by all students, both resident and commuter. Students must complete the mandatory health forms online as well as upload a certificate of immunization and current physical exam to avoid a registration hold or late fee. **The forms are on the Student Health Portal at dean.studenthealthportal.com.**

Residence Life

Our Residence Life program provides a living/learning environment that promotes the educational mission of the College as well as the personal and social growth and development of each student. A variety of living arrangements are available to resident students, including traditional residence halls, independent houses, suite-style living, gender-specific residence halls and high-end condominium units. Our largest building houses 144 students, and our smallest housing option is for 12 students. New students are asked to complete a housing application that identifies special interests and preferred living arrangements. This application is used to match student interests when rooms are assigned; it is available on the Dean College portal (MyHousing) once a student has made a deposit and received their email username and password from Information Technology.

Each building is supervised by a Resident Director who lives in the hall. Student Community Advisors reside on individual floors of large buildings and serve as peer mentors and leaders for our communities. Residence Life provides students with opportunities to make connections and to gain a better understanding

of their rights and responsibilities, which includes an appreciation of, and respect for individual differences. The Residence Life staff promotes and encourages responsible behavior and strives to build communities that are conducive to academic and personal development. Each residence area offers academically enriching events and social activities throughout the year.

Residing on Campus

All accepted full-time students are required to reside on campus. Students are permitted to reside off campus if they are living at home with a parent or guardian or are at least 24 years of age. Students requesting to change their residential status must do so by the end of the fourth week of the semester.

Housing placement is contingent upon receipt of the Dean College Health form and payment in full of all College billing. Placement of new students is based on receipt of a deposit to the College and will begin after the third New Student Orientation session. Returning students participate in Housing Selection in March/April. To participate, students must have paid their deposit and taken care of any outstanding balance on their account. Students are permitted to reside off campus only if they are commuters living at home with a parent or guardian or can provide proof of independent status.

Student Activities and Leadership Development

Students are encouraged to take an active role in the College community by participating in one or more of the recognized student organizations, recreational programs, and performance groups. The Student Activities Committee (SAC) sponsors the majority of weekend programming. Along with SAC, various student organizations offer activities that cover a broad range of interests. Events are typically held throughout the weekend on campus. Off-campus trips are provided monthly to Boston professional sports games and activity-based destinations, such as amusement parks, snow tubing, and nearby cities. The office also offers work-study and internship opportunities.

There are a variety of leadership opportunities for students on campus, ranging from workshops to executive board memberships to the Leadership Conference.

Student Government Association

The Student Government Association (SGA) is an elected group of students from each class that represents the student body and expresses the views, concerns and issues of fellow classmates. The SGA serves as advocates for the student body, managing programming offerings and building community both on and off campus. SGA meets weekly to discuss matters of student concern and takes the lead in fostering relationships with college administration. SGA is also responsible for the allocation of funding for all co-curricular programming.

Recreational and Intramural Activities

Dean offers a variety of intramural sports and recreation events throughout the academic year. There are multiple intramural seasons per year with sports ranging from soccer and flag football to basketball. Recreation events occur throughout the semester and range from dodgeball to capture the flag. The Holly & Jan Kokes '64 Fitness Center is open seven days a week for students, faculty and staff to use and offers work-study opportunities for students. The fitness center staff also sponsor multiple fitness classes for free each semester, ranging from Zumba to Barre. The Annual 5k is sponsored by this office under the direction of the Recreation Coordinator.

Student Conduct and Community Standards

Student Conduct System

The Dean College community has very high standards and expectations regarding the conduct of our community members. Regulations and policies govern the behavior of our students to ensure that our community core values — Personal Responsibility, Community Accountability and Mutual Respect — as well as the educational mission of the College are honored.

Moreover, it is the College's expectation that our students will be responsible and contributing members of the Dean community and the surrounding community. The conduct system at Dean is based on the principles of fairness for all concerned and strives to promote an educational process. We believe students must gain a stronger understanding of the complex balance between individual and community rights and responsibilities. There may be times when a student is asked to leave the College, regardless of class standing or time of year, due to actions that create an unsafe environment or cause a serious disruption or when the individual demonstrates repeated actions that disregard the College's expectations for responsible student behavior. Such separation from the College may be made without recourse to reinstatement or financial reimbursement.

Dean requires students to comply with the letter and spirit of the conduct rules in the Code of Student Conduct and to obey all local, state, and federal laws. The Code of Student Conduct applies to students when they are on and off campus. It also applies through graduation or official withdrawal from the college. Students will be held responsible for their actions and must make sure their actions do not interfere with the safety, well-being or rights of others. It is the responsibility of each student to become familiar with the College's rules and regulations relative to student rights and responsibilities. A current copy of the Code of Conduct can be found on the Student Conduct & Community Standards department page on [Today@Dean](https://today@dean.edu).

Programs and Services

Community Service

The Office of Orientation & Community Service sponsors projects planned both on- and off-campus every month in conjunction with Dean's community service clubs/organizations along with other student-run groups and athletic teams. Projects range from stocking shelves at the Franklin Food Pantry to blood drives with Habitat for Humanity to park clean-ups in both Franklin and neighboring cities.

Orientation Programs

The Orientation staff provides programs and services to support new students and their families with the transition to Dean. Programs are designed to assist first-year and transfer students in making connections with the Dean College community, developing new skills, and building self-confidence. Orientation programs include New Student Orientation (NSO) and January Orientation for spring entrants. These programs are designed to provide students with information that will help them to have a successful first year at Dean College. New Student Orientation, a day-and-a-half program offered in June and July, enables new students and their families to experience life at Dean and to meet members of the faculty, staff and student body. Various sessions, panels and receptions provide information on campus programs, services and resources. During the program, students have an opportunity to meet with their advisor and review their class schedule for the fall semester. The one-day January Orientation is for students entering Dean for the spring semester and covers topics that students will need to learn about to be successful at Dean. Additionally, there is an orientation program specifically for our new international students which is held on campus prior to the start of each semester.

Bulldog Beginnings

Bulldog Beginnings is a mandatory program for all new students and occurs just prior to the start of the fall semester. The program includes social and major-based activities, bonding time within the schools/majors, opportunities to get to know members of the Dean College community and preparing for the semester.

Notice of Non-Discrimination

Dean admits students of any race, color, and national and ethnic origin to all the rights, privileges, programs and activities generally accorded or made available to students at the College. Dean College does not discriminate based on race, sexual orientation, color, age, gender, religion, disability, marital status, veteran status, or national and ethnic origin in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other College-administered programs.

Equal treatment and non-discrimination have been traditional policies of Dean since its founding in 1865. The Board of Trustees reaffirms these historic policies and makes clear that Dean is operated in compliance with both the spirit and letter of this law. Formal compliance assurance has been on file with the federal government since February 4, 1965.

Title IX

Dean is deeply committed to the principle that all students, faculty, and staff have a right to be free from discrimination based on race, color, national origin, ancestry, religion or religious creed, sex, sexual orientation, gender identity and/or gender expression, age, physical or mental disability, genetic information, or veteran status in its programs or activities. The harassment or intimidation of another person, whether student, faculty, or staff, or any other act of discrimination that limits another person's right to equal opportunity or otherwise denies a person equal treatment because of any of these protected categories is prohibited.

Dean College prohibits sexual misconduct in any form. Any form of violence, intimidation, abuse, exploitation or harassment based on gender or sexual preference is contrary to the ideals of Dean and may jeopardize a community member's ability to learn, work, or otherwise participate in the life of the College.

Dean College strongly encourages all members of the community to take action, seek support and report incidents of sexual misconduct. If the College becomes aware of sexual misconduct that impacts one or more members of the College community, the College will promptly investigate the matter and, as appropriate under the circumstances, take action to end the behavior, eliminate any hostile environment, remedy its effects, and prevent its recurrence. The College will do so whether the perpetrator of the misconduct is a student, employee, guest, vendor or other third party.

G

Admissions and Student Financial Planning and Services

OFFICE OF ADMISSIONS

Procedure and Requirements for Full-Time Admission

Admission to Dean

Dean considers each applicant on an individual basis, and decisions are made on a rolling basis as applications are completed. Students may apply for admission online via the Dean College website, dean.edu. In addition, Dean also accepts the Common App. Students applying for the fall semester are encouraged to pay close attention to application dates. Students who want to be considered under Dean College's nonbinding Early Action Program must submit their application for admission no later than December 1 and submit all required application materials no later than December 20 to receive a decision by January 15.

Regular Decision applicants are encouraged to submit an application by the March 15 Priority Date to receive optimal consideration for admission and institutional financial aid. After March 15, the College will consider applications for admission on a rolling basis provided space is available. Students applying for the spring semester are encouraged to submit an application no later than December 1.

H

All required materials, as outlined below, should be sent to:

Dean College
Office of Admissions
99 Main Street
Franklin, MA 02038-1994

High School Transcripts

Students must arrange for their official high school transcript to be submitted to Dean College by mail or through a secure electronic system. An official printed transcript must have the school counselor, principal or headmaster's signature, or an imprint of the official raised seal of the high school. A final high school transcript showing date of graduation or equivalent is required prior to the beginning of classes for the semester the student enrolls.

Letter of Recommendation – Optional

For the Office of Admissions to make an appropriate decision regarding a high school student's application, a recommendation from a guidance counselor is preferred. Teacher recommendations are also welcome. Transfer and nontraditional students may submit a recommendation from a professor or employer.

Standardized Test Scores (SAT or ACT) – Optional

Applicants are encouraged but not required to submit official results of either the SAT or the ACT assessment. Applicants should request that scores be forwarded directly to the College. The College Board identification

number for Dean College is 3352. The ACT identification number for Dean College is 1816. For those who submit scores, these exams are only one of the criteria used in determining acceptance. The highest scores available from each individual section of each test are used. A student will never be denied admission based on test scores.

International Student Admission

Applications from international students are welcome and considered on an individual basis as they are completed. Students must submit an application, official secondary school transcripts or national exam results (in English) and results from an English proficiency exam. Specific application instructions may be found at dean.edu.

Dean is authorized by federal law to enroll nonimmigrant alien students. To expedite the immigration process for an I-20 Form and F-1 student visa, international applicants must submit a copy of their passport photo ID page to confirm spelling and birth date as well as documentation of financial support and an official bank letter indicating the funds available to cover college costs.

International transfer students who completed college or university coursework outside the United States must have their transcripts translated into English and credits evaluated by a recognized evaluation agency.

Transfer Students

Dean welcomes transfer applicants from community colleges and other four-year colleges and universities. We accept the *MassTransfer General Education Foundation* and have transfer agreements with several institutions (dean.edu/transfer). Application documents and deadlines are similar to those described above, with the additional requirement of official college or university transcripts and a Transfer Student Status Report completed by the Dean of Students Office.

Official college transcripts are necessary to perform a credit evaluation. Generally, college-level courses with a grade of "C-" or better are accepted for transfer credit when earned at a regionally accredited institution and consistent with the Dean College curriculum. For a Dean bachelor's degree, a maximum of 90 credits can be transferred, and 15 of a student's last 30 credits must be approved by Dean College whether taken on or off campus. For a Dean associate degree, no more than 30 credits may be transferred, and 15 of a student's last 30 credits must be approved by Dean whether taken on or off campus. Please note that although credit may be awarded for certain courses, they may or may not fulfill requirements for individual majors. Students must complete at least 50% of the credits required for the major at Dean College.

Bachelor of Fine Arts, Bachelor of Arts, and Associate in Arts Degrees in Dance (Additional Requirements)

Students complete an audition for admission to the Joan Phelps Palladino School of Dance (dean.edu). In addition, prospective dancers will be asked to submit a dance resume of the last four years and a photograph in first arabesque en relevé. Students for whom attending an on-campus audition would present a hardship may work with the Office of Admissions for permission to submit a video in lieu of attending the on-campus audition. Off-campus auditions are also available at certain events throughout the country, see dean.edu/audition.

Bachelor of Arts and Associate in Arts Degrees in Theatre (Additional Requirements)

Students applying to the Theatre program must complete an audition for admission to the major if considering the Acting or Musical Theatre tracks (dean.edu). In addition, students will be asked to submit a theatrical resume and headshot. Students for whom attending an on-campus audition would present a hardship may work with the Office of Admissions for permission to submit a video in lieu of attending the on-campus audition.

Students who are considering the Technical Theatre track must submit a portfolio of their work (such as relevant video, photographs, designs, etc.). Theatre Studies applicants must provide a writing supplement.

The Arch Learning Community (Additional Requirements)

The Arch Learning Community is a one- to four-year academic support program for students with diagnosed learning disabilities and/or other learning challenges such as attention and memory difficulties, who need additional intensive academic skill development. All applicants must demonstrate through the application process, and with supporting documentation, the motivation and readiness to manage the academic and nonacademic components of a college program. Eligible applicants will have psycho-educational test scores that indicate the student falls within the range of average intellectual ability. An interview with the Director of the Arch Learning Community or designee is required for admission to the program.

The Honors Program

The Honors Program at Dean College provides academically talented students with stimulating and challenging courses and seminars. To be admitted as an Honors Scholar at the point of admission, the student must have a cumulative high school GPA of at least 3.000 (based on core academic courses), a rigorous academic program and be in good standing within his or her high school community.

Campus Tours and Interviews

Dean encourages students and families to take advantage of the many opportunities offered to experience both the academic and social worlds of the College. Student-led tours are scheduled twice a day, at 10:00 a.m. and 2:00 p.m., Monday through Friday, and allow small groups to explore Dean's beautiful 100-acre campus in a personal and informative manner. In addition, although interviews are not required, they are encouraged for students who want to develop a better understanding of the College and to discuss their goals and objectives with an admissions counselor. Prospective students also have the option of a customized visit to meet with a variety of departments, faculty and classes based on their interests.

To schedule appointments for a campus tour, interview and/or customized visit, please go to dean.edu/visit to register online or contact the Office of Admissions at 877-TRY-DEAN (877-879-3326).

Enrollment – Reserving Space in the Class

New students who plan on commuting must submit a \$250 enrollment deposit to secure their space in the entering class. New students planning to live on campus must submit a \$500 deposit to secure their space in the entering class and to receive a residential assignment. Deposits should be submitted by May 1 (deposits are refundable only until May 1). Deposits are applied toward tuition charges for the first semester.

H

On-Campus Housing Placement

Placement of new students is based on receipt of deposit to the college and will begin after the third New Student Orientation session. Returning students participate in Housing Selection in March/April. Students are permitted to reside off campus only if they are commuters living at home with a parent or guardian or can provide proof of independent status.

Orientation

All new students are expected to participate in one of the day-and-a-half New Student Orientation (NSO) programs scheduled in June and July for fall entrants and January Orientation for spring entrants. These programs are designed to assist new students with their transition to college as well as to provide them with information on educational programs, various campus resources and an introduction to student life. Bulldog Beginnings, a mandatory orientation program for all new students, occurs just prior to the start of the fall semester. The program includes social and major-based activities, bonding time within the schools/majors, opportunities to get to know members of the Dean College Community and preparing for the semester.

Advanced Placement (AP)

Dean College participates in the Advanced Placement program of the College Board. If a student has taken college-level courses in secondary school and would like to apply for Advanced Placement credit at Dean College, the student should plan to take the Advanced Placement exam through her or his high school and have the results forwarded to the Office of Admissions. The Office of the Registrar will review the exam results, and if the student scores a 3 or higher, college credit will be awarded, if applicable to the student's curriculum.

College-Level Examination Program (CLEP)

Dean College participates in the College-Level Examination Program (CLEP) of the College Entrance Examination Board. CLEP enables students to receive college-level credit for nontraditional learning. Dean College grants credit using the guidelines that have been published by the American Council of Education (ACE) for General and Subject Examinations. Dean College will accept a maximum of 30 transfer credits, including those earned through CLEP, for associate degree programs. For bachelor's degree programs, Dean College will accept a maximum of 90 transfer credits, including those earned through CLEP. Students must earn a minimum score of 50 on a CLEP test for the credential to be transferred to Dean College. For more information, please contact the Office of the Registrar.

H

International Baccalaureate (IB) Diploma Program

If a student has taken a higher-level IB examination and would like to apply for college credit at Dean College, the student should have her or his results forwarded to the Office of Admissions. The Office of the Registrar will review the exam results, and if the student scores a 4 or higher in a subject area offered by Dean College, college credit will be awarded, if applicable. No credit will be granted for the standard-level (SL) examinations regardless of the scores achieved. Students do not need to have completed the full IB diploma to receive credit for individual courses.

CENTER FOR STUDENT FINANCIAL PLANNING AND SERVICES

Dean's goal is to provide students and families with a single source for all information about education costs, applying for and receiving financial assistance, and a variety of payment options. The Center for Student Financial Planning and Services is comprised of Financial Aid, Student Accounts, the Registrar's Office, the Business Office, and general customer service as it relates to financing an education at Dean.

The Center is located on the first floor of Dean Hall and office hours are Monday through Friday 8:30am to 5:00pm. Contact the Center by phone at 508-541-1518, fax at 508-541-1941, or email at sfp@dean.edu.

2020–2021 Schedule of Institutional Charges

Tuition, Room and Board

Tuition	\$ 41,118
Room*	\$ 11,146
Board	\$ 6,502
Student Activities Fee	\$ 200

Tuition, Fees, Room and Board Total \$ 58,966

New Student Fee \$ 300 Domestic, \$500 International

**This cost is for a regular multiple occupancy room in a residence hall, except Horne Hall. Upgrades (single rooms, expanded single rooms, condos and Horne Hall) are subject to additional costs. Contact Residence Life for pricing information for rooms that are not regular multiple occupancy rooms in a residence hall.*

Enrollment and Housing Deposits

New and readmitted students who plan on commuting must submit a \$250 enrollment deposit to secure their space in the entering class. New and readmitted students planning to live on campus must submit a \$500 deposit to secure their space in the entering class and to receive a residential assignment. Both deposits should be submitted by May 1 (if submitted earlier, deposits are refundable only until May 1). Deposits are applied to charges for the first semester. Students returning to Dean for the following fall semester must submit a \$250 deposit to participate in housing selection and to preregister for fall courses. Students who submit deposits after the due date will not receive priority in course selection or room selection for fall. Deposits for returning students are refundable through May 1 when the Center for Student Financial Planning and Services is notified in writing that a student will not be returning. Deposits are nonrefundable after May 1.

Student Health Insurance

The Commonwealth of Massachusetts requires that all full-time students have health insurance. All students are required to be enrolled under Dean College's SHP (student health insurance program) Insurance Plan if they are not covered by a health insurance plan with comparable coverage. The cost of Dean College's SHP Insurance Plan for the 2020-2021 year is \$1,919. The plan covers a student from 8/1/2020 to 7/31/2021.

The health insurance plan charge can be waived if the student is covered by a qualifying plan and completes the online waiver form.

Athletic Fees

Student athletes who participate on Dean Athletic teams will be assessed a fee ranging from \$50 to \$400 for practice and travel gear. Purchased gear then belongs to the student athlete.

Damage and Breakage Fees

Students will be charged for any damage done to College property. When the identity of the student or students responsible for unnecessary damage cannot be determined, the cost of repairs will be prorated among the students who appear to be involved. These charges will appear as Community Dorm Damages on the bill.

Instrumental Music and Voice Instruction Fees

Dean offers students the opportunity to have private instruction in voice or an instrument at an additional cost of \$600 for twelve 50-minute lessons per semester. If a student drops the course during the first two weeks of lessons, the student is financially responsible for those two lessons. If a student drops the course after the first two weeks of lessons, the student is financially responsible for the entire semester of lessons. Remember, "Drops" do not become official until the Office of the Registrar has received all completed paperwork.

The Arch Learning Community

The Arch Learning Community is a one- to four-year academic support program for students with diagnosed learning disabilities and/or other learning challenges, such as attention, memory difficulties and executive function, who would benefit from additional academic skill development.

Students accepted into the Arch Learning Community pay an additional fee of \$3,600 per semester for Arch 1 and \$3,200 for Arch 2. The per semester fee for Arch 3 is \$2,300 and for Arch 4 is \$1,500.

Academic Coaching

Academic Coaching provides structured support and assistance to meet the varied learning needs of Dean students. Academic coaches work with individual students to develop skills and strategies that create a foundation for success in future academic and

professional settings. Components of Academic Coaching include initial assessment and planning (based on past performance and anticipated goals) to help students determine the optimal level and combination of services to best meet student needs; a graduated structure of individual coaching, available one to five hours per week, with academic coaches; assistance with skill building in the areas of study strategies, note taking, time management and organization, test preparation, writing and reading comprehension. Additional per-semester fees for the program are \$850 for weekly one-hour individual sessions and \$850 for each additional hour per week per semester. Students may also choose to enroll in small group learning labs. The cost to enroll in a learning lab is \$550 per semester for one hour each week. For more information, please contact the Director of the Morton Family Learning Center.

Tuition Surcharges

Students enrolling in more than 18 credit hours in the Fall and/or Spring terms, including any combination of full-term and quarter-term credits, will be levied a tuition surcharge of \$775 per additional credit hour. Students are levied surcharges based on credit hours attempted for the term. If a student exceeds 18 credit hours in a term and then withdraws from a course, the student is still responsible for the surcharge. Students exceeding 18 credit hours in a term who are enrolled in Peer Tutoring courses (PTU) will not be assessed the surcharge for the PTU credit hours that put them over 18 credits. All other credit hours exceeding 18 credits are subject to the surcharge.

Other Dean College Costs

Books and supplies	\$500 per semester, estimated
Parking Sticker for Residents	\$350 per year
Parking Sticker for Commuters	\$100 per year
Field Trip Fees	\$30–\$75 per course
Course/Lab Fees	\$50–\$450 per course
Graduation Fee (mandatory for all students)	\$200
Replacement Access ID Card	\$50
Student Health Insurance	\$1,919 per year, estimated

Payment Policies

Payment of College Charges

Payment may be made by cash, check, electronic check/savings, wire transfer, MasterCard, Visa, American Express or Discover. All credit card payments and electronic check/savings payments must be made online through <https://dean.afford.com> and credit card payments may be subject to processing fees through TMS/Nelnet. E-bills for the fall semester are available in mid-June and are due the middle of July. E-bills for the spring semester are available in early December and are due the beginning of January.

If a paper check or an electronic check/savings payment is returned as uncollectible, the check amount will be

charged back to the student's account and a returned check charge will be added. If the returned check causes a balance to be past due, late payment charges may also be added.

Payment Plans and Financing Options

Families may divide the semester costs into monthly installments using a payment plan through TMS/Nelnet. For a \$40 fee per semester, payments may be made for the entire fall semester on an interest-free, five-month payment plan beginning July 1 and ending November 1 and then beginning again for the spring semester on December 1 and ending on April 1. Families must re-enroll in the payment plan each semester. For more information or to enroll contact TMS/Nelnet at 800-722-4867 or visit the website <https://dean.afford.com>. The College reserves the right to deny a student or family the ability to utilize the payment plan if they have not complied with the payment plan schedule for a prior term.

Families may elect to apply for student and/or parent loans to satisfy the balance of their student account not covered by financial aid. While we do not recommend any specific lenders, you may view private loan options on elmsselect.com and Federal Parent PLUS information on studentaid.gov.

Consequences of Late Payment and Nonpayment of Institutional Charges

A \$500 late fee may be charged to the student's account if payments are not received when due.

Students will not be permitted to register for subsequent semesters until balances due are settled. If for any reason a student's account is not paid in full, classes and dining center privileges may be withheld, grades will not be reported or recorded for that semester, and transcripts or other academic information will not be released until satisfactory settlement of the account is made. The College also reserves the right to withhold diplomas, certificates and transcripts at the end of the academic year until students have fulfilled their financial responsibility. (Please note that transcripts and diplomas may be released as soon as payment is made by cash, bank check or credit card. Payments made by personal check will be held an additional three weeks to assure check clearance.) In extreme cases of nonpayment, the College reserves the right to administratively withdraw a student from the College and remove the student from her or his residence facility. In cases of administrative withdrawal, unpaid charges remain owed in full to the College.

If any overdue obligation is referred to an outside agency or attorney for collection efforts and/or legal suit, the debt is increased to cover all reasonable costs of collection including collection agency and attorney's fees and court costs. By registering for any class at the College, each student accepts and agrees to be bound by the foregoing policy as applied to any preexisting or future obligation to the College.

Refund Policies

In the event Dean College must suspend or alter its operations in whole or in part due to epidemic, pandemic, other public health emergency, extreme weather, natural disaster, acts or threatened acts of terrorism or war, or any other event beyond the college's control, the college may suspend, reduce, or modify its operations in whole or in part, which may or may not include offering online or other alternative learning options, in its discretion. In any such event, Dean College is under no obligation to refund or credit any portion of tuition, fees, or other charges paid or owed, but it may do so in its discretion.

Student Accounts with a Credit Balance

If a student's account reflects a true credit balance (not a potential credit created by pending financial aid or anticipated payment plan payments) due to either withdrawal from the College, excess financial aid, adjustment of charges or overpayment, the student or the student's parent can request a refund of the excess credit. The refund will be issued within two to three weeks of the request. In most cases, the refund will be issued to the parent.

Refund of Charges Due to Schedule Changes

If a student withdraws from a course within the first two weeks of the semester, course-associated charges such as lab fees or a tuition surcharge will be adjusted in full. Lab fees and surcharges will not be adjusted for schedule changes made after the second week of the semester.

For Instrumental Music and Voice Instruction Fees, if a student drops the course during the first two weeks of lessons, the student is financially responsible for those two lessons. If a student drops the course after the first two weeks of lessons, the student is financially responsible for the entire semester of lessons. Remember, "Drops" do not become official until the Office of the Registrar has received all completed paperwork.

Refund Policies in Cases of Withdrawal from All Courses

If a student withdraws or is withdrawn from all courses by the College for nonattendance early in the semester, an adjustment of institutional charges may be made to the student's account in accordance with the appropriate policy described in the following sections. Students who are suspended or dismissed from the College or residence halls for any reason will receive no adjustment of charges. In most cases in which the student received financial aid, any credit applied to the account will go to repay financial aid received and no money will go to the student or parent. Unpaid charges remaining on the account after all required adjustments are still owed to the College.

Refund of Learning Services Charges

If a student withdraws from all courses or is suspended from the College, the student is financially responsible for the entire semester cost of learning services. This includes the Arch Program, academic coaching, and learning labs.

Institutional Refund Policy

Students who withdraw from all classes will be eligible for a refund of tuition and room charges in accordance with the following schedule, based on the date the student officially withdraws from the College. This includes students who withdraw for medical reasons:

Up to and including the first day of classes	100% of institutional charges less enrollment and housing deposits
Within the first week*	80% refunded
Within the second week*	60% refunded
Within the third week*	40% refunded
Within the fourth week*	20% refunded

After the fourth week, there is no refund.

**Weeks begin with the first day of class for each term. For example, if classes begin on a Wednesday the first week would end on the following Tuesday.*

Students who are suspended or dismissed from the College or residence halls will receive no adjustment of charges. Students who received scholarship, grant or loan funds from the College will forfeit the same percentage of their awards as the percentage of fees credited based on the number of weeks that have elapsed. For example, a student who has 80% of institutional charges adjusted will forfeit 80% of any Dean Award or other institutional grant awarded by the College.

Refund of Board Charges

When a resident student withdraws from all courses after all applicable refund periods have passed, the College will refund a portion of meal plan charges based on the number of complete weeks remaining in the semester. Students dismissed or suspended from the College or residence halls for any reason will receive no refund.

Return of Title IV Federal Student Aid Policy

Federal regulations require that students who withdraw from all classes prior to completing more than 60% of an enrollment term will have their eligibility for federal aid recalculated based on the percentage of the term completed, which shall be calculated as follows:

$$\frac{\text{\# days completed by student}}{\text{total \# of days in term}}$$

The total number of calendar days in a term excludes any scheduled breaks of more than five days.

Unearned federal aid (the amount that must be returned to the appropriate program) will be returned in the following order: Federal Direct Student Loans (unsubsidized, then subsidized), Federal Parent PLUS loans, Federal Pell Grant and Federal SEOG. Unearned state aid will be recalculated based on state guidelines.

Note: Students are responsible for any balance owed to Dean College as a result of the repayment of federal aid funds.

Questions about Refund Policies

For questions about the institutional or federal refund policies for students who withdraw or are withdrawn from all courses, or for examples of refund calculations, contact the Center for Student Financial Planning and Services.

Financial Assistance

Merit Scholarships

Scholarships and grant awards are renewable each year provided that the student maintains satisfactory academic progress and continues to satisfy any conditions specific to his or her scholarship. In addition, award amounts are based in part on whether a student resides in College housing; should a student's residency status change, the award would be revised.

Applying for Need-Based Financial Aid

Students may apply for financial aid each academic year. For the 2020–2021 academic year, students and one parent may complete the Free Application for Federal Student Aid (FAFSA) online at www.studentaid.gov. The FAFSA for the 2020–2021 academic year was available for completion in October 2019. The priority date for submitting all application materials is March 15, 2020. Certain types of financial aid are awarded on a first-come, first-served basis. Financial aid applicants are awarded in the order that their documentation is received in the College's Financial Aid Office.

Determination of Eligibility

Student financial aid eligibility is based on demonstrated financial need except for Dean Scholarships offered by Admissions and endowed scholarships. Need is defined as the cost of attendance minus the expected family contribution. The expected contribution amount is derived from the FAFSA. Dean College is not able to fully cover a student's financial need with need-based aid; therefore, the students/families are expected to obtain additional resources each year through a combination of their own savings, work income, parental support and/or loans. Eligibility for federal and state aid is based on information submitted on the Free Application for Federal Student Aid (FAFSA).

Student Responsibilities

During summer months and the winter break, correspondence from the Center for Student Financial Planning and Services will be sent to students at the permanent address and/or email address the student has provided to the Office of the Registrar. It is the student's responsibility to maintain an accurate mailing address and phone number with the Office of the Registrar. During the academic year, correspondence may be sent to the student's mailbox on campus and/or campus email address. Information may be sent to parents and/or students at the permanent address and/or email address. Students should promptly respond

to notices and information requests received from the Center for Student Financial Planning and Services to avoid loss of eligibility for aid previously offered. Students must notify Dean's Financial Aid Office if they receive any education-related assistance from a source outside the College, including private scholarships, vocational rehabilitation assistance or tuition reimbursement programs. Every effort will be made to keep previously awarded aid intact. If reductions must be made, loans will be reduced before grants. Failure to notify the Financial Aid Office may cause a reduction in a student's financial aid award.

Students are responsible for understanding the terms of each type of aid awarded and should ask questions if anything is unclear. Finally, policies and procedures for financial aid are subject to change at any time. Every effort will be made to keep students informed of changes, but students must share in the responsibility for keeping information current.

Satisfactory Academic Progress Policy for Aid Recipients

In addition to the academic progress standards published in the Academic Policies section of the catalog, financial aid recipients must meet academic progress criteria established in accordance with federal regulations. The Center for Student Financial Planning and Services will evaluate all students at the end of the spring semester after grades are posted. Students who are placed on probation will be evaluated each subsequent semester until they are no longer on probation. Students who leave the College and are readmitted will be evaluated before aid is offered regardless of the term in which they return to Dean.

Beginning in the 2020-2021 award year, students must maintain a cumulative GPA based on credits attempted as follows:

Number of Attempted Credits*	Good Academic Standing	Academic Probation	Academic Suspension
0-19 Attempted credits	1.800 Cumulative GPA	0.001-1.799 Cumulative GPA	0.000 Cumulative GPA
20-39 Attempted credits	1.900 Cumulative GPA	0.001-1.899 Cumulative GPA	0.000 Cumulative GPA
40+ Attempted credits	2.000 Cumulative GPA	0.001-1.999 Cumulative GPA	0.000 Cumulative GPA

Students must also successfully complete 60% of all attempted coursework. Any course in which a student is enrolled after the regular drop/add period is considered an attempted course. A passing grade is successful

completion of a course with a grade of “D-” or better. Failure, withdrawal after the second week (or at any time during which a withdrawal grade of “W,” “WP,” “WF,” “RW,” “RP” or “RF” will be posted to the student’s transcript), or an “Incomplete” (“I”) in a class constitutes an attempted course that is not successfully completed. Repeated courses will be counted when measuring this standard.

Federal aid recipients cannot continue to receive aid after they have attempted more than 150% of the number of credits required for their degree. For example, students who have attempted more than 180 credits for a 120 credit-hour degree will be ineligible for additional aid for subsequent terms. Transfer credits are counted in the total number of credits attempted. Repeated courses will be counted when measuring this standard.

Students not making Satisfactory Academic Progress will be notified in writing by the college. Students who fail to meet Satisfactory Academic Progress standards may not be eligible for financial aid in subsequent academic periods. Eligibility may be regained by submitting an appeal prior to the beginning of the following term. Appeals should contain a signed letter from the student and any documentation that supports claims of extenuating circumstances. Supporting letters from advisors and professors are also encouraged. Grounds for appeal include the student’s documented illness or other extenuating circumstances. Additional documentation may be requested depending on the nature of the appeal. Decisions will be made by the Academic Appeals Committee. Students who regain eligibility will be placed on probation and their progress will be calculated at the end of each subsequent term until they are in good academic standing.

Students may also regain eligibility by taking coursework to improve their grades or completion rate without the benefit of financial aid. Students can be re-evaluated for eligibility at any time and can be considered for financial aid in the term following the point at which the standards are met. Academic achievements at other colleges can be considered as part of an appeal. Transfer courses can be counted toward the progression calculation but will not affect a student’s GPA record at Dean College.

U.S. Veteran Educational Benefits

Your military service has made you eligible for Veterans Administration and/or branch specific educational benefits to help you pay for college. Dean College is committed to assisting you in attaining those benefits that you are eligible for.

Dean College acts as a liaison with the Veterans Administration for students who qualify to receive veteran educational benefits. Eligible veterans must first apply for their educational benefits by completing an application with the U. S. Department of Veterans Affairs in order to obtain a Certificate of Eligibility (COE). Applications can be completed online:

<https://va.gov/education/how-to-apply>.

Veterans may be able to transfer all or part of their benefits to a spouse, or dependent(s). To be able to use benefits, qualified veterans or family members are required to enroll in a degree or certificate program.

Once the Certificate of Eligibility has been received, the student should contact the School Certifying Official (SCO) in the Office of the Registrar and submit the document (COE) for verification. The SCO will then certify the student’s enrollment information to the Veterans Administration that will process payment of benefits.

To determine your eligibility, or for more information and assistance, contact the U.S. Department of Veterans Affairs at **1-888-GIBILL-1** (1-888-442-4551) or visit their website: <https://va.gov>.

Yellow Ribbon Program

Dean College is also a proud participant in the Post 9/11 GI Bill® Yellow Ribbon Program. Only veterans entitled to the maximum benefit rate based on service requirements under the Post 9/11 GI Bill® or their designated transferees may receive funding under the Yellow Ribbon Program. While Dean College does participate in this program, there is a maximum number of individuals to whom the school is able to award funding under this program each year. In most cases Yellow Ribbon support will replace previously awarded institutional funding.

More information on the Yellow Ribbon Program benefits and if you are eligible, may be obtained on the U.S. Department of Veteran Affairs official website: www.gibill.va.gov.

Veterans Benefits and Transition Act of 2018

Dean College is compliant with the Veterans Benefits and Transition Act of 2018 S.2248 Section 103.1.(b).

NOTE: A covered individual is any individual who is entitled to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post 9/11 GI Bill® benefits.

Dean College will permit any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to Dean College a Certificate of Eligibility for entitlement to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post-9/11 GI Bill® benefits, and ending on the earlier of the following dates:

1. The date on which payment from VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the Certificate of Eligibility.

Dean College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities,

or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under Chapter 31 or 33.

"GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government web site at <https://www.benefits.va.gov/gibill>."

Associate Professor of English
Director of the Writing Center
Coordinator of Writing Across the Curriculum
B.A., University of Michigan
M.A., Ph.D., Tufts University

JOHN J. MOORE

Adjunct Instructor in Criminal Justice and Homeland Security
B.A., University of Massachusetts
M.A., Providence College
J.D., Suffolk University Law School

WILLIAM F. MORGAN

Adjunct Instructor in Criminal Justice and Homeland Security
B.S., University of New Haven
J.D., Quinnipiac College School of Law

BARRY S. MORRIS

Adjunct Instructor in Business
B.S., Northeastern University
M.S., Eastern Nazarene College

JEROME D. MOYNIHAN

Adjunct Instructor in Business
B.A., University of Rhode Island
M.B.A., Bryant College

CRISTOBAL MUNOZ-MARQUEZ

Adjunct Instructor in Dance

MADANI NAIDJATE

Professor of Mathematics
Director of the Mathematics Center
B.S., Algiers Polytechnic Institute
M.S., Ph.D., Boston University

MICHAEL V. NAPOLITANO (VIC MICHAELS)

Associate Professor of Communications
WGAO-FM Operations Manager
A.S., Community College of Rhode Island
B.S., M.B.A., Bryant College
M.A., Emerson College

CLAYTON H. NORDHILL

Applied Music Instructor

GEORGE O'GRADY

Adjunct Instructor in Computer Science
B.A., Bentley College

SCOTT ERNEST O'NEILL

Adjunct Instructor in Criminal Justice and Sociology
B.S., J.D., Western New England University

STEPHANIE A. O'NEIL '90

Adjunct Instructor in Mathematics
A.S., Dean College
B.S., M.A., M.Ed., Bridgewater State University

TIMOTHY P. O'NEILL

Distinguished Executive Faculty, School of Business

SHANNON K. OVERCASH

Adjunct Instructor in Business
Assistant Dean of Students
B.S., Worcester State University
M.Ed., Suffolk University

JOAN P. PALLADINO

Adjunct Instructor of Dance
Dean Emerita, Palladino School of Dance
B.S., Springfield College

NORA K. PARREN

Assistant Professor of Psychology
B.A., Vassar College
M.S., Queen's University
Ph.D., University of Lyon, France

JESSICA L. PAULIN

Adjunct Instructor in Sport Management
Head Field Hockey Coach and Head Women's Lacrosse Coach
B.S., Suffolk University
M.S., Lasell University

ROSHNI PECORA, '94

Adjunct Instructor in Dance
A.A., Dean College

MAYA H. PERETZMAN

Adjunct Instructor in Psychology
B.A., Marymount Manhattan College
M.A., Ph.D., Lesley University

JAMES PERRO

Adjunct Instructor in Criminal Justice and Homeland Security
B.S., University of New Haven
M.F.S., George Washington University

JESSICA M. PISANO

Associate Professor of Biology and Mathematics
Program Coordinator of Mathematics and Sciences
B.A., University of California
Ph.D., Brandeis University

DAWN E. POIRIER

Associate Professor of Biology
 Director of the Rooney Shaw Center for Innovation in Teaching
 B.S., Simmons College
 M.Ed., Harvard University
 Ed.D., Nova Southeastern University

CATHERINE C. PRINGLE

Adjunct Instructor in Music
 B.A., Stetson University
 M.A., Indiana University

DANIEL R. PUMA, JR.

Adjunct Instructor in Business
 B.S., University of Maryland College Park
 M.A., Bowie State University

BRIAN M. QUINLAN

Adjunct Instructor in Business
 Director of Student Involvement & Leadership
 B.S., Quinnipiac University
 M.Ed., Springfield College

MELISSA P. READ

- 41 Home Hall

Longley Athletic Fields Complex:

From Dean: follow Main Street past the traffic lights at Town Common for ½ mile. At fork in road (Red Brick School House) bear left onto Maple Street. The main Longley Field entrance is ¼ mile on the right.

Directions

Directions to Franklin

From Massachusetts on Massachusetts Turnpike (US 90): Take Exit 11A to I-495S. Take Exit 17 from I-495S to Franklin on Route 140S. (Springfield – Approximately 1.5 hours)

From Southern Connecticut and Rhode Island on I-95: Use exit to I-495N. Take Exit 17 from I-495N to Franklin on Route 140S. (Danbury – Approximately 2.5–3 hours)

From Central Connecticut: Follow I-84 to Massachusetts Turnpike (US 90). Take Exit 11A to I-495S. Take Exit 17 from I-495S Franklin on Route 140S. (Hartford – Approximately 1.5 hours)

From New Hampshire and Maine: Follow Route 1S or I-95S. Take I-495S to Exit 17 to Franklin on Route 140S. (Nashua – Approximately 1.5 hours; Portland – Approximately 2 hours)

From Logan Airport: Follow Southeast Expressway (I-93) to Massachusetts Turnpike (US 90) West. Take Exit 11A off of Turnpike to I-495S. Follow I-495S to Exit 17 to Franklin on Route 140S. (Approximately 1 hour)

From Long Island: Take the Long Island Expressway to I-495N to Clearview Expressway (I-295N) to the Throgs Neck Bridge to I-95N. Follow I-95N through Connecticut and Rhode Island to I-495N to Franklin. Take Exit 17 and follow Route 140S. (New York City – Approximately 4 hours)

From Westchester County, Southern New York State, New York and New Jersey: Follow I-95 (as above) or follow I-684E to I-84E to the Massachusetts Turnpike (US 90). Follow Turnpike to Exit 11A. Follow I-495S to Exit 17 to Franklin on Route 140S. (Northern NJ – Approximately 4 hours)

From Albany, Upstate New York: Follow Route 90E (Massachusetts Turnpike) to Exit 11A. Follow I-495S to Exit 17 to Franklin on Route 140S. (Approximately 3 hours)

Alternate Route: For those using I-95N, it is possible to bypass the city of Providence by taking I-295N (in West Warwick, RI). Follow I-295N to I-95N (in Attleboro, MA) to I-495N (in Plainville, MA). Take Exit 17 to Franklin on Route 140S. (Approximately 45 minutes)

How to Reach Dean from I-495

Dean College is located in Franklin, Massachusetts. To reach Franklin, take exit 17 from I-495 onto Route 140 South (West Central Street) toward Franklin.

If you are using a GPS, enter the address 109 West Central Street, Franklin, MA 02038.

To the Office of Admissions: Continue on Route 140S for 1.5 miles until you pass the traffic light at the intersection of Route 140S/West Central Street and Union Street. Just past this intersection, enter the Dean College parking lot on the left, follow the signs for Admissions Visitor Parking, and park in one of the spaces designated “For Admissions Visitors Only.”

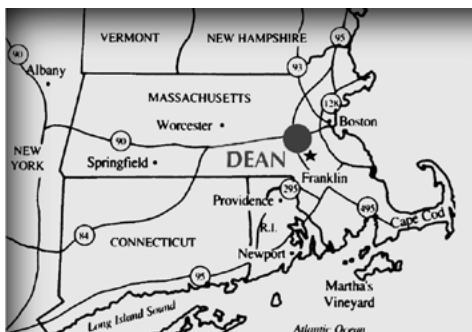

Once you park, enter the Campus Center and walk through the concourse to the rear exit. After exiting the Campus Center, walk to the front entrance of Ray House, a white Victorian building located directly in front of you. The Office of Admissions is located in Ray House at 90 Main Street.

Dean Hall Parking: Continue on Route 140S for 1.5 miles until you pass the traffic light at the intersection of Route 140S/West Central Street and Union Street. Just past this intersection you will see the Dean College parking lot on the left – do not enter this lot. Instead, get into the left lane and take a left at the light onto Emmons Street. Once on Emmons Street you will stop at one stop sign. Continue straight on Emmons Street at the intersection. The third driveway on your left is the entrance to the parking lot behind Dean Hall.

NOTE: Emmons Street is a one-way street along this section of the road – DO NOT turn right when exiting the Dean Hall parking lot.

Train and Bus to Boston

Dean is 30 miles southwest of Boston. Many students travel there on the train, which runs seven days a week from the Dean College/Franklin Station, a five-minute walk from the campus. Daily bus service to Logan Airport is available from a nearby town. Visit the [Map & Directions page](#) on the Dean College website to find links to Logan Airport and the Commuter Rail.
